How to make pareto chart in excel 2007

And make the following modifications: For the count series, select the Cluster column (default type). Do. and 2019. Download our free pareto chart template That do not serve any practical purpose. Right-click the gridline and click Delete to delete them. eventually eventually on the right) and select the format axis. Once the Format Axis task pane appears, do the following: Go to Axis options Change the maximum range to 1. Step #6: Change the gap width of the column. Related data series (widen columns by tweaking the difference width of the series item back). To do this, right click on any blue column representing the series item returned and click on the format data series. Then, follow a few simple steps: Navigate to the Series Options tab. Change the gap width to 3%. Step #7: Add data labels It's time to add data labels for both data series (right-click > add data labels). As you may have noticed, the labels for the pareto line look a bit messy, so place them just above the line. To reinstall the label, right click on the data label for series cumulative% and choose the format data label. In the Format Data Labels task pane, change the label status by following: Go to the Label Options tab. Under Label status, select above. You can also change the color and size of the labels to separate them from each other. #8 Steps: Clear the chart. Finally, as we finish polishing the graph, be sure to get rid of the chart legend and gridline. Don't forget to add axis titles by following the steps shown earlier (Design > Chart Element > Axis Title > Primary Horizontal + Primary Vertical). Your enhanced Pareto chart is ready! Download our free Pareto chart template for Excel. Download Now
