Provides the following On nurses that currently work in five popular sectors. Source: Professional Employment Statistics, Bureau of Labor Statistics (2014) Although nursing salaries can vary depending on where professionals work and where professionals generally specialize, those seeking nursing jobs in San Diego can expect healthy salaries. In fact, the income-earning potential of nurses in the region is much higher than national averages. Also, while in most cases, those in San Diego nursing jobs make about the same amount as other workers in California, some specialists earn higher salaries than the state averages. Average annual salary for nurses Source: Professional Employment Statistics, Bureau of Labor Statistics (2014) San Diego Nursing Schools highlights nursing schools according to the San Diego Workforce Partnership and the San Diego Regional Economic Development Foundation, San Diego County has 40 nursing and education training programs, from those that train junior jobs to grades designed to help nurses advance in their careers. The report analyses some of the local certification programmes as follows: 4 training programmes for professional nurses in public and private colleges, 18 for licensed professional nurses wishing to become registered nurses; and 4 training programmes for professional nurses in public and private colleges. 12 of these bachelor's degree programs offer 13 master's degree programs in nursing that allow students to specialize in research, teaching or advanced clinical nursing in addition, some local schools offer doctoral nursing degrees, generally obtained by those who wish to become educators, researchers or leaders in healthcare facilities. Below, find features for some of the city's most important nursing schools: San Diego State University (SDSU) originally opened as a certified CD of the Baccalaureate Program in 1953, San Diego State University College of Nursing later added a master's program in 1982. Since then, SDSU has been known for its approved programs. The school is gaining praise for its recently renewed policies that allow students to apply directly to the nursing program as new students coming. The school has also received numerous awards for its work in nursing informatics, aged health and geriatric nursing, and offers a nurse-certified program. The programs provided m-to-BSN LVN-to-RN Bachelor of Science in Nursing (BSN) Master of Science in Nursing (MSN) University of San Diego (USD) Han School of Nursing and Health Sciences at the University of San Diego is ranked #30 of the top 100 Graduate School of Nursing #1 in Catholic Graduate Nursing Education by U.S. News and World Report. To keep pace with this tradition of providing high-quality nursing education, the school is currently building the Betty and Bob Bester Institute for Nursing Research, Advanced Practice and Simulation, on an area of 30,000 square feet. That would allow the school to increase nursing education simulations and clinical research studies. In addition, the school has also begun to provide information education in the field of health care informatics. Programs presented the Master of Science in Nursing (MSN) Master of Nursing Program (EL-MSN) Ph.D. in Nursing Practice (DNP) Loma Nazarene Point Loma Nazrin University combines nursing education with Christian values in order to promote care based on the service of others. These values, which include helping patients in areas that do not provide medical services, contributed to the school's victory in the California Song Brown Grant — a \$105,000 award from the State Office of Health Planning and Development for the school's contributions to the community. The Nursing School plans to use this funding to purchase simulators for use in the PLNU Nursing Skills Laboratory. Programs offered by BSN RN-to-BSN LVN-to-BSN MSN San Diego City College San Diego City College are ranked #2 in the country by the PayScale College salary report for two years with the highest paid graduates. In addition, the school was selected as the best district college by San Diego Downtown News. The Nursing Department offers programs to teach students how to provide care across the disease chain, while ensuring that students are well prepared for the California licensing exam. In fact, in the last few years, about 90 percent of NCLEX-RN school students passed. Programs provided by the LVN-to-RN Certification And Nursing Associations certification certification programs in California although all nurses across the country are required to obtain a license for practice, and licensing requirements vary from state to state. San Diego requires that nurses follow the licensing guidelines set by the state of California, and nurses in the area do not need to meet any additional standards. Professional associations allow nurses to continue learning about this area long after completing their studies. These institutions provide services such as networking opportunities, conferences, professional journals and continuing education courses. Some national nursing associations, such as the Pre-Operative Registered Nurses Association and the National Association of Hispanic Nurses, have special classes in San Diego. For more information about obtaining a nursing license or joining a professional association, visit a detailed page on nursing schools and programs in California. San Diego San is a great place to start your nursing career. With registered nursing programs (RN) that range from beginners to applicants, potential RNs in the city have their choice of quality options. To start nursing or to advance your nursing career, see the program lists sections below: The San Diego district boasts a number of schools that offer direct entry degree associates in nursing (ADN), Bachelor of Science in Nursing (BSN) and Master of Science in Nursing (MSN) programs. No matter where you are on your journey to become a nurse, there is a program out there to help you achieve your goals. LPN to RN licensed professional nurses programs are experienced in providing basic care to patients in a variety of healthcare settings, and many LVNs choose to build on these skills and become registered nurses. LVN specialized to RN programs, such as the one at San Diego City College, provides a pathway for LVNs to earn an associate degree and pass the RN license exam. ADN two-year ADN programs are usually available at community colleges throughout the city. San Diego City College, for example, offers an ADN program that requires a total of 62 units, including courses in medical and surgical nursing, maternal and child health nursing, and more. As of 2017, they had a program completion rate of approximately 83%. BSN direct entry programs consider these four-year grades the gold standard in nursing education, and are often required for hospital positions. Direct access programs mean that the student does not have an RN license or nursing degree before the program begins. San Diego State University offers a traditional BSN that includes a unique international experience element that students have the option of fulfilling by studying abroad. Most BSN accredited programs in San Diego are found in traditional colleges and universities. Required courses may include pathological physiology, clinical pharmacology, and more. Learn more about California RN to BSN Direct Access Programs MSN Direct Access Msn Programs, also often referred to as Master of Nursing Entry Programs (MEPN) designed for those who already hold a bachelor's degree in another field. These programs can generally be completed in less than two years. While it is not as common as other program tracks, San Diego offers one through the University of San Diego. Their programme includes courses in health assessment, evidence-based practice and more, and takes 21 months to complete.
