Digimon Story Sunburst) and Digimon World Evening (デジモトリラト, Dejimon Sutori Munraito?, lit. Digimon Story Moonlight) there are two separate but related DigiMon video games for the Nintendo Dems handheld game console. He was released in Japan on 29th March, 2007. The English names of the Games were officially confirmed on May 16, 2007. [1], and they were officially released on Sept. 18, 2007. Two different games have parallel storylines, as well as variations in which Digimon appear in some places, but have the same gameplay. Both games come with a sticker sheet. The Digimon World Dawn sheet includes the Digimon World Dawn logo, the Digimon Data Squad logo, The Waymon, Salamon, Hawkmon, Coronmon, Gomon and Agmon, each featured on the cover of the game, as well as Coronmon and Flamanen, in their official Bandai illustration. The Digimon World Evening Sheet includes the Digimon World Evening Logo, The Digimon Data Squad Logo, Demidivimon, Lopmon, Mushroom, Lummon, Gaomon and Dremon, each featured on the cover of the game, as well as Lumon and Crecemon, in its official captive depiction. The plot has plagued a huge earthquake, caused by a mysterious virus, the SunShine and DarkMoon districts, damaging access points to the digital world and causing many Digimon to mysteriously degene degeneate to dig-eggs. Rumours have spread at dawn that the Night Crow team from Darkmoon City was responsible for the incident. However, a conflicting report surfaces in the evening claiming that responsibility falls on the light FANG team from SunShine district. With both sides accusing the other, the players will play the role of anti-tamer to investigate the aftermath of the dangerous aftershocks and uncover the truth. Note that although the game will share a main story, it is known that the plot will be somewhat different between dawn and evening. Players will also explore different areas depending on the version of the game. You can choose to play as a boy or girl, although the boy and girl look a little different depending on the version of the game. the version you play. Both matches will feature a parallel story with one main team that opposes the other - Light Fang in the morning and Knight Crow in the evening - although both teams work closely towards a common cause. [2] The game also includes Marcus Damon, Thomas H. Norstein, Yoshino Fujida and Keenan Rier, the four main characters of the Digimon data squad anime series, at a post-game Union Quest event. Also, in the same search, the game includes Tsurugi Tatsuno, UU Inui and Shou Kahra from Digimon Next. Many new introductions with Digimon World DS, Dawn and Dusk as gameplay changes for the franchise. Chichimon is a new bird-based fresh/in-training digimon. Grimmon, Caegriman and Exogriman also make their first appearances in the game as the main enemies. Grimmon has a connection with the villain Chrono Core of the previous game. Dawn and Dusk also stayed out in the first game, with the likes of ShineGreymon and MirageGaogamon, completing Digimon's Digivolution lines from the Digimon data squad. DotShineGreymon and DotMirageGaogamon make their debut, DotAgumon and DotFalcomon are returning from the first game. Digimon World Dawn and Digimon World Evening also allow DNA degivo solution, in which two digitly close levels of digimon can be added. Usually, it only provides state bonuses to digimons chosen as the basis of the dijivo solution, but some combinations of digimon, if they have the correct figures, will be in a completely different digimon. Based on the version of the starter Digimon game being played, players automatically start with whatever lead Digimon chose two Digimon from their version special, plus related packs. Valkyriemon Password 02619020 Reviewers welcome Digimon World Dawn and evening usually get enough reviews: Secret Instruments Legend Sword, Legend Robe, Dawn and Legend Ring in the evening. IGN presents Digimon World Dawn and 7 of 10 pm, (decent), praising its enhanced multiplier mode/Wi-Fi connection capabilities, but criticizing its great resemblance to the previous game and its errand boy-like story mode: The fight can be solid and multiplayer a lot of fun.. + It's just unfortunate that players are forced to progress through a story exploring the fetch. GameSpot gave this game 6 out of 10 (fair), stating that Digimon fans will find multiplayer worthwhile, but dull story mode is basically a rehishing of the previous Digimon world. CheatCC senior author Cole Smith gave it a 3.3 out of 5 (fair), and said in his closing statement that, Digimon World: Evening/Evening Online trading will allow you access to Digimon in both evening and don versions. If you're a fan, expect a lot of games. GameZone Digimon Don/Dusk given a 7.5 out of 10, this RPG series is very popular, and this version is a good game in itself. Digimon are diverse and plentiful, and the dual process of developing them is interesting. The combat system is fun, and easy to find and understand stats and other information. However, there is way too much dialogue, especially at the beginning, and not enough diversity. Quest that would tie in a big story, and more things would have been fun to do like a farm or fish. - GameZone article preview notes and references ^ Digimon from dusk to dawn. More Digimonwiki This page is a list of characters from the Digimon video game Digimon World DS, Digimon World Dawn and Sham, and Digimon Story: Lost Evolution. For characters in The Digimon Story: Super Xros Wars Red and Blue, see the list of characters in The Digimon Fusion. For characters in The Digimon Story: Cyber Sleuth, see the list of characters in Digimon World DS Hero Hero is a human whose name and gender can be chosen by the player. On June 15, the protagonist enters the computer room, thinking about rumors of mysterious monsters from computers that fight with humans, wanting to see them with their own eyes, and decided to watch on the internet. The protagonist finds about digital monsters and sees an image of another world, showing an Agumon, a gaomon, and a redmon. The child then receives an e-mail asking if they want to open the door to the digital world, and accepts, being dragged to the inside of the computer. Upon entering the digital world, they witness a ClavisAngemon giving a lecture on war and Digivolution to a group of Digimon, including performing a fight against a Mamemon. When they hear ClavisAngemon talk about humans and Tamers, the hero decides to follow him after the lecture, taking a warp pad to Digi-Central. At Digi-Central, they talk to a terrier who informs them about tamers and asks them to go to the union office. On their way, the protagonist bumps into Kazuya, and is surprised to learn from him there are about thirty humans already there. They are also impressed by Kazuya's digi-form, and note his Gabumon looks happy. Kazuya informs the protagonist that if they want their digi-form, they must first register as Tamer. Once in the union office meets the hero Mr. Gurre. Blackgumon Blackguman is a surly digimon that appears in the training peak, challenging the hero. After losing, he digivols to Darkanonmon and demands another rematch but has lost again. Despite wanting to grow ever stronger, DarkTyrannomon is struck when the hero is confronted by Machinedramon in the Chrome mine. Blackguman has been reborn as Pagumon, whose care is the discovery of the protagonist as a silver tamer. After moving closer to the protagonist, Pagumon reveals that he used to be an antalmon that was abandoned by the previous tamer against Kimmmon and reborn as a blackgumon. Through their shared journey, he ultimately decides to believe in the protagonist, and when the protagonist finds a core piece, he's able to assume his Antylamon form once again. Antalmon aids the hero in defeating Kimeramon once and for all, and he is then represented as the hero who permanently joins Scan the Antlaman data. The hero's success in boosting The Antilumon delights Baihuman, which allows the protagonist to move on to the Gold Tamer rank. In The Digimon Story: Super Xros Wars Red and Blue, Antalam Cronon is part of Koguire's team Chrono (クロノ, Kurono?) in the bronze tamer match with Holly Mode and Ebonwoman. Haruhiko Koguere Haruhiko Koguere (コグハヒコ, Koguere Haruhiko?), known only as Mr. Gure-San?), is a researcher in the digital world. He collects the hero's bio-energy data after they touch the computer monitor, and finds the ability to be a Tamer in them. Mr Gurre believes that Digimon and man can happily exist in this world, but he needs the hero's help and, after receiving the agreement, introduced the player to the leader of the Tamer Union, Clavisanjemon. He then leaves as the protagonist gets registered an official Tamer. Digimon World Dawn and in the evening, a shortened version of Koguire is contested as the final match of legend Tamer Ouest. His digimon chronomon is holv mode. In Digimon Story: Super Xros Wars Red and Blue, Kogure bronze is fought in tamer match and leads Team Chrono (クロノ, Kurono?). His digimon chronomons are Holly Mode, Ebonwoman and Antilamon. Kazuya Kazuya (カズ, Kazuya?) is the first tamer to meet on the way to the Hero Tamer Sangh. He tells the protagonist about the digi-farm system and shows his own, which has a tsonomon, gabumon and goburiman. Their preference is animal dijimon. Partners Tsonomon: A Digimon Kazuya lives in his digi-form. Gabumon: A Digimon Kazuya remains in his digi-form. It's heartening when the protagonist sees it. Goburimon: A Digimon Kazuya remains in his digi-form. Phil Phil is a Digimon researcher who was kidnapped by a machined dromon who wanted to develop further. Phil Research is on ways to develop Digimon without the assistance of a human partner. He is the inventor of the return chip that inspires collapse. He uses the machinedraman trick and return chip on Digimon to degeneral him into Skullgreymon, who is able to defeat the hero (DS) so easily and defend Phil. Phil has a younger sister named Ellie, who has partnered with a Biyomon. Unknown-D unknown-d (デジモノウ,d(デジモ),An'noun-Dejimon?, unknown digimon) is a digimon that seeks to revive the legendary super ultimate digimon to prove that human tars weaken the digimon. He is eventually revealed to be aphmon. Finally ClavisAngemon helps him stop Chronoman DM, but both fail. Clavisanjemon Clavisanjemon is the leader of the Tamer Union. and follows platinum tamers. When the protagonist arrives in the digital world, ClavisAngemon is giving a fight performance together to a group of Digimon with a Mamemon, and then gives them a lecture about Digivolution levels, humans, and Tamers. After finishing, she and Digimon diggy-central go back. He tries to help Alphamon stop chronomon but fails. Kain bt boss (bt (バテマズ) ボ, Bado Teimab Bosu?, Bad Tamers boss) is Kain in disguise. He helps you fight with your supervisors by infecting digimon with viruses. He also leads the bad tamers. Chronomon chronoman is ultra digimon which is the ultimate goal of unknown-D. Clueless-D has the desire to use his power to remove all humans from the digital world by manipulating Tamer Kain. As an egg in the core field, he is protected by a healing plant equipped with four seminal pods. By the time the hero takes down the healing plant, it's too late-because chronomon was awakened by the dark heart of Kaine, he becomes the evil Chronomon DM with the intention of destroying the world. The hero refused to give up and subdued Chronoman, turning him into his hally mode by showing him a pure heart. For this victory, the hero is appointed tamer king. The hero can come back and face Chronomon once again in his holy mode, winning his partnership upon defeating him, which is represented as 100% scanned data for chronomon holy mode. In Digimon World Dawn and dusk, Chronomon Holly Mode is the partner for a shorter version of The Coguire and is contested as the ultimate match of legend Tamer Quest. Additionally, when Chronocore loses, it laments that Chronomon is not there. In The Digimon Story: Super Exros Wars Red & amp; Blue, Chronomon Holly Mode is a member of Koguire's team Chrono (クロノ, Kurono?) in the bronze tamer match with Ebonwoman and Antalmon. Kowloon Company (クロS.E商., Kúron-shökai?, Cool Wrong A.) is a group of mercenaries who are working for money; They are digimons that work in the underworld and will do anything for a certain price. They were originally hired by Grimmon to put together parts of the virus that are invading the city, and whenever the hero encounters them, they attack. Once defeated, they usually leave a piece of the virus, which can be analyzed to restore parts of the city. Their leader, GranDracmon, lives on Proxy Island, and the main character is eventually sent there to buy her help in restoring the Union Bridge, while putting a lock program on it to prevent the other Tamer team from attacking, while the main character crosses and the fight ends. Grandraman, known as merchant of death, is its leader and Gaomon is its second-in-command. Other members are Varusedron and Spinoman, which only appear in dawn, and scalp baluccimon and mercuriman, which only appear in the evening. Heroes receive merchant missions of death during the unique Kowloon Blade instead of asking for the Hero Tamer team to pay the cover charge of the bill foot. If the hero can't pay for the sword, Grandraman will force them to defeat them in battle. In The Digimon Story: Super Exros Wars Red & amp; Blue, Gaomon, Grandramon, and Warusedramon Serve Under Sio in Team Moonlight during the Gold Tamer match. Gaia's original Gaia original (リジ, Gaia Origin?) is a group of powerful, mega-level digimons that look at the digital world. They existed the way they existed before the Union was founded. At Susanoomon's request, it remains out of the Chrono event, and after following the hero's skills during it, they challenge Syo or Koh for a duel to the right to be recognized by their organization. This challenge constitutes the Gaia Origin Challenge Quest. In Dawn, Gallentmon's Crimson mode extracts some of his data to give to the protagonist, effectively joining him, and Beelzemon's blast mode does the same in the evening. The organization is currently made up of a Duftmon, Slepmon, Apocalymon, Susanomon, ZeedMillenniummon, Alphamon, Omnimon, Beelzeman Blast mode, and Gallantmon Crimson mode, all of which are Lv.90 when fought. [Citation needed] ChaosGallantmon and Ophanimon were once members as well. Also, Gaia comes back home after defeating the original, a watch which claims to look at the digital world.
