After being exposed to a sun and by the elements partorisca year, an annexe of hose among a bomb and the filter has broken. I've been looking for using silicone and duct tape as the makeshift fijamente. It's done for the week or two. Then filtered again. I have bought this part to replace the P6560. A	
nose is main that one one this comes with a group. This notwithstanding, some claimed that scrapes into a bomb and filter, access perfectly. A hose is quell'has bitten for a long time, but works so just fine. They are happy with this compraventa and part of the substitution. I took the opportunity to find something hidden would do and have bought this hose without knowing for sure. The appearance of these helps and my photos would have you giving the clear image that has been replaced and the one that a new few look like. 4/5 WardWhen Asked description will tell a truth. 504 / 5 IlaWorks as it has to without complaint. Good and cheerful value with a compraventa.4 / 5 NeomiProduct is well, wanted partorisca vacuum hose but makes noise to whistle strong.5 / 5 RevaDoes not block with at least he 2500 Gpm bomb, included when a hose does not remain direct. (Some	_
claim a suction collapse done) common sense, yes make sure he no kink so that pulled hard, he usually tara or separate over time. For 16 dollars have absolutely no complaint and do very well for at least 14 meters on the group of earth. Fl The sun didn't dry it was. (3 end of the month) Less than 24	
update of now later A defect and you can decide want to spend the little bucks more for the hose of better quality. Slang he himself is excellent, this despite less than 24 hours later could not include reasons have had air when presented inside a bomb. It remarked it as another client has tried to say, with the picture). A tip of the final of the open part and the air takes is presented, in a side of the bomb, no side has had them inside a group.	,
with a sweeper (today is October 4, 2019 and goes absolutely strong). One side that is none sinister, the still duct tape he with krazy glue and he connected up in a side of the bomb, for prevention. Again here it is on October 4th and a hose is used in the daily bases without a question, any one has drie	ed
each or something, and the FL sun takes heat 11 January 2020. The hose still makes perfect. Still a lot now in July 29th 2020. Recently lost some colour.5 / 5 UnaAre disappointed as this hose has been announced. I have ordered to 25 hose of feet because my group is 18 meters long. This hose is not achieve one on my group. I gave it 2 stars because it's very has done.5 / 5 OpheliaHas bought to this hose like him the course of a vacuum process for an on earth 18W x 4H Intex group. Think that a product is robust and will last for a long time. My only subjects are this	
equires squeezing a hose into a small filter intake to ensure that rests are dipped while cleaning a (2nd) I have found that some need for hose detects to be lowered in a one to the equal squeezing out of an air, otherwise the moment for a bomb of the small filter for the press will take, so that it can work	
n coordinamento with a vacuum break. (3) While cleaning an exact group someone to resist a hose in a group otherwise will try to slip out of a group, even if it is connected to a vacuum low water. The inferior line requires the product much this will do, but when used with an economical in the group of	
earth requires some additional support like the course of a vacuum process.5/5 CorineWill do have an Intex Deluxe box with more cleaned. At all in a description of the product the work said only with it. It is not returned in or in an adapter of hose that comes with an Intex Shimmer to surface so this is	
expected to. Intex HAS ultimate products but descriptions of the terrible product do not import buy all some necessary pieces, I wish have only had complete information that it could buy him all immediately instead of at times several weeks using the test and was detected by error.4 / 5 RuthannHas bridgered a hose to use with a system for collecting sawdust in my hub of work. It has done well thus purpose and of the costs Much less of real Tent-Vac hoses. One returns at one end of a hose returns an adapter in my Bosch ROS perfectly, which directs me for thinking it would do in another fitting	
swaying for the 1.5' Tent Vac connection. There is no @to @give the one that is easy to cut a hose to an exact period. You screw off One that returns from a finale, cuts a hose, and the beam has retreated on. Very light and useful. Any insurance in a shelf life of term with a longitude of a hose, but is	
careful someone to snag on something not seeing reason would not last the long time. My woman has also used a hose to clean our group, and has said that has done well thus purpose as well.5/5 UlyssesHas received so just this yesterday for our 16'x48' ultra group of frame. I've found a plastic to be enough, some thin at all. My only complaint in a hose is the wishes one, it has been swivelling. It has done perfectly with a weighted half moon vacuum head. I have also purchased an Intex Adapter by Skimmer. It was tight access but has completed to make perfect. I've warmed up on one end of a hose	
with dryer of hair and he loosened on pretty much just to slide into one end of the adapter! I have also purchased a Jed Connector by Hose by the groups but this is resulted to be useless with this setup.5/5 JacquesAny way the hose of the hook is a shimmer of wall of indication. The picture and packag	
aims it it runs by means of upper. Any way that can be connected. Tried partorisca run using the shimmer of wall and so only directed partorisca break a clutch. The company would be obliged to maintain offer more than mine using Fri. I have called several times and have difficulty adding it includes a	
supported person. Amur My group, hates a lack of support after a sale.4/5 KerrieThese works of slang so better that a clear hose that comes with my Intex shimmer and brush for the embrague yield so that it soothes not need to use a hose clamps this was necessary to attach a clear hose. These looks of hose partorisca be much more durable to a clear Intex hose and I expect it to outlast 10 of some clear hoses. Filter grupal, X 25ft - has done well partorisca less than 20 days. It covers of white ends in the final	to
break off hoses and is now useless. While Intex accounts for its products and substitutes.5/5 CatherinA price was right and really has required so only 18ft though, couldn't find this way here selected period partorisca this element. It feels like he bit it thin and some finals don't look to be attached very we	
t's not back my Intex automatic vacuum or Intex group couplings still even though some actions were some same. I am obliged to attach with the help of ribbons of ray. If shopping, recommend a lot when you're a lot to rough or pull for much. 4/5 CindyHas ordered an Intex shimmer last state and an Intex of a rest of the state of t	
ilter of sand this year the partorisca mine 16' round Intex group and have wanted to try my hand in vacuuming him without a hose of water. This hose does not directly connect my intake filter to which a shimmer is attached, but will connect to a hose that is attached to a shimmer without leaks. They are yearly happy with a hose, are good quality and have on resistance like this far.4/5 ClariceHas bought to replace the UV the HOSE ate. This hose has hard, finals very flexible. When it covers the shimmer grupal for the use of suction, hoses do not bend, he kinks. It does not resist fast to the line of suction	
he shimmer, decrease to signal easily. Diameter Slightly out of specs. Used plumbing tape to try to save compraventa - but then tubing kinks in other zones. A lot of frustrating compraventa.4 / 5 OdiliaSoso. It says it can use on the side of filters. I tried it, and decorating 24 hours a hose has started to	
block off a suction. Probably GOOD for the smallest bombs. Has Hayward bombs that really water of movement. Bought this to replace the hose in 3 years that has been for something more. Someone to attack a hose completely, if the side of the suction pumps lest ike an INTEX, would do well.5/5 Marthls well, sound the tube and he needs. It is the lonely piece of molded tube, because it does not have a transfers and give that normal quality a fact. This means is prone to tangles on he, and that causes it to burst free of your vacuum or filter to group intake every	SS
ime 5 meters more.4 / 5 MaganThese produced are not good for inground groups, bomb. A material of is not having to do it as this tongue and results real tight which causes a creepy crawler to result stuck in a small zone more than emotional around. Has 1.5 hp bomb and this hose cant handle an	
esuck'. Those as one who recommend it, and will need that go to deliver grupal and but an expensive some.4 / 5 LilianaHar required the hose and all some tent grupal has had the same hoses that were more money. I've found this on Amazon and read good descriptions about it. The way I bought it.	
Resistance up what the field has had of then in late June. It returns my Intex group and accessories as well. To good certain value of money.5 / 5 GeorgeA box was almost destroyed that ship. It could see where it was repossessed when it came up. A hose is the no like this flexible as I have expected and will not resist until a sun. It would be owed that it has paid it \$5 more and it has taken that I really loved by the tent group for the company that arrives in a projimo a few days. Any value that has paid for but temporary laws. Duct Band will do it	
contingent.:(4/5 MoraHar taken this as the replacement for my small group. It hasn't loved spending too much of then I wasn't sure was relevant access. and slips a vacuum head at times.4 / 5 BarrieOssia Plastic economic, súper has done poorly. In fact, the whistle extreamly strong to a point can't be. I have broken Han for the course on and not touching me have wasted my money buying this poor piece of hard plastic. Enough spend an extra \$15 and	
ake together well! Yes or take it or paid for and recently the Amazon has not done well for me:(4 / 5 KarlaThis concrete hose will not attach to an intext shimmer of traces of wall. A hose attaches the sum to a real vacuum but is not drawn to eturn connections. How it is itself is in diameter.5 / 5 ZitaHas bought last year and I used it vacuum. It was a lot but has taken a job done. I have tried today the he uses for some other time and he has already had cracks. I maintain in the cube of plastic storage as I'm not sure reason, but have small)
cracks to the long of a hose that marks a suction very very bad. It has been expected to be able to use him more than a swipe.5 / 5 Hanals the hose a hard plus has used. But I of anyone who has someone complainabout buying is one. I entertain in the nave out of constant direct s	sun
and have been using them he for 2 years now.5 / 5 ArmidaFor my purpose has pretended was . A creation of torsion of this hose has made that horrendous sound when I've tried to use the likes of him AIR vacuum hose. This hose hose pulled to WATER so just! As he no my deception.4/5 LettyLight co	
- kinks easy, coils too easily too – if it looks to use in an automatic shimmer, coils more than another direct. For a price takes a job - quite economical compared to other hoses. Action of lots of the price. 5 / 5 GinnyThis has solved my topics with using my group vacuum. A period is right and can be used or both vacuuming and for siphoning off a fund. 5/5 Gertrud Economic, would need to have known the quality would suck. Do not like a material go in tents, this plastic was of economic easy break. Also it has 2 finals viriles the difference of a woman virile/level. 5/5 Darrells well, do not like to wind on clear	
and mine has begun to partorisca develop holes that targeted the partorisca air bubbles and craving reduced when vacuuming . Paying off the extra money and taking something better next time5/5 MacieA hose is pretty easy, as I'm worried about durability. There is ribbing in some finals of hose, which	
nterferes when sticking directly to a shimmerdoes not take to focus adding that it cuts/cuts to a shimmer. That has been said, is functional, and probably the good value. 4 / 5 CorneliaLook In a box in a picture of delivery the one who thinks them are rasgado image costs the words of thousand! 4 / 5	
oritaDeclares is for intex groups, this hose was too big for my group. It gave it to three stars like them to them the quality of the state add but some actions do not return all intex groups. It would be required to declare the measure of the control a lot of all intex groups are a measure of the same and shorter to a suction of a filter.5/5 DanicaA cuffs are pretty free compared to so just anout each other brand, but looks to be that it seals enough.	
or now, 3 monthe in service. Some rigid coils in a hose there are not softened a little after the month in a group. Do you have yourself the service and the place has been directly in an earth under a sun for the few days, and hid a trick. They would be required to dipped that in some directions.5/5 Colton	•
nose has done well. Durability and robustness issues are owed as answered today the late plus4/5 JacobA product of decent quality. My subject is only a period, 25 feet would be enough to take off a shimmer at the far end of a group, but when a suction is turned in just looks to go in meso that period. Have had been that had a segmented as are some same OD as the female version of an I of hoses of earth. So, a group of earth skip their hose and and a segmented	Ч
