Harmony® Elite Plus Elite Plus Installation Guide | Guide d'installation Languages in English . 4 Français . 14 Contents of package 1. Elite Plus 2. Harmony Hub controls your devices via infrared, Bluetooth® or Wi-Fi 3. Charging station 4 English 4. USB cable Configure the hub via PC or Mac if access to the mobile device is not available. 5. The power supply provides power to harmony hub 6. 2 Mini Infrared Blasters Extend infrared range in conjunction with Harmony Hub Congratulations when you buy Harmony Elite Plus Harmony Hub is the center of harmony system - always turn it on! 1. The hub receives commands from a remote or mobile application. The remote control itself does not send commands directly to the devices.* 2. The hub sends commands to audio-video and home control devices in the form of Bluetooth, Wi-Fi, and infrared (IR) signals. *Remote control can be configured to send infrared signals directly to devices. By default, it will communicate with the hub using RF signals as shown above. English 5 Let get start STEP 1 Position Harmony Hub Mini Blaster Harmony Hub Charging Station Harmony Elite Plus Harmony Hub can be placed in any undisturbed place where infrared signals can be transmitted to the AV equiment or can be placed behind closed cabinets with mini IR blaster transmitters connected to the hub and placed as shown above. Once connected, the hub turns on for about 30 seconds. The LED lights up red when connected. Once successfully paired and connected to your home network, it will glow green (step 3). 6 English STEP 2 Charge the remote plug to the charging station and place the remote control in it. Store the remote control in the charging station until setup is complete. The charging station should be in the same room as the hub to optimize communication between the remote control and the hub. English 7 STEP 3 Install harmony • Visit the Apple App Store or Google Play and install the Harmony app. Launch the app, select Set up a new remote control, and follow the setup instructions. Alternatively, you can configure Elite Plus using your PC/Mac. Visit setup.myharmony.com to download harmony desktop configuration software. Note: If you have an iPhone 4, iPad 1 or iPad 2, or an Android device that doesn't support Bluetooth, visit the setup.myharmony.com on your computer to connect the hub to a Wi-Fi network before you begin step 3 of your mobile phone setup. For more detailed instructions and product information, visit support.myharmony.com/elite-plus The rest of the configuration will be done using your mobile device. See the next section for expectations. 8 Overview Mobile apps in English When you download and open the Harmony Mobile app, you'll see the following steps: • Connect the hub to a Wi-Fi network. Using a mobile phone connect the hub to a wireless network. • Create a Harmony account. • Scan your Wi-Fi network for devices that can be controlled by Harmony (e.g. • Add home entertainment devices for additional devices that were not found during a Wi-Fi scan (e.g., • Add home control devices. Harmony supports various devices such as selected lights, locks, thermostats and home control platforms. See the Home Controls Explained section for more information. • Create activities. You'll be guided by activities such as Watching TV, Listening to Music, and Playing Xbox. See the One-Touch Activities section for more information. • Software update: You may need to update the remote control software. If necessary (you will be informed after the mobile setup is complete), simply keep the remote control in the cra stand. The time remaining until the update is complete will be displayed on the remote control screen. English 9 Home Controls Explained Your Harmony Elite Plus supports many devices such as lights, light switches, locks, thermostats and blinds. Harmony Elite Plus also connects to other home control platforms to access additional devices supported by these solutions. The list of supported devices includes: * Nest Learning Thermostats, Philips Hue Lights Honeywell Wi-Fi Thermostats, Lutron Caséta Wireless Lights, Lifx Lutron Serena Window Shades SmartThings, PÊQ *Harmony compatible devices list is constantly growing. Visit myharmony.com/ for the most up-to-date list of compatible brands, devices, and model numbers. Device compatibility is subject to change without notice. 10 English Get creative-Make it Home! Add good night activity that turns off all lights, lowers blinds and thermostat, locks doors! Set the perfect dinner mood with a single touch — launch your favorite music video, set the lights to vivid colors and turn up the heat. With one touch it dipped light, turns on the smoothing music at the perfect volume and is relax time. English 11 How to use the remote control 12 English 1. Clock/Battery Tap to switch between the clock and the battery meter. By default, the clock will be displayed. If the battery level drops below 20%, the battery counter is automatically displayed. 2. Actions Tap the action soft button to access the home screen action. You'll see a list of all activities. 3. Devices Tap the soft device button to access the home screen of your devices. You'll see a list of all Your Home Entertainment and Home Control devices. 4. Harmony Elite Plus button mapping includes special buttons that can be used to control supported Home Control devices. For example, you can map a button to on and off the color controls, and use the +/- button to adjust the brightness of the bulb. Gestures & Gesture hints during an activity swipe down from the top of the screen to display the gesture screen. Here, simple taps and swipes will perform functions related to your current activity, such as changing the volume, skipping forward or backward, pausing and playing, etc. Tap the button at the top to see what gestures are available for each activity. Not only persisted on hardware that is closer to your computer, but also try out household needs. Thanks to innovations, this brand introduces a universal remote control called Logitech Harmony Elite. Logitech Harmony Elite Universal Home Control This device continues the success of its previous universal remote, Ultimate Harmony. With this universal remote control, you can use all electronic devices in your home, such as thermostats, TVs, air conditioners and other instruments (provided they support remote control). Each command can be easily executed to activate, change the mode, or disable device connection. Elegantly designed with color touch screen, there are also illuminated motion sensor buttons. Everything will be comfortable with harmony elite and makes universal home control seem like magic. The smart and easy-to-use Logitech Harmony Elite app can also provide status information from all connected devices or devices. But in this way, it will also not eliminate the basic function of this remote control. Exceptionally, Harmony Elite supports up to 15 electronic devices and an entertainment center for gadget users. For more information about the settings of this product, you can download the logitech Harmony Elite software and manual links that I provide below. Since this remote is connected to the Internet, you can connect via smartphone to an app that can be downloaded from the App Store for iOS and Play Store for Android. This device supports more than 270,000 electronic devices on the market, ranging from TVs, playstations, media players, lights, thermostats, electric windows and more. Read also: Logitech Harmony HUB Manual, Software, and ReviewOverall, this device is useful to make it easier for you to do your job and you no longer need to use multiple remotecontrols. For those who want to buy this Harmony Elite remote, you can visit logitech's official website or other markets that supply it. This product can still be ordered with a sale price of about $350.
