Driver/Designate Performing this Bus Inspection ... POST TRIP 10. Interior: On ... © 1996-2015, Amazon.com, Inc. or its affiliates Jun 5, 2005 I read elsewhere about a book called the paper trip. I need a different player card and I would like an image id so I can get the comps.has someone read it and makes it work? It's legal to try to get a fake ID as long as I don't use it for serious purposes, thank you Jun 6, 2005 FAKE ID I haven't read the paper trip. So I can't discuss that. However, with respect to a false ID, I have heard that it is illegal to possess identification that is intentionally made to replicate an official government ID. If you don't get caught with forgery, you're fine. Make the fake ID such that it does not replicate an official government ID. This can work if you just make your own type of driver's license from some state that is not the typical clientele of your gaming destination. As an example: Maybe you go to Tunica a lot, I bet not many people from Alaska go to Tunica. If you make any I.D. that says you're from Alaska, I don't think anyone at the casino knows it's fake. Specifically the ladies in the player's club booth. June 6, 2005 make one? I have no idea how to make an I.D. I'm not worried about getting caught with a id. I fake card would be used to get the cards from the players and occasionally get comps. I'd always have my real I.D. June 6, 2005 FAKE ID I really don't know how to make one. I was more or less referring to having one done. If you're not worried about being caught with ID, what's your concern? Once you get the player's card, the only time you'll need it is when you check into your room and maybe to use other compositions. You may want to have your real address on the fake ID, so any mail will still come to you. An alternative is to have a fake address on your ID, but when you sign up for the player's card, tell them you moved in recently. Give them your real address or a post box in the booth. This way the mail offers I still attend to you. As for obtaining a false ID... that's the real trick, isn't it? My only suggestion is to ask around. Talk to some co-workers who may be involved in the most sordid areas of society. If you happen to be a college student, you may have an easier time getting one. If you know any degenerate from high school, then you can have your source. June 7, 2005 The answers you are looking for (WE) will not be found on the Public Boards..... I have asked this question several times on this and other BJ sites, i.e. where can I get a realistic fake ID? Realistic? The closest I came to a real response was: Drive east of LOS La, and look for a Hispanic man standing outside a pharmacy (sic) using a sign that read Realistic Fake I.D.'s Inside. I easily have Fake credit cards... just tell your CC-company that phantom007 is now on your account.... Problem: There is no valid ID to back it up! I have checked (BUT NEVER PURCHASED) several sites on the Internet that offer the same... THEY LOOK GOOD... will pass the count.... I do not know. Also, since most, if not all, are OFFSHORE... difficult to get a refund if you are not satisfied. That said, 1. There's a good FAKE ID out there... Age 19-20 University Students are probably a good source! But where my own 19- to 20-year-old son goes to college, a group of kids just got arrested for doing the same thing with their computers in the room! It! Maybe I should suggest my son transfer! 2. I'm just a tourist, and I'll only be here for another hour and a half... works well when it's true! 3. ONE of the BEST I've heard!... Hell Not If I give you my I.D., you'll send emails to my house. My wife only sh-T if she knows I'm back in the casinos again! Other ideas include: A. Borrow abandoned player cards from slots..... certainly risky, like a middle-aged Caucasian trying to play BJ like Wong Hung Lo, or along the same line, an Oriental trying to pass as Jim Winston Smith. B. BUY player cards from obvious tourists at once.... walk to the North Little Rock Village group as they are checking out, and offer \$5 each for their player cards..... good for them (they probably won't be back) and good for you! Just a few thoughts. Ghost007. June 7, 2005 good ideas, but I want to get my own id so that I can redeem comps.i can use a friend id, but number 1, I don't want them to get involved with my count, and number 2, all offers will be on your behalf. I expected someone to read the book and tell me if it's worth thinking is that, if it worked, it no longer does, because of June 11-S. 7, 2005 you can get id that says don't govt id when you say this is not it.my a document government id in it, which is not illegal, but good enough to use for cards.. etc. You chose the stats you want. A girl I know makes about \$30. or there are some online sites that make very good ids. one is outside Sweden, but its \$200. June 7, 2005 is not a government ID?? I bought a couple of those in high school. I didn't know they could be used for player cards. I thought it had to be a state-issued ID or passport. Have you used that ID for players. June 8, 2005 SI, for many years the real fine print says it is not a government document.. most are identical to the colors of the state license, so at first glance they look similar. June 8, 2005 Yes, I had some facts ... *PIC * ... which said Motor Services Vehicle (instead of motor vehicle services) and in the back restricted me to a differential of 1-20 in Games. It's not illegal at all and working well. zg Ps - However - (Dead Link: Start your Review of Paper Trip I this is what you need to know about this: it's not a book; it's a pamphlet of how to do it. It is a self-published/small press brochure from the late 1970s on information technology is creating an older brother state that will track where we are and what we like and who we are to the best degree, and how you can take the paper journey and get rid of the great memory of man's system. I read it as research for my next novel, as I was starting the research a while ago. But man, it turned out to be fu this is what you need to know about this: it's not a book; it's a pamphlet of how to do it. It is a self-published/small press brochure from the late 1970s on information technology is creating an older brother state that will track where we are and what we like and who we are to the best degree, and how you can take the paper journey and get rid of the great memory of man's system. I read it as research for my next novel, as I was starting the research a while ago. But man, it turned out to be fun as a document of your time and your intention. So to be clear: not exactly a book or story you'd read for fun. But a truly orderly social history document, essentially. ... More... More
