User Reviews I found the need to know pages a great help in the study for the NCLEX. My school gave us the Hurst live exam and I attended 3 days of a woman reading PowerPoint lectures with interesting pieces of videos thrown here and there. Pure torture! The information in this book was better than the boring Hurst live review in my opinion. I was surprised that the information contained in this book and the information from the live review were so different. Some great principles and tips, but I have a hard time giving more than 3 stars to a book that hasn't been updated since 2008 when the NCLEX is updated every 3 years.
