I would love to enjoy more of this game but kept on crashing. This game has potential and it would be great if you could solve the crash problems. Keep it on! Great job! The game is quite interesting and unstoppable to play ... I do not play even 10 minutes game got crash and force stop ... At the time of the accident I was really disappointed and also amazed ... But it does not matter, I just want to mention the failure of the application ... I was sorry I couldn't play this game... I'm a fan of Anime.. Please fix it or a few other players from different countries will remove or only the one that got good features of the phone can play.. Which one to choose.. U must choose anyone can play well? So fix and do ... Thanks a lot the game is great! I like the graphics, movements, controls and how it attacks and everything! But the game keeps crashing. I've played it for 45 minutes since then and it's been crashing more than 10 times. Fortunately it is autosave, I have not lost progress. But now the game keeps crashing into the same part when it attacks the zinc, and I'm stuck there. Please fix the crash!
