Capitol Street, Suite 500 Jackson, MS 39201 JACKSON, Miss., October 26, 2020 /PRNewswire/ -- Mississippi residents can choose Magnolia Health's Ambetter for statewide health care coverage through the federal health insurance market. As the COVID-19 pandemic continues to focus on health, Magnolia Health continues to offer a variety of health insurance offerings that are among the most affordable in the state. We value our members and remain committed to providing reliable, quality health care coverage plans through Magnolia Health's Ambetter, particularly in the midst of the current COVID-19 pandemic, said Aaron Sisk, President and CEO of Magnolia Health. As the country's number one insurer, we have the experience and resources to provide Mississippi residents with insurance options that give them peace of mind and allow them to take charge of their health with affordable health care options. Magnolia Health's Ambetter offers increased value, practical services and benefits that help make health insurance a place in people's lives. For those who have been affected by the loss of jobs during the pandemic, Magnolia Health's Ambetter offers an alternative that is often more affordable than COBRA, the health insurance program that allows people to employer-provided coverage. Although COBRA maintains an individual's current coverage, it will pay 100% of the cost plus 2% additional administrative costs, and grants are not available to reduce those costs. COBRA will also eventually expire, forcing a person to apply for new coverage. Valuable Rewards Program Members have access to the Pay®, where they can earn points for practicing healthy eating habits, moving more, saving smart and being well. Through the program, members can complete health-related activities and challenges. Members can earn \$500 in rewards in 2021. These rewards can be used for health-related expenses such as co-payments, deductibles, and more. My Health Pays® also allows members to set themselves and achieve their own health goals at their own pace by providing seasonal suggestions for activities and directions to help stay on track. Online registration assistance Through the Ambetter of the Magnolia Health website, people can browse and compare coverage options, determine their eligibility for financial grants, and sign up directly for coverage - all from one place. The platform is also designed for mobile access, so people can sign up using their smartphones. If a person is unable to complete registration at once, the system will record their progress and provide reminders to complete the registration at their convenience. Access to Telehealth Ambetter Telehealth provides convenient, 24-hour access to Ambetter networked health care providers for non-emergency health problems. With a \$0 co-pay, members can get medical advice, a diagnosis or a prescription by phone or video, without having to leave their home. The service also allows them to upload images that can support their medical consultation, and a summary of the visit can be shared with their primary care provider. Affordable and reliable coverage Ambetter of Magnolia Health provides coverage for all essential health benefits, including prevention and wellness services, maternity and newborn care, pediatric services, mental health services, hospitalizations, prescription drug coverage, and more. Diets also include dental and vision coverage. In the midst of the ongoing COVID-19 pandemic, Magnolia Health's Ambetter also covers the cost of COVID-19 tests and the visit of the associate physician when medically appropriate. Magnolia Health has served Mississippi since 2011 and currently serves more than 300,000 members under its Medicaid, Medicare and Ambetter plans.
