Before the flood movie discussion questions

DISCUSSION issues Climate change is the most fundamental threat facing the planet. We must work together as a global, collective voice to demand big measures now, as our survival depends on it. Here are some questions to guide a powerful conversation with the audience after a community view of BEFORE THE FLOOD. 1. As stated in the film, any decision we make may have an environmental impact. What changes will you make in your daily life to reduce your carbon footprint? How will you hold yourself accountable? 2. IN BEFORE THE FLOOD, we saw countless ways that our consumption is destroying the environment. Which results were most shocking to you? Which solutions gave you the most optimism for the future? 3. Every November we have a chance to elect representatives with our best interests in mind, whether local or in Washington, D.C. If you were elected to office, what steps would you take to ensure a sustainable future for future generations? 4. In November, we vote not only for a new leader of the free world, but a person who has the power to set us on a new course. What problems are most important to you in the fall? And what can we do to better elevate the importance of the environment among our candidates? 5. The debate on climate change has been branded a misinformation campaign. What arguments have you heard on either side of the debate that has been most powerful in creating your views? Have any of these ideas been changed because of this film? 6. Are you optimistic or pessimistic about the future of the planet? Why? 7. This film has an incredible power to change its mind and expand the common knowledge about the impact of climate change. Who do you think needs to see this movie? Why should they see and what can you do to make sure it happens? 8. While it would be great to assume that everyone will make environmentally conscious decisions all the time, we can't expect everyone to give up their cars and put solar panels on their homes. What tools (apps, incentives, resources, etc.) will help you and your community become more environmentally conscious? 9. The film was filled with powerful images, startling statistics, and a myriad of ideas on how to live a greener lifestyle. What was most powerful and inspiring to you? What will you tell your peers about this movie? 10. From the streets of Miami to the islands scattered across the Pacific Ocean, people are affected by climate change every day. Have you had any first-hand experiences with climate change? What were it like and what changes did you make as a result of this experience? back to Before the Flood To continue to enjoy our site, we ask that you confirm your identity as a human being. Thank you very much for your cooperation. About Press Watch Take Action Climate Change Is the Largest Single to a sustainable future, but at the same time, the climate challenge provides a golden opportunity to promote prosperity, security and a brighter future for all. Secretary General, UN Clean air, water and a viable climate are inalienable human rights. And solving this crisis is not a matter of policy it is a matter of our own survival. The UN messenger of peace for the climate Planet Earth - creation, the world in which civilization evolved, the world with climate patterns that we know, and stable coastlines - is in imminent danger. Columbia University When you go up there and look at it with your own eye, how thin the world's atmosphere is, small little onion skin around the earth ... it's an astonishingly fragile film. Deputy Director of Science and Exploration, NASA Goddard Space Flight Center Follow Leonardo DiCaprio as he travels around the world to witness the devastating effects of climate change and what can be done to solve the climate crisis.
