So far we both have matches for the recommended battery part number 121500250. I searched for the most numbers of Machines available: Using machine numbers (59413538 , 59414471 , 59414497 , 59414501 , 59415242 ,59416729 and 59414466) . All of them use the BATTERY section 121500250 (Y50 SP/A L13M4P02 7.4V54WH 4CELL BTY Similar to the Sections list: (Item14Page91) So we can be 100% sure. Can you click this to check your Y50 70 machine number using your Serial number (we only need a machine number, make sure your Serial Number is confidential) I think that the partial BATTERY of 121500250 is 90% recommended. But if you get the number of that section straight from the sections looking for a page, then that would be. You can order them directly or compare prices from other resellers. Check back with us as fast as you can. Hope that I can help you on this. Greetings, Does someone help you today? Hit the thumb icon below to thank them.! Sorry that Lenovo Pakistan may not have the available part because they do not have this model on sale in Pakistan. If your sister is going home soon, maybe she can just order it for you. Perhaps Amazon Pakistan or ebay have it. You can mark our post as an accepted solution to assist other members in the community with the same investigation. Cheers, Does someone help you today?
