She no longer has to use her legs due to a stroke and I was no longer able to put her in her wheelchair. This tool is a must for anyone in a similar situation. Has this review been helpful to you? 0 of 0 people found the following review useful: Invacare Reliant Lift Reviewer: Thomas F. of Baltimore, MD Probably a little more than I needed since I bought it mainly for emergencies when my wife falls. Too many times call the neighbor and fire rescue to help her get up. Very nice equipment and easy to use. Has this review been helpful to you? 3 of the 3 people found the following review useful: Quality Product Examiner: Darrel M. of East Haven, CT This is a very well built device and it meets our needs perfectly. The hand pump is easy for us to use, even though my father weighs over 300 pounds now. I came quickly and just took a few minutes to set it up. Has this review been helpful to you? 0 of 0 people found the following review useful: Invacare hoyer lift Reviewer: Lisa A. de Fargo, ND Facility purchase. Ordered 4 of them and received them within 3 days. We now have one on each floor and our adult daycare. Has this review been helpful to you? 0 of 0 people found the following exam useful: Mom's new Lift Reviewer: Debby P. de Salinas, CA My father can now lift mom without the help of others. It seems to be very well built and easy to use for it. Has this review been helpful to you? Handling The push handle welcomes any member of staff. And with a aluminium and lighter steel, the control of movement is simple and without problems. Problem. For caregivers, Jasmine elevators have a battery-powered arrow and a wide-open base, both controlled by the Security hand pendant The spring-loaded stable hanger bar produces an audible tone when the sling is engaged. This assures the caregiver that the sling is securely attached. Optimal functionality. The invacare elevator@ jasmine™ complete body has innovative features that provide safer resident handling in a weight capacity of 500 lbs. Caregivers can count on safer operations and residents with maximum comfort during daily transfers. Beyond that, the Jasmine Elevator skillfully operates in more difficult situations with a 6-point 360-degree rotating bar and a minimum height range of 16.4 - indispensable Cradle to help residents who may have fallen to the ground. XL Cradle The spring-loaded stable hanger bar produces an audible click when the sling is engaged. This assures the caregiver that the sling is securely attached. This means less stress for the caregiver, a stable transfer for the resident and less risk of injury for both. Optimized handling is the key to a comfortable transfer. Jasmine Elevators - Scale: JLS5 has a battery-powered boom and a wide-open base, so caregivers can easily walk behind them and wheelchairs can be accommodated in the front. The push handle can accommodate any staff member, and with a lighter aluminium and steel construction, movement control is simple and easy. These high-quality elevators are comfortable, reliable and integral tools for staff and caregivers. Using the elevator for handling patients can help reduce staff injuries, save you money and enhance safety as a priority in your health care facility. Invacare Reliant Elevators up to 450 lbs, making transfers potentially difficult smoothly for the resident and caregiver. The range of lifts allows easy access to bathtubs, chairs, dressers, floors and beds (with at least 4.5 clearance under the bed). In addition to functional and innovative elevators, Invacare also offers facility assessment plans to further assist your safety management program. Our comprehensive lifting system also includes in-service training, videos and an ergonomic safety plan. Ergonomic. The goal is to partner with you to reduce costs and protect your staff from injury. The robust and practical design of Reliant elevators provides the solution you need to succeed in your quest for safe and effective health care.
