know what you're up against, the better. How should you defend against something you have never seen? A wizard who's going to do. He's not going to do it nicely and politely to your face. You be prepared. You have to be vigilant and
vigilant. You have to put that away, Miss Brown, when I speak. Barty teaches protection from the dark arts to fourth-year students[src] Barty Crouch-enr arrives at Hogwarts Castle by
entering Harry's name in a Glass of Fire and guiding him through the Trivisard tournament. Barty did this by broke into the home of former Auror Alastair Mad-Eye and kidnapping him. He created a potion of polyjuists from Alastair's hair and concealed Auror in his own magical trunk. He then went on to
take on Alasdala's work at Hogwarts, teaching protection from the dark arts. He was able to keep his mask undetected for months, consistently sipping potions from hip flasks; he did so in a simple look at students and staff, and generally assumed it was due to intense paranoia. He kept alive under the
curse of Imperius to continue picking up hair for potions of polyjuy, and to ask him about his personality, behavior and knowledge to make the act more compelling. A protection from the dark arts lesson about unforgiving curses At the entrance to Hogwarts beginning the term holiday with the advent of
Moody's, he received applause only from Dumbledore and Hagrid, both of whom guickly stopped after realising that absolutely no one else was clapping as everyone was too fixated on Barty's frightened facade. Barty then ignored a jug of pumpkin juice on the High Table and instead took a sprig of flask
administering a new dosage of potions of polyjuy, preserving the identity of his disguise for fear of being poisoned by food cooked by others. Barty used his time at Hogwarts to win the trust of students and staff at Hogwarts. During his first lesson for a group of fourth-year students, he demonstrated all
three unforgiving curses on three different spiders[17] and controversially, later also the Curse of the Empire on the students themselves, though he claimed to have had permission to teach them how to overcome it. As a teacher, Barty (under the guise of Alastair) was actually guite effective. Despite his
unpretentious motives. his teachings on how to overcome curses such as Imperius were valuable to Harry Potter, who gained the ability to resist even Lord Voldemorth himself as a result of this teaching. He was also a strict teacher as he continued to work with his students until the end of classes,
despite most being distracted by Christmas festivities. Help Harry Potter Who Put Your Name in the Goblet of Fire, called another school? I did. Who scared off every person I thought could try to hurt you or prevent you from winning the tournament? I did. Who pushed Hagrid to Are you dragons? I did.
Who helped you see just how you could beat the dragon? I did. Barty Crouch-enr, revealing how he masterminded Harry Potter's victory at the tournament in Trivisard. No, no, nor Being an effective and popular teacher, Barty was not in Hogwarts to form future wizards. He entered the harry potter name
under the fourth school in the Goblet of Fire, confusing him with the powerful Confundus Charm to secure Harry's placement for Lord Voldemorth under the fourth school, ensuring he was selected as he was the only entry for the said school. Barty subtly assisted Harry during the three stages of the
tournament. He pushed Ruby Hagrid to show Harry to the Dragons, later suggesting Harry play to his strengths to pass on the challenge and thus give Harry the idea of using a broom to perform it. Barty on the second task platform after Harry Potter took Gilliwyd He advised Cedric Diggory to tell Harry
how to work out a golden egg tip knowing he would retaliate against Harry for what he told of dragons. He also planted the book Magical Mediterranean Aquatic Plants and their properties on Neville Longbottom early on, hoping Neville would tell him about a gilded for an underwater task. With Harry's
own pride and independent streak standing in the way of the plan, Barty had to improvise. Remembering that Harry remembered him with socks for Christmas, Barty called Dobby to the staff room and staged a high-profile discussion with Professor
McGonagall about the gilded, right in front of Dobby. The elf house responded by stealing the factory from Severus Sneip's personal stores and giving it to Harry on the day of the task. During the events surrounding the tournament, Bartemius Snr fled his home and drove to Hogwarts, where he wandered
into his confusion in search of Dumbledore, planning to confess about how he smuggled his son from Azkaban. Woldemort immediately sent the owl to Hogwarts, warning Barty-Enr that his father was more likely to show up at Hogwarts. Barteemy Snr came across Harry and Victor Krum, but by then he
was so erratic and crazy that he couldn't clearly convey anything but what seemed rampant about his son and Berta. The first went to the castle to retrieve Albus. Barty Enr., waiting for his eyes on a map of Marauder he borrowed from Potter, arrived at the scene in front of anyone else, and waited for
Harry to leave before he stunned Victor, and killed his father. He re-elected his father's body into a bone and stabbed him in front of Roubai's cab. Barty looks on as Harry Potter enters the hedge maze during the third challenge Before the tournament's third and final challenge, Barty volunteered to place
the Trivisard Cup in a maze through which contestants had to navigate. He took this opportunity to turn the Trivisard Cup into a Around the labyrinthine hedge, he stunned Fleur Delacourt and used the curse of Imperius on Victor to get rid of Cedric, but Victor was overwhelmed by Harry. However, Harry
got into the Cup with Cedric, transporting them to Little Hangleton Cemetery when they grabbed him together. It was around this time that Peter performed the ritual of restoring Lord Voldemort's physical body using Harry's blood, Peter's own hand and Tom Ridle Snr's bone from the grave. [16]
Dementor's exposition and kiss are Crazy, isn't it? See! We'll see who's crazy, now that the Dark Lord is back, with me at his side! He's back, Harry Potter, you haven't conquered him - and now - I'm conquering you! Barty, before trying to kill Harry Potter[src] Barty to get interrogated by Albus Dumbledor.
Minerva McGonagall, and Severus Snape When Harry ran out of the cemetery and returned to Hogwarts, Barty opened it up from the panic crowd to interrogate him about Voldemort's return. He revealed to Harry that it was he who spent all his time singing it through the tournament; he put his name in
the Goblet of Fire, got Hagrid to show dragons, explained Golden Egg Cedric, knowing what he would say Harry charmed Victor Crome and stunned to kill Harry and be honored over other Voldemort followers. But before he could, Albus, accompanied by Minerva and
Severus, produced a stunning spell on him after realising he wasn't Alastair when he removed Harry out of sight - his one slip. After the potion of polyjuy was demolished, Barty confessed to all things Albus was influenced by Veritaserum, a strong potion of truth. However, before he could testify before
Wieshenhamot, Barty befell fate worse than death by receiving a kiss by Dementor by a dementor by a dementor brought with him by Minister for Magic Cornelius Fudge. Cornelius Fudge. Cornelius Fudge. Cornelius Fudge.
was back. [18] What happened to Barty-Enr's empty body is unknown, although it is not possible that Crouch died sometime in the mid-1990s, [2] and when it happened, the Crouch family remained extinct. The appearance of Barty Crouch-enr, in his mid-thirties Barty's youth was described as a pale
young man with straw hair and freckles. [15] In his early thirties, he still had pale, slightly spring skin and a mop with thin hair, but his face was lined up, and was much older. [5] During his confession under Veritaserum, Barty's face lit up with devilish mania. Before his capture and arrest, he often engaged
in a pocket watch, although unlike his father, he was golden-colored. Being a deadly foodie, he carries a Dark Mark on his inner left forearm. For eight months, Barty smeared himself under Alastor Moody over the use of Polyjuice During this time, his face will be covered with scars, with chunks of his
nose missing, as well as dark grey clogged hair. He also took Alastair's prosthetics, both a charming eye and a wooden leg, for himself. Personality and character traits ... Decent people are so easy to manipulate. Barty to Harry Potter[src] Barty was shown to be very hateful, devilish, sneering, evil,
vengeful, cold, cruel, manipulative, disgusting, devoted, extremely intelligent, sadistic, shady, very arrogant, cunning, selfish and ruthless. He was obviously quite a powerful wizard, demonstrating a sufficient magical ability to embarrass The Goblet of Fire, believing that four schools participated in the
Triwizard tournament for Harry to participate in the competition despite the strength of the facility. Barty was also receptively observed and exceptionally manipulative; his close attention to other people's habits and motivations allowed him to impersonate Alator so accurately that he even managed to
deceive Albus Dumbledor. [5] Dangerously intelligent and terrifyingly determined, Barthemius was able to organize triwizard tournament events so that Harry Potter would be transported to Voldemort to secure his host's return. Barty's high intelligence also made him bitingly cynical, and he observed how
easily some people were manipulated - he was capable of concern for his plans, and expressed his fear that Harry would have failed the Second Challenge. He also expressed disappointment at how slowly Harry progressed in Barty's plans, citing Harry's weakness of pride as the cause. Barty was
extremely committed to Voldemorth and regarded him as a father figure. His loyalty corresponded only to fellow death eater Bellatrix Lestrange. He also seemed to know many of Voldemort's father, comparing him to his own father. This may imply that Barty was aware of Voldemort's status as a half-
vengeant but not worried, contrary to the belief of pure blood deaths, or that Voldemort was simply displacing the blood condition. However, Barty Voldemorth's tremendous devotion blinded him to those who truly loved him, namely his mother and devout home-elf Winkie. They sacrificed a lot to give him a
second chance at a happy life, which Barty tragically wasted in his obsession to be reunited with Voldemort. Like many other death-goers, Barty remodeled himself, believing that he alone understood Voldemort, and that they were closest to each other because of their common, to which it wasn't really
like Voldemort never wanted a friend and didn't understand human attachments. One reason for Barty's behavior may be the fact that his father neglected him as a child and/or adolescence, and later forced him to spend years under the curse of Imperius in relative isolation, possibly affecting his mental
stability. The year he spent in Azkaban further his mental decline, due to the consequences of demantors. He was also most likely very sadistic, not only involved in longbottom torture, but forced their son Neville Longbottom to watch the Crusader curse demonstration on the spider, despite the latter's
bizarre and panicked response. However, this latter act could have been what the real one would have done himself, and perhaps it was to really teach students harsh truths about curses. Crouch also loved Quidditch in his youth, a fact mentioned by Winkie. Also, as a young man, he was extremely
emotional, crying and screaming before being sent to the dementors and violently pleading with his father to grant him enslavement. He constantly shouted at Azkaban — but this can be expected among the dementors imprisoned. He was visibly hypocritical, and scoffed at the Death Ers for hiding and
refusing to brave Azkaban in Voldemorst's name, when that's exactly what he could also be accused of. Barty was one of the only famous wizards to call Voldemort, instead of using the Dark Lord or another version of it, saying his name while talking to Harry after The Third
Challenge. He was also the only known death-goer who did so; even defectors such as Severus Sneep and Regulus Black call Voldémort the Dark Lord, while fellow fanatically loyal Death eater Bellatrix saw it as a mark of respect for not saying a name. Crouch also seems to have humiliated cowardice,
for example, when Draco Malfoy tried to attack Harry from behind after the latter insulted him, Crouch (still under a mask under Moody) angrily re-elected Drucko to the ferret and constantly mocked him over his non-donosh tactics, and later shouted at Draco about stories about his father that would make
him tremble with fear, hinting that Crouch was a fair wizard. Magical abilities and skills of Awad Kedavra! roared. There was a flash of dazzling green light and swift sound, as if a huge, invisible something was hovering across the stream — instantly the spider flipped on its back, without markings, but
lawlessly dead. No, no, no Barty casting a killing curse on the spider Barty Crouch was very gifted and intelligent, whose potential as a master can only be matched by some of the chosen ones. Armed only with the magical skills he acquired during his seven years at Hogwarts, he successfully
demonstrated a sufficient magical ability to deceive an entire school of learned academics, considering him an experienced Auror, advocating for his considerable skills. In addition, Crouch quickly came up with a feasible strategy to help Harry Potter win the Triwizard tournament after he placed the boy's
name in the Goblet of Fire. His mind was for even Lord Woldemort, who sincerely entrusted him to be the one who directed Harry to the revival ceremony. Dueling: Crouch was an excellent dueler because, along with Peter Pettigrew, he was capable of defeating Alastair, who was an extremely powerful
wizard who defeated dozens of other death drinkers during his time as Aurora, although he grew rusty after years of no duel before British Ministry of Magic agents arrived at the scene. However, Crouch was effortlessly subdued by Albus Dumblesdor with one terrific spell before he was able to react.
Protection from the dark arts: While it was only part of his cover as Alastor Moody, Crouch was a convincing professor of defense against the dark arts. Indeed, during his time at Hogwarts, Crouch's personal experience with the Dark Arts as a Deathly Hater allowed him to do very attractive lessons for his
students. Even after his true devotion and personality were exposed, students like Dean Thomas noted that Crouch was placed under the curse of imperius by his father. Years later, he managed to break out of the curse at a certain time.
and later he managed to teach the skill to resist the Curse of the Harry Potter Empire., MORSMORDR! And something huge, green and brilliantly erupted from the patch of darkness that Harry's eyes were trying to penetrate; it flew over treetops and into the sky. —Barty casting a dark sign on the World
Cup quidditch [src] Barty causing a Dark Sign in the Sky Dark Arts: As a deadly eater, Crouch was trained to launch the Dark Stamp into the sky by Lord Woldemort with a spell of Morsmordre. Usually this executor is used to mean the works of deadly, but Crouch used it to scare off his unfaithful
colleagues. Crouch was able to successfully and from a young age perform all three unforgivable curses, believing he used the curse of Cruciatus to devastatingly influence Frank and Alice Longbottom when he was just nineteen years old. [14] While disguising himself as a professor of defense against
the dark arts at Hogwarts, he demonstrated all three unforgivable curses on the spider. Indeed, his knowledge and mastery of the Dark Arts made his lessons at Hogwarts very informative and engaging. Crouch also kept the real Moody in check through imperius Curse for a whole year. [17] It could also
cast simpler darker pleasures such as Twitchy-Ears Hex[16] and Reductor Curse.[8] adeptly. Potion: Crouch was excellent at brewing potions, as he was able to single-handedly brew a high-complex polyjuist potion to preserve the look of Alastor Moody. [5] The charms: Crouch was very talented in the
field, enough to rewind an extremely powerful Glass of Fire with the charm of Confucus, the magical object it was He did so to make Goblet's mistake that the Harry Potter name had been entered under the fourth school. Moreover, Crouch swiftly understood how Marauder's Map worked while detaining
Harry with her, a powerful enchanted artifact. He was also capable of enchanting the Triwizard Cup to turn it into Portkie with the charm of Portus, a rather powerful piece of magic. It could also easily throw up simpler charms such as engorgement charm, compression charm, challenge charm and
stunning spell, showing its ownership in the field. His wand came out and she pointed directly at the clean white ferret, Barty turned Draco into a ferret, Barty transformed Draco Transfiguration: Crouch showed impressive skills in the field of
magic, quickly turning Draco Malfoy into a ferret as Draco tried to attack Harry Potter when the last spin was turned. [16] Crouch also turned his father's corpse into one bone. [5] Occlumency: Crouch was a very powerful and skilled Occlumens, successfully hiding his true identity as a deadly eater from
Albus Dumblesdor himself for nine months. In fact, had Crouch not been weakened and cumbersome from the attack in 1995, he would have been able to use Occlumency to defend himself against the effects of Veritaserum. Nonverblaise magic: Crouch could throw a lot of highly developed spells with
pronouncing incitement, such as when he re-elected Draco Malfoy to ferret when he took desks in his class. [16] Acting abilities: Like Gellert Grindelwald and Lord Woldemort, the young Crouch established himself as a very consummate actor. During the Magic Law Council trial, Crouch screwed up
innocence, wept for his parents, hiding his allegiance to Voldemorst and even supporting such an act during his early days in Azkaban. This affected public opinion later when they took pity on the young man for his father's harsh and non-life-long treatment. During his infiltration of Hogwarts Crouch so
convincingly removed the role of Alastair that he managed to trick everyone around him, including Albus Dumbledor, gaining trust and putting them into good use. He played the role of a friendly Harry Potter mentor and also refrained from attacking any former death diners (such as Severus Sneep and
Igor Karkaroff) in his range, instead using Moody's reputation as a hugely accomplished Auror to intimidate them. Crouch was even able to pull his way out of Harry's unforeseen complication after seeing him on Marauder's card in Sneep's office, claiming it was Bartemius Crouch Sr., looking for evidence
of a dark wizard inside Professor Zilla's office. However, Crouch's acting abilities were still imperfect, as shown when, after Boldemort was resurrected, Crouch took Harry away from Dumbledore to kill him, so he would be honoured even more by Voldemorst, which was something genuine would never
do, allowing Dumbledore to finally understand what Crouch was impersoning. Relationship Parents Should have pro spent a little more time at home with his family, right? Had to leave the office early while ... Got to know his own son. Sirius Black concerning Barty's father[src] Barty Crouch Jr., his hated
father Crouch Jr. father, as a high-ranking ministry official, spent his entire life dedicated to the eradication of the dark Ones, and, as such, did not pay enough attention to his own son. When Crouch-enr was caught with other deadly drinkers at the crime scene of the torture of Alice and Frank Longbottom
to insanity, his father's parental affection extended as much as to give him judgment, something he did not always give to other suspects. In the end, the trial was simply to make an example out of his own son, and publicly repudiate him, to make it clear that he had nothing to do with anyone who would
even remotely be associated with committing such a horrific crime. Crouch-snr mercilessly sentenced his own son to Azkaban for life. Just over a year later, the father, as a benefit to his dying wife, smuggled him out of prison and kept control with the Curse of the Empire for years to come. According to
Crouch-sourced, his father loved only his wife, not his, but it was only in his own perception. Elder Barty's willingness to sacrifice his wife to spend the last days in the awful Azkaban to save his son may indicate that he retained some parental affection for him, despite what many thought otherwise. It was
this verdict that cost Crouch-snr his chance to become minister for magic, his position as head of the Department of Magical Law Enforcement, and his wife to suffer from it the last few days in Azkaban. It was this verdict that caused Barty Snr to be demoted for the head of the Department of International
Magical Cooperation. When Elder Crouch was subdued by Voldemorth and escaped, he decided to tell Dumblesdor about everything, including the smuggling of his own son out of prison; It was at this point that Crouch (in a bullshit) expressed regret for Harry Potter's mistreation and neglect of his son.
accusing himself of choosing the young man's life. Crouch-enr, in turn, hated his father, considering him a very erratic father, being sent to Azkaban for one vear and imprisoned in his mind by twelve only increased friction between father and son. Crouch also claimed he suffered the outrage of being
named after his father and had great pleasure finally killing him. Adding insult to injury, he re-elected his father's body to the bone and stabbed him, revealing a horrific but understandable disrespect for the corpse from method of its disposal. No! Mom, no! I didn't, I didn't know! Don't send

I'm your son! — Barty loved him very much during his imprisonment in Azkaban, and she forced her husband to help him escape from Azkaban, and she forced her husband to help him escape from Azkaban, and she forced her husband to help him escape from Azkaban. He also apparently had some affection for his mother as it emerged that he had shouted for his mother during his first
days in Azkaban. She was about to die when her son was imprisoned, so she had a polyjuisk potion and camasked under him to take his place in Azkaban. However, instead of starting to afresh and repent for his crimes, he tried to seize the
opportunity to seek out Lord Voldemort and help bring him back to power, apparently his year in jail and hatred for his father made him forget his love for his mother, tragically smuffing all her efforts for him. Winky I've always been with the house-elf. She was my keeper and caregivers. She took pity on

No, no, no Winky, his elf's previous father Winkie's home, the elf's house was extremely loyal to the Crouch family, to surpass the magical tether of a simple elf's house
She cared for Crouch-enr when he was smuggled out of Azkaban, and became his quardian and keeper. She was extremely committed to this duty and was very maternal towards him, asking her father to occasionally reward him for good behavior (though it was nothing more than a product of the curse
of the Empire). Winky spent months persuading Crouch Jr to let her son attend the 1994 Quiddich World Championships, and tried to suppress her acrophobia to keep an eye on the hidden convict. It proved how much she loved him, despite his crimes. She was devastated when she was fired for failing,
and was horrified when she heard about Crouch-enr's murder of her father. Crouch-enr, on the other hand, thought Winky's maternal nature was only out of pity and magical duty. He launched Dark Mark in the camp in order to scare the sloy deaths, ignoring her efforts to keep him safe and hidden. Nor
did he show mutual affection for her, as he ungentially used her commitment to achieve her goal of serving the Dark Lord, and gave a manic smile during his interrogation while she was there, the latter terrified her. Lord Boldemort The Dark Lord and I have much in common. We both, for example, had

Harry Potter about Lord Voldemort[src] Lord Voldemort, his master and father figure Unlike his real father, Crouch saw Lord Voldemort as a father figure of this kind, and after he was repudiating his own father, was fanatically loyal to him. In fact, at that time Crouch was willing to sacrifice and give
absolutely everything to serve the Dark Lord. He also believed that if he finished Harry Potter, he would be welcomed back, closer than a real son and revered beyond his dreams. In essence, Barty's loyalty corresponds only to death colleague Eater Bellatrix Lestrange. Crouch's loyalty made him learn
many things about Lord Voldemort that even other faithful death-goers like Bellatrix apparently don't. Barty knew that Voldemort had an inconsolable father, that he was suffering from outrage at being named after that father, and that he had great pleasure killing his father to ensure the rise of the dark
order. These three common threads helped fuel Barty's loyalty. It also means that Barty was aware of Voldemort's blood condition as semi-wooded, but not worrying, contrary to the deathoid's belief of pure blood supremacy. It may well be that Boldemort told Barty these similarities between them and
used them as a way to get Barty to join him. Voldemort could simply tell Barty that his father was disappointing, disregarding the fact that Tom Riddle Snr was a mugl. Boldemort appears to have acknowledged Barty's worth of what his own father failed to do, calling Barty his surest servant. However,
according to all voldemort's public claims, he never truly cared more about Barty than a useful servant who is as easily disposable as any other as Voldemort never wanted a friend. Although it is likely that he missed his usefulness and complete loyalty. Death players If there is something I hate more than
any other, it is death eaters who walked free. They turned their backs on my master when he needed them most. I expected him to torture them. Tell me he injured them, Harry. Tell me that he told them that I, only I remain faithful... —Barty Crouch concerning the death of
the Dead, his allies eventually Barty conducted a violent hatred of death eaters who refused to believe in Lord Voldemorth. He believed that those who would not brave Azkaban for him and denied his affiliation with him were unforgivable—apparently completely forgetting that he was once the same when
he shouted about his innocence in the courtroom. Barty practically pleaded with Harry to tell him that Woldemort punished the death eaters for their thirteen years of disloyalty to hurt them for their lack of faith. Thanks to this fanatical loyalty held by Barty, he launched the Dark Sign for the 1994 Queduct
World Cup to scare The deadly edds, who levitate the Roberts family for fun, are in retribution for their faithlessness despite the risk of being caught. In addition, during the year he was disguised as Alastor Moody, he spent a lot of time intimidating former death-goers, Igor Karkaroff and Severus Sneep,
enjoying the thought of being alone with them to kill them. This intimidation spread to Draco Malfoy, the son of another unloyalded deadly hiter, Lucius Malfoy. It is likely that he respected Bellatrix Lestrange as well as Rodolphe and Rabastan for his own loyalty to Voldemort. Despite his hatred for them,

While it's also possible that he appreciated Pettigrew's role in finding his master in the first place, as well as helping free him from his father Imperius Curse, Pettigrew's disdain to guard Crouch-Snr may have left another
negative opinion from Barty. Peter, on the other hand, seemed somewhat outraged that Boldemort unfavorably compared him to Barty in terms of skill and loyalty. Harry Potter The Dark Lord failed to kill you, Potter, and he so wanted to, Imagine how he would reward me when he finds that I did it for him
I gave you to him - what he needed above all to recover - and then I killed you for him. I will be honored beyond all other deadly people. I will be his dearest, his closest supporter... closer than a son.... — Barty's desire to kill Harry Potter, [src] Harry Potter, the enemy Although Harry Potter was Voldymore's
most hated enemy, Barty never showed open hatred for him, although this was supposed to be an act. After Barty became more paranoid and fanatically loyal to Voldemort, and Peter Pettigreu found Barty at his home. Boldemort freed Barty from the curse of imperius and they conspired to kill
Harry. Barty was the one who put Harry's name in the Goblet of Fire, while disguised as Alastair. However, Barty did not say he was a deadly eater, and played the role of a friendly teacher towards Harry, giving him useful information on how to succeed in the first task of the Triwizard tournament. He was
also the one who taught Harry unforgivable curses, and the first person Harry saw performing the Curse of the Murder (other than Voldymore's murder of Lily). During the year Barty taught Harry, he kept the boy safe from harm's way, and pursued other people who would threaten or get in the boy's way,
all for him to serve Voldemort's plan. Harry has also seen Barty's trial in Retirement, Albus Dumbledor said it was not known if Barty was guilty or innocent. It may be that the only cause of Barty's death that wished Harry's death was to reassure his master, and did not hold personal grudges. In fact, Barty
seemed delighted when Harry found him able to dump the curse of Imperius in class, however, it ended up debatable, and might just have been part of Barty's act. However, when Crouch exposed himself, he declared how annoying that he was proud of Harry being a failure for a plan that forced Crouch
to improvise to compensate. Barty helped Harry with the tasks of the Trivisard tournament because he converted the Trivisard Cup in Porte to finalise a plan to resurrect Voldemort and eliminate Harry once and at all. When Harry and Cedric Diggory touched him, they were transported to Little Hungleton
Cemetery. Cedric was killed by Peter Pettigree overnight, but Harry fought Voldemort and fled. Barty then tried to kill Harry but failed, being caught by Albus Dumbledore, Severus Sneep and Minerva McGonagall. Barty told them the story of his imprisonment, his escape and return to Lord Voldemort (he
was under Veritaserum at the time). He also told them that Woldemort would honor him as no other deadly eater. Afterwards, Harry learned that Barty had been given a kiss by Dementor, who gave Harry a chill in his stomach at the thought. The Longbottom family are all right, son, why don't you get up to
my office? Let's... [14] We may have a cup of tea.... —Barty, pretending to be a consolation to Neville Longbottom Barty were among the death drinkers who tortured auroras Alice and Frank Longbottom into madness[14] to get them to tell where the Dark Lord was
hidden. The Longbottoms were then permanently sent to St Mungo's Hospital for magical ailments and injuries, while Barty was imprisoned in Azkaban along with lestranges. Neville Longbottom In 1994, Barty met Neville Longbottom, son of Frank and Alice, when he was disguised as Alastair. When he
read Neville's name outside the roster class, he showed interest. He also performed the curse of Krutsiatus on a spider, in front of Neville, who was shocked and frightened. Barty then invited Neville to his office for a cup of tea, and presented him with a book about plants. Indeed, Barty presented the book
to Neville in order to help Harry Potter, who was Neville's number one partner, help him in triwizard's second task of the tournament. It is not known how Neville reacted after learning that his professor of defense against the dark arts was in fact one of the wizards who tortured his parents into a frenzy.
Albus Dumbeldor I would like you to tell us how you came here. How did you escape From Azkaban? Albus Dumbledore was one of the participants in the trial at Barty's Magic Law Council. Dumbledore, like all participants, agreed to send Barty and his fellow death-goers to Azkaban for good. He was
also shocked by what Barty did with the Longbottoms in 1981. Barty was disguised as and went to Hogwarts, planning to send Harry Potter to Woldemort. At the time Barty was living in Hogwarts with Dumbledore, Barty used Occlumency to prevent Dumbledore from learning who actually was. In 1995,
after Harry Potter returned to Hogwarts from Little Hangleton Cemetery, Barty told Dumbledor he would go along with Harry into his office despite the latter's insistence that he would not. Indeed, Barty wanted to kill Harry and find out what happened in the cemetery. Dumbledore realized he wasn't real
knowing that the real one would never have removed Harry out of sight of Dumbledore after he was about to kill Harry. Harry pointed out that Dumbledore was in such fury that his eyes seemed like a blue flame, and Harry
understood why Dumbledor was considered one wizard Voldmort always feared. Dumbledore was disgusted by Barty's patrician and also abused and ignored the love given to him by his mother and Winkie, and tied him up for it. After Barty's exposé, Dumbledore learned he had been given a kiss by
Dementor, and noted to the minister that it was a bad move because of the destruction of valuable evidence, showing that he was still sorry for what Barty had become, as it also meant that the Crouch family's bloodline was forever over. Media etymology The name Barteemius comes from the biblical
name Bartimaus, who was constantly blind all his life until Jesus healed him. Being named after his father, the reasons for naming in honor of the blind man may be due to the fact that Barthemi was rather forgotten by the love of his mother and the elf's house. It may also reflect his blind devotion to
Voldemort. The name Bartima means the son of honor: a fitting name for the son of a man who placed his own honor on his son's life. Crouch's surname Cross. While in the case of Barty Crouch-snr, this may relate to his brutality against criminals, since the cross was
a gibbet, in the case of his son it may relate to the curse of Kruciate, which he allegedly used on the Longbottoms. Behind the scenes barty received a kiss Dementor and his soul was removed in 1995, it is not known when his body died. He is also the only
character known to have suffered Dementor's kiss, although it is said there have been other victims since the kiss was never pictured for the audience to see. Kiss is never mentioned in movies. Instead, it is implied that Crouch-enr was sent
back to Azkaban at the behest of Albus Dumbledore, with Severus Sneep holding him in the race to keep him silent. Crouch isn't afraid of it, as he thinks it's probably inaccurate that he'll be welcomed back as a hero, and he's never mentioned in movies again. Even though the kiss isn't shown, it still
happened anyway, as there's no contradiction to the book about people's fates, even if they're not shown. This is implied in later films, however, that it happened when Boldemort broke his Deadly Yidds from Azkaban and Crouch-Enr did not show up. In LEGO Harry Potter: Years 1-4, Barty hides behind a
rock and throws a Dark Sign. Barty Crouch-enr played actor David Tennant in the film adaptation of Harry Potter and the Goblet of Fire. However, Brendan Gleeson plays most of the role, as it is the actor who portrays. David Valliam was offered the role, but it was rejected due to scheduling conflicts over
the third season of Little Britain. Barty's [required citation] appearance in the film is radically different from his appearance in the book, he has sandy hair and is not portrayed as a teenager in his court, as David Tennant plays a role here.
Barty's role in the Harry Potter and the Goblet of Fire film is different from the book, but, unlike the book once caught, there is no doubt either in his quilt or in the insibility. He does not
try to deny his quilt, nor asking his father to justify it. Instead, he unsuccessfully tries to flee the courtroom, but was stopped by Alasator with a white spell and then arrested by the police ministry. After being brought in front of his father, he sarcastically welcomes him into a show of defiity. He also implied
that he had somehow escaped From Azkaban (with his father not even knowing about his son's escape, let alone playing any role in it), and appearing in Harry Voldemorth and Worm's vision in Little Hungleton. After the Quiddich World Championships, Harry actually sees Barty create the Dark Sign, but
doesn't know who he is because he hasn't been able to make Barty's face in the dark. Barty approaches Harry to capture him, but runs away when his father and auroras arrive. On a related note, Barty-inr in the film was seen trying to slip away as his father demands That Carcaroff reveal the identity of
another Deathly Bearer, apparently predicting that Karkaroff meant him but was unable to leave before Carcaroff sparkled the name. There is no mention in the film that he hates the deadly who have lost faith in Voldemorst. It's amazing that Barty, when disguised as Alastair, asks If Goldemort had
punished cowards who would not even have braved Azkaban for him, and those who denied that they had ever even worked for him,[5] when he did these two things himself,[15] and ended up shouting for his mother in the first few days of his imprisonment. There are several possible reasons for such an
obvious rupture: Crouch, a manipulative man and clearly convincing actor (he was able to pose convincingly as Alastair for more than nine months), tried to escape from prison to resume his quest for Voldemort. Barty, like virtually everyone else at Wizarding Britain, feared Azkaban, and knowledge of his
imminent life sentence (as well as the six dementors in the room at the time) caused him to lose his nerve. In connection with his time in Azkaban, not to mention the years he subsequently spent under the curse of the Empire, Barty may have simply turned a shaken and neglected with his own actions. It
should be noted, however, that at no point during his trial does Barty actually deny being a deadly hitter. He simply denied involvement in longbottom's torture (he specifically exclaims I wasn't involved!), and pleaded with his father not to send him back to the dementors. In film recorder Barty Crouch-enr
has a habit of licking her lips when threatened, in a snakesty manner he occasionally shows while under Alastair's disguise. This habit led to him giving himself up to his father after the second task of the tournament in Trivisard. The snake, similar to licking its lips, was improvised by David Tennant himself
and was followed by Brendan Gleason as Barty disguised himself as Mad-Eye Moody. [citation required] In films, anyone who takes Zilla Poljuice has their voice remaining unchanged, the only change in appearance (to help avoid audience confusion because of this change). This doesn't seem to be the
case for Barty Crouch Sr. when he turns into Alastor Moody, however it doesn't seem impossible that exception, since his transformation was kept secret (unlike others that took place throughout all the films) and so the
audience wouldn't know beforehand until his identity was exposed at the end of the film (though it wasn't before. that Crouch-Hanr, without Polyjuice, had only three lines to his exposure and was not identified, so a change of voice may not have been necessary for someone who had not seen the Glass of
Fire before). Barty Crouch-enr was the first person to escape from Azkaban, not Sirius Black (though Black was the first to do it on his own). Black's escape was discovered immediately after it was done, leading to this mistake. Crouch thought Harry's murder would please Voldmoret. In fact, Goldemort
would have been furious, as he repeatedly stated that only he would kill Harry, given his fanatical loyalty to Voldemort, Crouch's lessons on the effects of the Imperius later. In
the book, Barty changes back into himself because he was unable to take the polyjuist potion in time because of what had been knocked out by Dumbledore and Sneep before. In the film, he runs out of potions, which also causes him to blow his cover, nervously asking Harry about the cemetery, despite
harry never mentioning the cemetery in the first place. Coincidentally, the first episode of The Doctor, in which Barty appears in the book is also called Path Parting. The amount of time characters appear is also
very similar. Crouch appears on the front page of the book section, with the Tenth Doctor appearing in the final scene of the Doctor Who episode. Aside from the comparison, both scenes have Tennant appearing after the character changes his appearance, and end with him dressed in a shabby leather
jacket and black jumper, reflecting somewhat manic tendencies. Harry Potter and the Goblet of Fire was released in the UK on the same day Tennant made his first solo appearance as a Doctor in a mini-episode that aired as part of the 2005 Kids in Need TV appeal special. Later, an episode of David
Tennant's Shakespearean Code will contain several references to Harry Potter and J.K. Rowling. Specifically, Tennant's character will comment on the Harry Potter-loving and Deadly Halloween that hadn't yet aired when the episode aired and Expeliarmus was used to defeating the bad guys. David
Bradley will later take on the role of the doctor's first incarnation in 2017, after playing original character actor William Hartnell in the 2013 TV movie, Adventure in Space and Time. In the film adaptation of Harry Potter and the Goblet of Fire, Neville Longbottom gives Harry a gilded one, instead of Dobby
(who is absent from the film). Vicky's Harry Potter performances feature 89 images related to Bartemius Crouch Junior. Notes and references † Harry Potter and a glass of fire. Chapter 27 (Padfoot returns) - Sirius Black talks about Barty He couldn't be more than nineteen when he was imprisoned in

blooded families are extinct in a similar way - not because these cases occurred at the same time. Retrieved 2014-05-27. The dementor had just destroyed the last member of the pure-blooded family, which remained as old as any —the Crouch family was a pure-blooded family, deshed in the Directory of
the Holy Twenty-Eight, so its members would have to be pure blood or half-blooded as Malfoy. (see Writing by J.K. Rowling: The Malfoy Family in the Wizarding World) 1 World Exclusive interview with J.K Rowling, Southwest News Service, July 8, 2000 - Hogwarts simply serves Britain and Ireland. 5.0
