If you think the Leviathan attack itself is large, just wait until you uncover the secret Underbelly area located tucked away in the example. Seriously, you could spend hours wandering around this place and still not uncovering every last nook and cranny. It's full of enemies too, so make sure Fireteam stays together while exploring. Why would you want to enter this part of a raid instance though? Well, as you defeat various bosses in raids, you'll have several keys added to your inventory: Aquaduct, Drain and Ventilator. These keys open the chest underbelly related, inside containing more delicious loot that you came here for in the first place. You can also use this zone as a shortcut to different parts of the raid. In our complete Underbelly guide, we explain how to access this area by entering the correct lever combination at the beginning of the raid, then actually tracking the key once you are inside. As we have already mentioned, this place is huge, and so we have embedded some useful YouTube videos that will provide a much easier visual guide to tracking this chest. (If you want to be the best in every area of the game, don't forget to bookmark our PVP guide page, Campaign walkthrough, and Subclass – they have everything you need if you want to get more from Destiny 2, and will be kept updated in the coming weeks.) New editor #3. We've added a new section right at the top of this article that highlights interactive maps that will help you navigate Underbelly. We will continue to update this guide from time to time, so stay more! Map Leviathan Underbelly Although we have a brilliant map for you in the section below, we still think it's best to highlight other fantastic maps that will help you navigate through This time - it's interactive! You can choose which areas of Leviathan Raid you start from and where you want to go. Then it will plan a route to follow, which is indeed very useful. These reddit props to create them, and here's a link to the map itself. Our Leviathan Underbelly Above map has embedded a brilliantly constructed Leviathan Underbelly map that shows the entire layout in a helpful 3D format. Initially, the 2D version of the map was created by reddit addresso while another Destiny 2 player and reddit ScoobyDeezy picked it up on its own to make it easier to see. As you probably know, there are a number of small chest icons scattered around the map and this is what you want to hunt. Fortunately these maps make it much easier to know where they are in relation to everything else. It's also a great resource to glance at whenever you need to get your bearings on or decide what turn to take in the corridor. To get inside, you first have to pull a series of levers in the correct order. To reach this lever, simply lower the Fireteam from the path you started, and fall into the parallel road below. Now keep going forward until you come to a room containing three pillars. From left to right as you face it, the three pillars each provide a pair of levers: 1 + 2 on the first pillar, 3 + 4 on the second, and 5 + 6 on the third. To open Labyrinth, you just have to pull the lever in the correct order and do it quickly enough. Make sure you communicate with your team when the lever is pulled. Here's a combination of levers: 1, 5, 3, 2, 4, 6 Once you've done this, you'll see a message that says the Door has been opened. Here is a very short video of the combination in action. Back up, and around 1:40 a.m. in the video below you can see where this new door really is. After passing through this door you are in an area called The Labyrinth, and this is where you will actually find the chest, as well as a number of shortcuts to different parts of the attack. To actually open the chest here, you must use the keys that have been collected by Fireteam: Aquaduct Key, Drain Key, Ventilator Key. These keys are obtained from defeating certain encounters in raids. You get Aquaduct Key by defeating the Royal Pools meeting leviathan attack. Once you get it in your inventory, you can go ahead and unlock the chest. The video below shows exactly where to find it inside labyrinth. If you've been working through the whole process of lever combinations, check out the video from around the 1:50 mark, because it will take you directly from the room to the chest itself. the video below you will be able to track the exact location of The Drain chest, starting from the point where you pull the lever downstairs space. Be prepared for a fairly intense shootout just before you reach the room. If you don't kill watchers within three seconds of being seen, more reinforcements are called in and you have to start again. It's about 2:10 in the video below where the team finishes pulling all the levers and actually enters the Labyrinth itself. It is from this point that you will get a visual guide on how to actually reach the chest of the Ventilator and get things in it. Shortcuts Although there are shortcuts to be found in Underbelly - and be warned this area is huge - you won't actually be able to access the area until you beat the meeting it contains. Here's a video that will show you how to get through a particular encounter in Leviathan Raid using Underbelly so you can take the place you left off, or replay your favorite parts without struggling through the others. If you find a video helpful, give it a thumbs up to support creators and consider subscribing to their channel as well. Yes, the submarine has been inundated with maps of Leviathan Underbelly. Many admirable cartographers have taken it upon themselves to guide the lost remains of the soul through the belly of calus palace above Leviathan.Personally, I found the map made by u/addresso to be the best out there – color coded, stackable, accurate, with observer position and everything. The amount of work he put in was spectacular! But, if you're like me, it's still hard to wrap my head around a 3D space on a 2D map. So I took it myself to take the awesome map and layer it in a faux-3D style to help me visualize how the hell everything is really connected. So, without further ado, I present the map addresso, now with perspective! The Leviathan Underbelly – in THREE-DEE! Page 2 2
