How to upload a document to google drive

Google Docs is a great solution for storing and sharing documents online, but browsing the web every time is time-consuming. Here we take a look at desktop gadget that allows you to upload files with a simple drag & drop. Install and upload documents using the Cloud Drive Gadget Head widget on the Cloud Drive widget download site (link below), and click Download to get started. This is a third-party widget, so you'll be prompted to verify that you want to download it. Click Install to continue and download. After downloading the widget, run it and install it normally. The gadget should appear on your desktop as soon as you install it, and you can also add it from the Gadgets Gallery. You'll need to add your Google Account information before uploading your files. Click the gear button to open the Options pane. Now enter your Google Account information and click Ok. You can also enter an advanced key for other features, such as previewing recently uploaded files and accessing a document you just uploaded; To get one, you have to make a donation to the developer's site. Now you're ready to add files to Your Google Docs. Easily drag any document you want to upload and drag it to the widget. The widget will now be changed to show that it is uploading a file. The gadget lets you know when the recording is done. Recording most documents took only a few seconds in our tests. Because you can easily drag and drop documents into a gadget, it's almost as simple as saving a file on your computer or saving it to a Dropbox. You'll be able to see the document in Google Docs, which you'll be able to edit online or share with others. As usual, Google Docs lose some formatting from Word, but it's the same no matter how you upload documents. Conclusion This little desktop gadget is very easy to add documents to Google Docs. Uploading files is much faster and easier than signing in to the Google Docs dashboard, so it should make it easier to keep files online if you prefer Google web apps. Because it's just a desktop widget, it's also less resource-intensive than many other Google Docs desktop solutions. If you're a command-line geek, you might also be interested in our article about using Google services at the command line; you can even upload documents to Google Docs this way. Or you can try fitting Google Docs in File Explorer so you can save files directly to Google Docs as well as any other folder. These sleek laptops let you work anywhere at any time and give your users plenty of functionality. But sometimes it's not enough. In so many so many looking for more. While you might go for some productivity apps, there are actually plenty of macbook accessories available that will make your life easier in many ways. This additional accessory allows your MacBook to charge faster, store more data, or protect it while traveling. In addition, there is a wide range of accessories to choose from as many companies jumped into the bandwagon supply for MacBook users. Below we have listed some of the biggest macbook accessories that will benefit from your computer. What does it do for a large MacBook accessory? Before getting on the list, we wanted to go through the criteria for what it does for great macbook accessories. The items we have selected from this list will have the following criteria: At a reasonable price – the accessories themselves should not break the bank compared to the large initial investment of the MacBook. Usability – All these add-ons are practical in different situations, but they also have other features that make them useful in several situations beyond their obvious functions. Compact – In most circumstances, a workflow is also about space. As such, anything that is too bulky does not help much. These accessories are either large on purpose - for storing other items - or they are nice and compact so they don't get in the way. USB drive for quickly storing files without accessing the cloud Even if you have access to the cloud at any time, accessibility can be cumbersome or takes time. Instead of trying to access your files in this way, getting a USB flash drive can save you enough time. Especially if your work means providing presentations. SanDisk Ultra Dual Drive is great because it offers USB-C and USB-A connectors that let you connect to virtually any device and transfer files and more between computers. Even USB drives boast several hundred gigabytes these days making them hard storage devices. Buy SanDisk Ultra Dual Drive here. Compact Charger That Does More Than Charge Your default charger that comes with your MacBook is a good option for a charger, but these days chargers can offer so much more. This can help speed up your workflow because you can charge other devices or use the charger for other uses outside of charging. For an Anker PowerPort charger, it's more compact than the default charger. It also offers an additional USB-C connector that allows you to quickly charge another gadget with it. Buy an Anker PowerPort charger here. Port adapter for those with multiple devices One of the harsh limitations with the MacBook is that it has only two USB-C ports. This is possible for people with fewer gadgets, but if you have those who have several, it can interrupt the workflow if you need a specific device and can't charge or access it. In this situation, the port adapter from Satechi may help. ports that allow you to use multiple devices. It can also help in organizing cables that we know can disrupt work. If USB-C ports aren't enough, it comes with an SD card reader and wired Ethernet port. Buy Satechi Multi-Port Adapter here. A USB cable that is not so intrusive or cumbersome to use the USB-C cable that comes with MacBooks is small and is used to hook on an external monitor. By adding more length to them, you can have better cable management. One option that we found to be ideal was the Nomad Kevlar cable, which offers enough length to do what you want, while also give you more room to work with. Buy Nomad Kevlar USB-C Cable here. Cleaning your laptop screen to see what you're doing Dust, particles and splashes can be expected on laptop screens after a while. While you can bypass these, sometimes they can obscure your vision occasionally. The same may apply to all devices these days. The only problem with many solutions on the market is that they can damage the screen. Fortunately, we found a screen cleaning solution that does not damage the screen. The ScreenDr Professional screen cleaning kit comes with a spray that is safe for the screen and an antimicrobial microfiber cloth to ensure that you make the most of the spray. Buy ScreenDr Professional Screen Cleaning Kit here. A card reader that speeds up photo transfer time If you're looking for a separate card reader for your work, it's essential to get a device designed to transfer photos and read. One of the best macbook accessories in this category we found was the Vanja card reader. He is able to read SD and microSD cards while transferring images to your computer with ease thanks to its USB-C and USB 2.0 port options. It's also small, so it's easy to wear and it's cheap to buy making it a great choice to pick up if you deal with lots of pictures. Buy Vanja Card Reader here. Protective sleeves protect your laptop from damage For those traveling the last thing you want is to damage your laptop for any reason. While not likely to drop them as often as your phone, a sleeve for a laptop to be in can save you time. One sleeve that we found interesting was native union sleeves. They are made of tear-resistant material with original leather accents. Its interior is soft and also prevents scratching from your laptop. It also offers a pocket space where you can easily store cables and other Macbook accessories. Buy native union laptop sleeve here. Car charger for charging on go For the person who always drives around, the car charger is always a useful tool that you can have when you are on the go. The one from Anker is particularly useful in many ways. Not only can it charge your MacBook, but it also has an additional port for you to charge your phone when needed. It's not the fastest charger out there compared to MacBook Pro adapter, but it's the highest on the market with output power of 30 watts. By comparison, the second fastest charging connector offers power of 18 W. In addition, the charger has an illuminated LED ring to see it and connectors late at night. It also has a function that ensures that devices do not experience overvoltages or overheating from the charger itself. Buy an Anker PowerDrive car charger here. The USB-C to USB-A adapter provides access to older models If your older MacBook still works, but it has the files you want to back up that you want, it makes it easier to access them. It also allows access to devices that only have USB-A slots. This can save you a lot of time if you're moving between older and newer devices. Buy thunderbolt adapter here. Hardshell's case for Added Protection A sleeve is good for travel, but when you're using it, having an extra layer of protection can be nice. In addition, this hardshell case can also serve as additional protection against scratches and bumps too. Buy the Incase Textured Hardshell case here. An alternative sleeve for those with tighter budgets but want protection if you are looking for a suitable laptop sleeve but don't want to spend too much, AmazonBasics brands are a good alternative. Their sleeves are sleek and still offer good scratch protection as well. It also has a few pockets for small essentials too. Buy AmazonBasics laptop sleeve here. Hub that can accommodate several ports at once We have already mentioned the port, such as a huge time saver due to the fact that they have different ports for different devices. This is a great alternative because although it doesn't offer as many USB-C ports, it offers more variety. Paired with the design is the same color as the MacBook Air, it offers two USB-C connectors, two USB 3.0 ports, an HDMI port and an SD and microSD card reader. Buy Satechi Type C Pro Hub here. Headphones to deal with fewer cords Cords headphones are a common problem with increased productivity on the table and one way to mitigate them is to go wireless. If you are thinking about it, one option to consider is soundcore headphones. These are cheaper than Apple's traditional AirPods, which can save you money. In addition, they provide great sound and are connected via Bluetooth. The beauty of these headphones is that they can also cancel the sound despite being so compact. They also offer touch that lets you pause, play, skip music, and answer calls. Buy Soundcore Wireless Headphones here. SpaceDesk Desk Desktop Stand is another key part of productivity because things can get in the way and hinder your work. If you don't currently need a laptop, it might be helpful to have a stand where you can cancel it. In these situations, we recommend twelve South Book Arc. This sleek MacBook accessor can save you a ton of space because requires you to close your laptop so that you can insert it into the stand. It also keeps it elevated from the surface, which can protect against spillage buy Twelve South Book Arc desktop stand here. Convenient and easy to use mouse for faster working speed Second of macbook accessories we will talk about is the right mouse. Logitech offers fantastic mice and their Logitech MX Master 3 is one of the largest wireless mice out there. It's ergonomic design, customizable buttons and insanely precise movement is fantastic. It also comes with a scroll wheel for precise scrolling. The battery can take months between charges and, like all Logitech devices, comes with a USB-C charging connector. Buy logitech MX Master 3 Wireless Mouse here. Bottom line There are many macbook accessories out there to improve your workflow. Taking the time to research and invest in some of the best though will save you a lot of time, money and energy in the long run. At the same time, all these add-ons can help you with specific needs for whatever you do. Best photo credit: Viktor Ritsvall via unsplash.com unsplash.com
