Woodpecker router table accessories

Tubers were set up in September 1988. Their focus has always been on the top line of woodworking tools. Since 1993 Woodpeckers produces top quality router tables and router mounting panels. They also produce router lifts, router fences, measuring and layout tools and many useful accessories. All Woodpecker Tools are produced here in the USA. They do your machining, engraving, assembly and packaging to ensure that your order is quality and fast delivery. Woodpeckers is proud to have truly American-made router tools and accessories. Innovation, quality and careful engineering, which comes into the manufacture of woodpecker tools, are what makes these tools the best in the industry. We perform the entire line of Woodpecker Tools at the lowest price. If you find the Woodpecker tool at a lower price, we will combine it. Looking for Woodpecker box clips? We perform a complete line of Woodpecker tools, including tuber box clips, which have recently been diy network features. Buy Woodpecker box clips and other great tools. Most popular reviews Most recent reviews You are here: Home > Accessories SHOP NOW INCREMENTAL TOOLS INCRA ROUTER STAND WHEEL KIT Use this SET of INCRA wheels to keep your router table mobile in a small store. Compatible with our router table stand 36 and router table stand 43. INCRA SHELF SUPPORTS These are additional short string sets for router table stand 36 and router table stand 43. INCRA I-BOX JIG FOR BOX JOINTS This is the most advanced box joint jig ever made! Operates both at table saws and at the router tables, has micro sighted joint tightness and allows the width of pins from 1/8 - 3/4. Quick assembly of the main joints and the possibility of advanced unique decorative joints. The hand screw clip is not to be added. Made in the USA. INCRA MAST-R-LIFT & MAST-R-LIFT II CONVERSION New and Improved! Allows you to fine-tune the height and change the router bits above the table. Direct drive, ultra-low friction and it compatible with various fixed base routers without adapters. Suitable for each INCRA router table. INCRA PRL-V2 LIFT & ADAPTORS The concept is like no other: For fast lifting or dropping the router, the fast lifting tool disables the lift mechanism, and spring helps the heaviest routers to travel freely in the lift range 3-1/4 with very easy efforts and without a crane. The router's collector can be raised above the table to change slightly in two seconds. INCRA PUSHGUARD & HOLD DOWNS Make your woodworking safer with our wide range of pushing blocks and hold down each INCRA ROUTER TABLE PLATE TEMPLATE This 3/4 thick MDF template is machined with computerized equipment to create an excellent mounting hole for INCRA or Woodpeckers router lifts and router mounting panels.
