He was on her, so desperate to treasure every moment, so afraid of what was to come. Tear at her clothes. A look at hell in his eyes. And she so eager to take everything he has to give. Never question, never doubt... (You my darling, forever in my mind, eternal in my heart. How will I live a day without you... Words die on my lips, the story locked in my mind. I reach out, but you're not there. I gasp for breath — a silent cry, a pain no man can carry...) How to guide a girl to orgasm? Many men do the same mistakes while trying to find the correct answer to this question. One of the most common flaws in their waste. Women can't get real satisfaction without the predicted, that's their nature. A very small amount of women can reach the peak without soft and cystasy actions, while the majority of them just simulate. Reasons for simulation may be different, but mainly such situations are caused by the lack of attention from men because they are only concentrated on their male needs. The second error is the wrong priorities. Unfortunately, not all males know that female erogenous zones are not only located in their sexual organs. You need to start the predicate, not from her sexual organs. You have to remember that girls need some time to avoid shame and shyness during lovemaking. The less a man and a woman dates, the longer such a term is. The attitude also plays one of the most important roles. the suffer poses provide the maximum level of relaxation, but only if a girl is completely ready. If you can feel some kind of resistance from the girl, try to delay use of this attitude. By the way, the book 67 Ways to Make Her Come contains a unique bunch of methods, which will lead your girlfriend to an orgasm. Josh Allwood just wrote correctly and really worked things up. You must download its directory if you want to become true Casanova. Another important aspect is your clothes, or in fact the way you remove them. You have to do it simultaneously and equally. You have to remember that the majority of women can't keep men, who make sex in socks and with watches on their wrists. Such accessories show the rabbits, which are simply unacceptable during such moments between a man and a woman. If a man wants to lead his wife to an orgasm, he should remember that women love their ears. You have to tell nice words and choose the right tone. Real words are better than any actions. Don't forget about the lips contact, because passion kissing can bring you to the peak. Female erogenous zones can be located virtually anywhere, that's why it's so hard to find it for a man. Erogenous zones can be hidden in the most unexpected places. You can find it a little lower the back of the head, in the inside of her elbow or in other surprising places. But each woman has her own erogenous zones system. The most important thing a man needs to know to bring his wife to orgasm is that preparation plays a key role. Excitement should grow gradually, slowly getting closer to the peak. You can switch to sex itself just after proper preparation. There is a widespread opinion that any woman can only get an orgasm through stimulation and lovemaking with her erogenous zones. Could this idea be the only correct one? Of course, no! This can be confirmed with a majority of orgasms, which have even been received without any direct contact. For example, a phone call between two people with a distance of 1100 km leads to an angry and spontaneous orgasm that dropped phone and frying pan, even though the woman held the frying pan in her hands and the phone between her ear and her shoulder. Other cases were recorder when women merely heard the sound of receiving an SMS message. So, dear boys, girls aren't as easy as it seems)) I wish you good luck! 67 Ways to Make Her Come More by Josh Allwood The 67 Ways To Make Her Come More ebook Download in PDF (.pdf) Format.
