(Mission and Humanity, Gun Crazy, From The Young Lady, No Time To Kill, Feeling Blue, It's Not All Dark And Gloomy, Reading Red, Tactical Upgrades, Packing A Punch)Glitched trophies: No. It's about difficulty: No. Playthrough: Introduction 2: Resident Evil Code welcome: Veronica X Trophy Guide! Play as Claire Redfield, as she calls her brother Chris, resident evil 1&2 after events! Am I alive in another Umbrella Lab!? Roadmap: Step 1: Defeated the game. In this step, focus only once beating the game. Learn paths, learn enemy locations and item locations. Don't forget to save Rodrigo. If you don't have it, don't worry, you already have to save it in the next game. I also recommend that you get all the files, once you get in the second half of the game, if you have not answered any before, your luck is over. Also, make the rotating save. There are also 30 slots to sign up for in total. Don't be afraid to use it all. You can easily mess it up and get many opportunities to fix it, it helps a lot! After this run, you'll have a few trophies. This will be the trophy win: Terror Shades Fallen Tyrant Lost Everything to Frozen Land A Modified Father Begins An Arrogant Queen Mission from the Young Lady and Humanity Green Giant Feeling Blue It's All Dark And Bleak Reading Red Tactical Upgrades Packing a Punch Decorative but Deadly Step 2: War Game! War Game is unlocked, we're going to knock him out here. It's basically a time attack with 18 room enemies. You have unlimited ammunition for the weapons in your inventory. It's annoying and stressful, but once you get the layout of the map, it's quite simple. In a way. Only 5 different characters have to clean up, each with their loadouts. Besides, time always works. Even on the menu. At the end of this phase, you'll finish the other half of the trophy list! In this step you will win these trophies: Is it Cold Here? Mirror Mirror Eye We Don't Sell 1-Ups I Spy Anything You Can Can, I Can Do Better ... I Can Can Better Than You A Alternative Rockfort's Finest Power Hungry Battle Master Step 3: A Rank + 4 Hours for Speedrun! Now comes the fun part. Rank A. You have a lot of requirements for this trophy. It's like not saving money, dying, or using first aid sprays. The list is going on. But you can click here, to get an endless plant, it does not go far unless you accidentally mix it with another. I can't recommend it enough! Then all you have to worry about is stocking up on bosses. See Gun Crazy for all the requirements for A Rank! After this step, it will go platinum! In this step, you earn the following: Weapon Crazy No Time Evil File Locations Of Slayer to Kill: Thanks to lBadDriver! for video. Trophy Guide: Slayer of Evil unlock all trophies. Unlock all the trophies. Terror is beginning to escape the terror league. At the beginning of the game, the first area you pass is a cemetery. Once you do this and see a cutscene with a different character, this trophy will then unlock. A changed father save the changed man. This trophy is achieved after playing as Steve and falling over a ground with him. Then there's an emotional cutscene, and the trophy opens from now on. A former S.T.A.R.S. captain beyond Shades Encounter. When you play as Claire, you'll get to an episode where you meet Wesker in a scene. This cutscene is going to blow up later. The fallen tyrant is an unstoppable enemy from the flat. This will unlock the plane after defeating Tirana in the cargo warehouse. This fight is frustrating if you're not ready for it. Go in full of heavy ammunition. Or 30 explosive bolts for Bowgun! Now, when you start, you'll be near a machine. If you interact with him, you'll hit Tirana. Now run around the hatch and shoot Tirana when you can hold it. It moves slowly, so it can be easily circumvented, but it can drop you from the back of the plane. When it bleeds a lot, you'll hear beeps. Run back to the machine and shoot the cargo back at him! Then he'll fly off the plane and die! Defeat the prisoner who lost everything, the unnamed man, and end his suffering. This is to kill Nosferatu in Antarctica. Just before you grab the Sniper Rifle, put everything in the item box. A little health, a blue plant, a grenade drop and some grenades. Now Nosferatu is on a helipad where you can get knocked out if you are not careful. It moves slowly, and when you wave your arm, the poisonous dust flies and can poison you! After using all the sniper ammunition in Nosferatu, if he's not dead, hit him with grenades! When he dies, you get the trophy and the war is over! Start looking for your sister in the Frozen Land. Chris unlocked it when he got to Antarctica! You're nearing the end! We have end the king of the arrogant Queen Queen. For killing Alexia at the end of this game. This fight is frustrating and brutal, and you need a lot of ammunition for that. I had over 100 pistol rounds and 30 shotgun rounds, and I barely made it. Go to the fight with as many healing items as possible. Now, I stood in the corner, shot him, and every once in a while I aimed down to kill the plant cubs. I also want to take a step or two now and again and see how badly injured and heal. After sufficient damage, the Linear Launcher comes out of the wall. Now walk around until you fire, then try to hit it with a launcher. This butt is a big pain, as aimer was the first person The launcher and he flies around a lot. So just hope for the best before time runs out! Duty and Humanity deliver medicine to a man in need. If you miss hemostatics, Rodrigo dies. When you're at the Military Training Facility, you're going to get to a point where you have to chase Alfred. In the long corridor, at the far end on the north side, is a savings room. There's a bottle of Hemostatics in this room. Now, when you do, go back to your prison cell and give Rodrigo the pills and take this trophy! Get a Gun Crazy Rocket Launcher. This is the hardest trophy of the game. You have to get rank A to get it. To get rank A, you need the following things: Finish the game in less than 4.5 hours. The clock IS ALWAYS RUNNING! No Deaths No Saves (Save Antarctica) No First Aid Sprays Rodrigo hemostatic save Steve quickly in the death chamber give Chris a defeat to Gulp Worm to save Rodrigo who must be achieved to get all this a rank. Now, if you are not sure about the ways to get it, I recommend playing each episode several times or watching videos. I recommend using extremely endless green plant failure, so you can run it with all its enemies, not just wasting ammo. You can use the video to go to the third map of the roadmap. Just before Claire beat Nosferatu, leave endless weed, and her raised pistol, and ammunition in the box. Go to Nosferatu with assault rifle, sniper rifle, antarctic weapon room and many healing items. Especially to cure the poison! After receiving the A grade at the end of the credits, this trophy is unlocked. Take encouraged young lady from a young lady. When you get to the point where you take control of STEVE, kill the zombies in front of you and go back to the door you came out of. Claire will say words of encouraged words to you and you will receive an award! Green Giant, say goodbye to your dead comrade. This is achieved when you see a certain character die while Chris is in Antarctica! No spoilers! Finish No Time To Kill in less than 4 hours. This is to finish the game in less than 4 hours. He looks a lot like a Gun Lunatic. If you don't manage to get this with Weapon Crazy, you'll get an endless rocket launcher to help the process throughout! In order to use a rocket launcher, you need to start a completely new game. Don't forget to put the rocket launcher in an item box before Nosferatu, so Chris can have it. You can also get Assault Rifle in Antarctica as Claire. In the gun room where you took the Mine Room Key. After defeating the game in less than 4 hours, this trophy is yours. Is it cold in here? Claire was shivering in the freezer (in third-person view, it should be Battle Game). Playing as Claire in The War Game, room 3. 14. Stay in this room for a minute or two until Claire makes an animation of being really cold, then the mug will explode! Mirror Mirror Look broken mirror in the dressing room with Chris (should be in third person view). When you play as Chris in the War Game, you'll be in room 3, locker room. Examine the mirror at the entrance and take this trophy. While playing as Chris in the War Game, he was a 3rd-timer. Then in room 4, before you leave, go down the hall, across the exit door and interact with the Tiger statue for this trophy! We don't sell 1-Ups use soda machine outside the locker room with Steve (should be of third person view). When you play as Steve in War Game, when you get to room 3. 12, before you walk out the door, interact with the vending machine, and then this trophy will be unlocked! I look at the one-eyed statue in the infirmary with Spy Wesker (the third person should be in view). When you play as Wesker in The War Game, you'll be on map 3, in the doctor's room. Go to the next room and interact with the one-eyed diagram before leaving and get this mug. Everything you can do, I can do better ... Earn a War Game A ranking with Claire. That's for beating Claire's war game for rank A in less than six minutes. Boss Nosferatu and his kill take 20 to 25 seconds. So when you install it, immediately open the menu and equip the spring gun. He's got explosive bullets, and he kills fast. To get a feel for all your enemies, play the level several times, then try under 6 minutes. If you didn't shoot the boss at 5:35, start over. You can move when you kill Nosferatu if you want! War Game with Chris I can do something better than win a ranking. This is for Chris to get rank A as a war game. The time limit here is 6:30. Using Magnum is the best choice, as he kills everything a hit. Chris' boss, I'm afraid, Alexia. When you enter the room and the battle begins, you can run around a tentacle of it and get as close to its middle as possible. Then drain with magnum, repositioning when needed. When you get on that plane, you have to hit him in the air with my magnum. If you can get him into the upper left corner of the map, you're going to hit the wall and keep shooting at him until he's dead! A Battle Game with Lower Claire is for you to earn a ranking alternative. This claire's alternative costume is to get a Rank in Battle Game. When you beat Claire's regular Battle Mode, you unlock it. The map and enemy layout are exactly the same The first version, except that it now has an Assault Rifle and Grenade Launcher. Use the launcher with normal grenade shells. This time you have eight minutes for rank A. The frustrating thing is, Tyrant is the boss here, and he could take you off the helier track. Try to get to Tyrant in seven minutes, just in case, and detonate him with grenades. Then I hope they're stunned, too! When you beat the tour in under 8 minutes, you get an A! Win a ranking in The War Game with Rockfort's Finest Steve. This is to get a rank as Steve in the war game. To unlock Steve's War Game, you have to solve drawer puzzles like Chris, save the first spiders to see! The solution is the picture on the wall! Then you'll get Luger Copies and Steve! You're going to want to use his smgs for the whole run. The worst parts are the room with nervous arm men and hunters. If the boss, the rockworm, do it in about 8 minutes, it should be good! I recommend running to the left of the battle arena, so there is one more space to dodge! For that, row A is 10 minutes! If the biggest heist is going to knock you out, it's Gulp Worm. When you get an A, this trophy is yours. Earn a ranking in The War Game with Power Hungry Wesker. This is easily the worst war trophy. You should get rank A for Wesker in War Game. There's a time limit of about 30 minutes. It's because he's destroyed something other than a knife. You have to clean all 17 rooms with a knife! In room 12, you can go to another room and interact with a slot machine. You have a chance to buy Magnum. If you don't get my magnum, your run is over. Like Alexia, the boss of The Weskers, in the main hall of the mansion. It will take a little bit of luck, perseverance and skill! Zombies also cut, always target down! You can knock them down and hit them multiple times with a swing! 13. See the map below for the location of the Casino Room. Get battle master battle game linear launcher. This is to get rank A like every character in War Game! Collect all The Blue Files of Emotion Blue Story. To collect all the blue files in this game! See the Video Section of the roadmap for a link to the collection guide! Not all Dark and Gloomy Stories collect all the Yellow Files. To collect all the yellow files in this game! See the Video Section of the roadmap for a link to the collection guide! Read Red Story collect all Red Files. To collect all the red files in this game! See the Video Section of the roadmap for a link to the collection guide! Tactical Upgrades Upgrade M93R. MISSABLE If you haven't done Mission and Humanity, you can't get locked out. After regaining control of Claire, playing as Steve, go through the east exit of the room and head You're going to walk into a little rescue room and there's going to be an emblem on one of the walls. When you return to the prison area and go to the doctor's office with the Indigo Plate, you will walk through a door and a body bag will continue to be moved. Then you'll be in the same room as the incine ovens. Clean up the enemies and take the bag on the other side. Check your inventory and unlock it with a pick lock. Then combine the gun parts with the gun and get this trophy. Replace a Punch Packing Glock 17. As Chris, your starting gun is a Glock. While exploring Rockfort Island as Chris, you'll go to the basement where you play as Steve. You're going to go into the next room to get a green chemical compound. Chris in this room also has a counter to raise the Glock! Upgrade and get this trophy! Get Decorative but Deadly Gold Lugers. In the palace, watch the video with the Ashford twins, you'll finally open a secret room. Golden Lugers in the secret room, on the back wall!
