Thank you for printing this page from [www.SuperCheats.com](http://www.SuperCheats.com). Remember to return to reviews for updates to this guide and much more content for NieR: AUTOMATA Last updated: May 18, 2017 Here's a full list of where to find every weapon in the game. The first necessary step in the completer's attempt to open the non-member blade bonus. Little Swords (01.) is a virtuous contract - the default weapon is 2B. (02.) Iron pipe - found through fishing in sewage from the ruins of the city. (10.) Phoenix Dagger - in the chest at the bottom of the valley along the sidequest: Lord valley. (11.) Engine blade - When escaping from an abandoned factory with Pascal on Route A, move through the facility until you get a break point on the railing. Go left along the top side of the press machine here and enter the room at the end. The weapon is in one of the item boxes. (12.) Faith - found in the chest inside the Soul Box (Flooded City) Resource Unit (Route C). (13.) Cedar Wood - in the chest at the top of one of the massive arches outside the Forest Castle. Find a toppled column and use it to reach the right ones, then carefully cross to the top of the archway at the other end. The Great Swords (01.) Beastlord - Buy from Resistance Camp Arms Trader. (02.) Axe machine - buy from village car arms trader. (03.) Type 3 Blade - Buy from Davella and Papula shops in resistance camp. (04.) Type-40 Blade - Bonus for Completing sidequest: Freak Data Analysis 2 (Route B Only). (05.) A virtuous treaty - found in an abandoned factory. On the edge of the collapsed bridge where you battle Engels during the prolog season of Route A (06.) phoenix swords - locked in chests on the building where 2B and 9s land when they arrive in the ruins of the city for the first time (Route B). (07.) Cruel blood oath - found behind a locked door in an underground section of the desert section of the ruins of the town (Route B). (08.) Fang of the twins - found in the desert housing complex. On top of the fire escape in the area where you collect items for the 21O operator during the data Anlysis Freak 2 quest. (09.) Iron Vale - Use a pod scanner to check under collapsed roads in the flooded town. The Ones (01.) Car Aelin - Buy from The Village Car Arms Trader. (02.) Type-40 Lance - Rewards for completing sidequest: YoRHA infidels. (03.) The tye of the Reshger - rewards for completing the sidequest: legacy of the past. Phoenix Lance - Use the pod scanner to search the edge of the southeast circle brighter than the desert area. (05.) Dragoon Lance - found in a chest near ravine in the forest area. (06.) Beastcurse - locked in the chest in the Forest Castle Library. (07.) Virtuous dignity - head down to the sewer connecting the ruins of the city to the amusement park. Move forward, ignore the first ladder you come across and go all the way to the end. Climb the ladder to find this weapon in a small cleanup on top. (08.) Ruthless arrogance - located behind a locked door in the underground part of the abandoned factory. (09.) Type 3 Lance - In the flooded town, there is an isolated white structure in the distance when you stand in the large collapsed steep building. The weapon is on top of that building and you need to do some acrobatic platform to get there. To begin with, double jump forward and hold the X to float and then press the square to rotate and press the Dash button. Repeat to get to the structure. Fighting Bracers (01.) Naked Fist - the default weapon for all characters. (02.) Head of the car - back to the car village after erasing Pascal's memories. He will have a shop there selling this weapon (Route C). (03.) Type -40 punches - found in the chest locked behind the resistance camp access point. (04.) Devil's Cry - Locked at the far right end of the backstage area at the amusement park. There's an elevator to the right of the stairs leading to the boss's room. Here, you'll find a hollow tree with chains around it. Go inside for this weapon (06.) cry cruelly - get out of Masamune after upgrading the weapon to Level 4. You might have to talk to him a few times after he gave it to him (07.) Emile Heads - lift it off the ground after defeating Emile as an undercover boss at his home. (08.) Folly angel and type 3 fist - buy from Emile's shop. This one can be quite a job since you need Emile to change his path so that he travels close to resist. He starts near the exit to Camp Sahara when you first check his shop now to get him to move, or you can leave the area on foot or travel between access points. Personally, I had a better chance with the former. If done right, Emile will start patrolling closer to the abandoned factory. Stop him here and talk to him many times until he complains that you're too aggressive he should be ready to move again at this stage, so lucky For lley, he'll get closer to the resistance camp, you'll also find that Emile's little truck will be moving really fast and his theme song will be playing fast forward. Stop him here and he'll start. Guns. Want to collect all the weapons in NieR: Automata? If so, you come to the right place. Below you will find names, locations, and upgrade materials required from every small and large weapon in the game. Happy collecting!
