Forrest Gump is Winston Groom's 1986 novel. The title character talks about adventures ranging from campers on a boat and ping pong championships, to thinking about his childhood love as he makes his way through American history, and everything from the Vietnam War to college football has become part of the story. Gump is apparition as a view of the world simply and truly. He doesn't know what he wants to do in life, but despite his low IQ, he's made to be full of wisdom. He says he can think things up pretty well, but when he tries to tell them or writin them, he kind of appears like Jello. His mathematical abilities as an idiotic savant, and feats of power lead him into all kinds of adventures. [2] Forrest Gump's plot, named after General Nathan Bedford Forrest, tells the story of his life. The author uses false letters and grammatical errors to indicate his Southern accent, education and cognitive disability. While living in Mobile, Alabama, Forrest meets Jenny Curran in first grade and escorts her home. Then they became best friends. By the time Forrest is 16, he's 6' 6 (1.98 m), 242 pounds (110 kg) and plays high school football. Miss Henderson, who Forrest is bitter with, gives him reading lessons. He reads Tom Sawyer's adventures by Mark Twain and two more books he doesn't remember. While he enjoys books, he's not doing well on the tests. As a footballer, he's gaining popularity, and he's playing in the All State team. When Forrest was called to the principal's office, he met with Bear Bryant, who asked if he could play football. After high school, Forrest undrs the test at a local army recruiting center, and is told that Forrest is suspended. Forrest and Jenny meet again in college. They go to Bonnie and Clyde and play together in a folk band in Student Union, which covers songs by Joan Baez, Bob Dylan and Peter, Paul and Mary. Forrest flies out of the University of Alabama after one semester. He and his friend Bubba join the army, but Bubba dies in the Vietnam War. He meets Lieutenant Dane in the infirmary who lost his legs. He also plays at the ping-pong championship in China. He then works for NASA as an astronaut with a major and an orangutan after he got into trouble for taking part in an anti-war protest in Washington. Forrest also has a brief career as a chess champion, a stuntman with a nude Raquel Welch in Hollywood, and as a professional wrestler called The Dunce. Here comes the point when Forrest finds a Vietnamese man during his time in and finds that he can outnode goats in a simple pond or lagoon. All he has to do is collect the pieces and put them in a mass of water, throw the feed into the pond and let nature go its way. In the end, he ends up with a scamp with a name that honors Bubba. The company gives Bubba's family and workers and decides to go his own way, frustrated by the complications he added to his once-simple life. At the end of the book Forrest ends up with Dan and a male orangutan named Sue, who lives his life by being a one-man band, asking for changes while sleeping on a green bench. Roman's critical reception initially sold in about 10,000 copies before it was confusing. It sold more than a million copies after the film's release. In a 1986 book review of Kirkus, the anonymous reviewer called the book a tripping, droopy-drawn experiment of a pikaresque novel and a summary; A hard-handed, one-joke kind of novel that is, finally, a cheater. [4] A contemporary review for Publisher's Weekly has recognized on-target humor here, but the author's summary has written better books than this. [5] Film adaptation The main article: Forrest Gump Roman was adapted to a long-lasting Paramount Pictures film in 1994. Before it was shot in an Oscar- [6] The film does not mention Forrest as an idiotic savant, and sanitizes his sex life and artistic profanity. According to the author, the film took down some of forrest's rough edges, played by John Goodman. [6] The film greatly exploits the special effects of making characters interact with real people from history. He spends time at NASA and some other careers, as well as time with a cannibal and a monkey named Sue.
