SIGA-NOS The developer intended to create a video player with more features than most of the similar applications on the market. The plan became real thanks to this mobile solution that supports all video and audio formats. The app allows you to play any video file stored on your Android phone or tablet, switch between multiple aspect ratios, such as 16:9 or 4:3, and load SSA, ASS, SMI, SAMI, SRT, SUB, MPL, PSB or TXT subtitles. Don't worry about possible interruptions as the software remembers your position and picks up clips from the exact moment you come back. Watch videos on popular platforms like YouTube, Vevo, Hulu or Vimeo, discover funny clips, watch CNN, CBS, CNBC or ESPN news and watch movies. In addition, the app lets you share the fun experience with your family or friends and stream videos, music and movies to a pc or TV nearby without uploading files to the cloud.
