(July 2010) (Learn how and when to remove this template message) Common Quotes Bartlett AuthorJohn BartlettCountCountryUnited StatesPublished1855 Little, Brown and Company Bartlett's Familiar Quotations, often just called Bartlett's, are American reference work which is the longest-live and most circulated quote collection. The book was first released in 1855 and is currently in its eighteenth edition, published in 2012. The book organizes its participation by the author, rather than by subject, because many other quote collections, and enter writers chronologically by birth date rather than alphabetically. Within a few years, the author was arranged alphabetically and quotes were arranged chronologically in each author's entry, followed by associated words whose sources in the author's writing have not yet been verified. This book contains a comprehensive keyword index and details the source of each quote. The history of John Bartlett, who runs the University Bookstore in Cambridge, Massachusetts, is often asked for information about quotes and he starts their general book for reference. John Bartlett should generally have drawn quotes in his book from his own extensive readings and prodigious memory and common books he kept. But he admitted in a 1855 preface that this Collection... was significantly enlarged by the addition of English work on the same plan. The work, Hancher found, was named in several reviews at the time as a Common Quotation Handbook from English Author written by Isabella Rushton Preston (London, 1853). The usual quote of Bartlett, we see, has a relatively shadow editorial proof. In 1855, he privately printed his compilation as a Common Quotation Collection. This first edition contains 258 pages of quotes by 169 authors, mainly the Bible, William Shakespeare, and a great English poet. [1] Bartlett wrote in the fourth edition that it was not easy to determine in all cases the level of closeness that might belong to the phrase and sentences presenting themselves for admission; for what is familiar to one class of readers may be relatively new to the other. The book was a huge success, and Bartlett released three more editions before joining the production firm Boston Little, Brown and Bartlett rose to become a senior partner of the firm and oversaw nine working editions before his death in 1905, selling work of over 300,000 copies. The seventh edition has appeared in the eighth edition in 1882, and ninth in 1891. However, the tenth edition will not appear for more than twenty years. Edited by Nathan Haskell Dole, the tenth edition (1914) is the same as its predecessor. The book begins with its original passage in English, arranged chronologically by the author (Geoffrey Chaucer was the first entry, Mary Frances Butts the last). These passages are primarily from the source of the sastera. Various passages follow passages in English from political and scientific experts (such as fifty forty-four or struggling!). A following part of the translation, consisting primarily of lines from ancient Greece and Rome. The last part has been set up for the Bible and the Book of Solat Bersama. Call the price has been set in one lane. The eleventh edition (1937), edited by Christopher Morley (1890-1957) and Louella D. Everett, expanded the size of the page and created a two-lum format, making it the first known edition of modern working users. The twelfth edition (1948) was also edited by Morley and Everett. The 13th edition (1955) was acquired by the publisher as the Centennial Edition. Although the work was credited to Little's editor, Brown, preface paid special thanks to Morley and Everett and Emily Morison Beck (1915-2004). The lanchos have continued to add more material recently, the two youngest writers being cartoonist Bill Mauldin and Queen Elizabeth II. Beck also edited the fourteenth (1968) and fifteenth editions (1980). Aram Bakshian said Beck's work in the 15th edition was the beginning of the fall of work: Donating the intellectual underage and the shoes of his era platform, Bartlett began to soar in the third world, youth culture, and called the price of feminist, part of a mid-life obsession with eternal [Attribution required] Following beck's retirement, Little, Brown mandated editorship to Justin Kaplan, whose life Mark Twain, Mr. Clemens and Mark Twain, had won the 1967 Pulitzer Prize. Kaplan brought out the sixteenth edition (1993) to criticize in part because he included only three small Ronald Reagan passages and openly reviewed his portraying of Reagan. (Franklin D. Roosevelt had 35 inclusions and John F. Kennedy had 28.) Jonathan Siegel, who edited Macmillan's Book of Political Passages, said Kaplan was an affront to John Bartlett's memory and the inclusive spirit of the first edition of ideology. [Attribution required] Kaplan has also been criticized for including pop culture material that is considered unusual or durable. Similar criticisms have been raised about his editing of the seventeenth edition (2003), which included inclusions for the first time from J. K. Rowling, Jerry Seinfeld, and Larry David. Classic cut: eleven passages by Alexander Pope like what Kaplan considered sentimental high-sounding Kaplan didn't include six Reagan passages, and he told USA Today I admit I was taken away by the prejudicial. Mischievously I did him dirty. [3] The eighteenth edition, which came out in 2012, was edited by poet, critic, and editor Geoffrey O'Brien, who is also editor-in-chief of the American library.
