Umn it zoom

This article helps you sign up with the UMN Zoom platform. For security purposes, Zoom unsubscribes after 120 minutes of inactivity. Many meetings now require verification with your University account to prevent disruptions. For the most seamless meeting experience, always make sure you sign up in Zoom. Note to students: If you have questions about finding Zoom meeting IDs, please reach out to your teachers. There are three main ways to sign in to your UMN Zoom account. Select the option you want to use and learn more about: UMN Zoom Website This option will give you access to everything you can do in Zoom, including features that aren't available through the Zoom desktop or mobile app: schedule a webinar customize your default meeting or webinar settings access and manage your Zoom cloud recordings customize your profile settings like your Personal Assembly ID, Custom Link, Photo, and Host Key Zoom Client for Meetings Desktop Application This option allows you to customize your application settings. For instance, you can customize your camera settings, audio settings, or dual monitor settings; you can also add virtual backgrounds and test your audio and video before an assembly. Signing in to the Zoom program on your computer also gives you more convenient access to the following Zoom functions: start an instant meeting starting an upcoming scheduled meeting or webinar playing any local meeting or webinar recordings stored on your computer note: Only local recordings that are done using the account you are signed in to and that are stored on the current computer. will appear. If you have a local survey on another computer (even if you use the same Zoom account), it will not appear in the Zoom program on this computer. Download and install the Zoom for Meetings Desktop app. This can be referred to as Zoom Client for Meetings. Run the Zoom.us app Click the Sign-In button Click the Sign In with SSO button on the right Enter your UMN email address in the field: Or enter the umn domain in the text field if prompted. Click Continue. This will open the Zoom UMN Single Sign On page in your default web browser. If you're already signed in by your browser (if you're already signed in to your UMN email, for example), it will automatically log you on. If prompted, enter the Internet ID and password that you use for other University of Minnesota logins such as MyU and your UMN email account. Click Sign In. Authenticate with Duo if asked. If prompted, click Zoom.us you open you in the pop-up box that appears. This will take you back to the Zoom for Meetings desktop application. You will be taken to the Home tab within the Zoom for Meetings desktop application. From here, you can start a new instant meeting, assembly, join an assembly, or screen part. You can also click the gear icon to access the desktop client such as video and audio settings. View how to use Zoom's desktop app (Video) for an overview of the desktop app. Note: at the UMN, the Zoom chat functionality is only available within meetings and webinars. z Zoom Mobile App Log into the Zoom mobile app if you need to host a meeting or webinar on the go. You can also schedule a meeting directly into the app. Download the Zoom Cloud Meetings Mobile App from either the Google Play Store on Android or the App Store on iOS. Run the program. On the Start screen, tap Sign In. On the Sign In window, tap SSO Enter your domain in the text field when prompted. If you're in the health care component (HCC), enter umn-private. If you are not in the health care component, enter umn. This will open the UMN Single Sign On page in your default web browser. If you've already signed in to your UMN account through your browser on this device, you might not be asked to sign in. If you're prompted to sign in, enter the UMN Internet ID and password that you use to sign in to other UMN technologies like MyU or your UMN email account. Tap Sign In. Authenticate with Duo if asked. Tap Open to be taken back to the Zoom app if prompted You will then be taken back to the Zoom app where you will now be signed in. From there, you can start a new instant meeting, join a meeting, schedule a meeting, or share your device screen. You can also use the Gear icon to access the Zoom mobile app settings. Additional resources Zoom technology page resources schedule a meeting and invite others to join Hold meetings, office hours, study groups, and webinars online. Zoom is an online video conferencing system. It includes meeting and webinar capabilities, along with real-time messages and content sharing. Compare Zoom and Google Hangouts Meet Who Can Use Zoom? The University of Minnesota has licenses for all current faculty, students and staff to hold online meetings. Students, faculty and staff can host meetings for up to 300 people. Faculty and staff can offer webinars for up to 500 people. A limited number of licenses are available to Faculty and staff to offer webinars for up to 1,000 people. Students, faculty and staff who are part of the HCC (Health care component) will be assigned to a modified case of Zoom, in order to preserve best practices around Protected Health Information.Note: If you are part of the HCC, you should take a very short training before you can access your Zoom account. Access this training by clicking zoom.umn.edu and click Sign In. An accessible interface Automatic captions Breakout Rooms Polls, collaborative screen annotation, chat, and more Learn how to assembly a zoom Canvas. Your profile page in your UMN Zoom account allows you to view and customize information about your user account in Zoom. In this article: Access your Page Go to zoom.umn.edu and click Sign In. Sign in with your University of Minnesota Internet ID and password. Click Profile on the left side of the page. Your profile page There are many details available within your profile page. While many fields can be updated or customized, not all fields can be changed on your profile page. Note: Asterisks are used to hide personal information. Click Show to display hidden information. Your name: First, Last, and Display Name in Zoom Meetings Note: To request a name change, please contact Technology Help. Your Department and U of M Account Information Your profile picture: This is the picture that other participants in the meeting will see if you turned off your video in a meeting. Upload or change profile picture. Your Personal Assembly ID: A personal meeting room assigned to you. Customize by clicking Edit to the right of your PMI. Your custom link: Your unique URL associated with your custom meeting room. Personalize your link by clicking Customize. Your login email: This is your U of M email address used to sign in to your Zoom account. Your user type and capacity: If you are a current staff, faculty or student at the University of Minnesota, you are a licensed user. You can also see meeting and webinar capability. Your time zone and preferred date format: Update your time zone or format by clicking Edit Right. Your Language: Change your preferred language by clicking Edit. Your Host Key: Change your host key by clicking Edit. Your calendar integrations: If you connect Zoom to your Google Calendar, the permissions will be displayed here. Download or change your zoom profile picture click Change under your current photo or the gray silhouette of a person. Click Upload in the lower-left corner of the Change picture pop-up window. Select a .jpg, .jpeg, .gif, or .png on your computer that is smaller than 2MB to upload. Move the square that appears over the image so that the portion of the photo you want to include is contained within the dotted margin boundaries of the square. You will see the selected section of the image on the right. This section of the picture will become your profile picture. You can also click and drag one of the boundaries to customize the size of the square. Click Save. Sign me out of all devices The profile page also features a link at the bottom of the page labeled Unsubscribe from all devices. Use this link if you are signed in to the Zoom app on a device that is not password/passcode protected and that device is lost or stolen. Note: This does not prevent you from logging back into Zoom on any devices and not closing your account.
