Once you've nailed it, you can work on other aspects of the game, confident that you'll be able to produce more consistent swings. Without it, accurate shots will be few and far between. When the left hand grabs the club well, it should completely cover up the end of the club. The wrist must be on top of the club handle. You may have the most natural grip in the world, but if it's not aligned with the face of the club, you won't get a good shot. Before dealing with the ball, look down the length of the club to make sure that the handle and face of the club are in the right position. Thus, when you hold a club, the face is square with the ball. [source: LearnAboutGolf.com] If you grab your club with your hands, your elbows will tell you. The correct golf grip results in straight lines along the shoulders. If the elbows are bent, the hands do too much work and the arms do not stretch properly on the swing, which means less speed [source: Easy2Technologies.com]. Liverpool journalist Arthur Wynne invented the first crossword puzzle. Arthur Wynne was born on June 22, 1871, in Liverpool. He emigrated to the United States at the age of nineteen. He first lived in Pittsburgh, Pennsylvania, and worked for the Pittsburgh Press. An interesting fact was that Wynne also played the violin in the Pittsburgh Symphony Orchestra. Later, Arthur Wynne's first crossword was originally called a verbal cross and was diamond-shaped. The name was later switched to cross-word, and then, as a result of an accidental typo, the hyphen was dropped and the name became a crossword puzzle. Wynne based his crossword puzzle on a similar but much older game played in ancient Pompeii, which translated from Latin into English called Magic Squares. In Magic Squares, a player receives a group of words and must arrange them on the grid so that the words are read across and down in the same way. The crossword puzzle is very similar, except instead of giving the words the player receives tips. Arthur Wynne added other innovations to the crossword puzzle. While the first puzzle was diamond-shaped, he later invented horizontal and vertical puzzles; And Wynne invented the use of adding empty black squares to the crossword puzzle. A crossword puzzle in a British publication was published in Pearson's Magazine in February 1922. The first Crossword of the New York Times was published on February 1, 1930. Called The Cross Word Puzzle Book was the first publication by a new partnership formed by Dick Simon and Lincoln Schuster. The book, a compilation of crossword puzzles from the New York World newspaper, was an instant success and helped create publishing giant Simon & Schuster, which still produces crossword books. In 1997, Crossword Weaver was patented by Variety Games Inc. The Weaver crossword was the first computer program to create crosswords. Do you know the names of items with their symbols?.
