2020 the survival blueprint

Product Description Summary United States is destroying itself from within. America's corruption is a kind of moral decline... a kind of greed ... a kind of desperate grip on power. And it's destroying our nation. These corruptions should not exist. If individual Americans take it upon themselves to become bettercitizens, act with rational vested interests, and reject the ethos of getting the ethos... we can fix these damages. That's why Stansberry Research founder Porter Stansberry published the book America 2020: A Plan for Survival. Many refer to it as the most valuable book in America... I love the book; it's so clear and concise. While I've been learning a bit about the clever way to survive that goes, it's putting all the bestideas together in one place! My hat is up to you guys! - J.R. Absolutely great book!! I need to buy 12 more for my family and friends. - K.B. I read it the first day I had. It's a great book that explains the situation simply and very accurately. I intend to continue to use this book as a guide to investing and I will recommend it to my family and friends. - L.R. This is a story that all Americans should know about. I don't usually buythings out of the internet, but I'm really glad I made an exception in this case. - C.R.Trade Paperback, PaperbackThis item does not belong on this page. Start your review of America 2020: Survival of Blueprint, an updated edition I think is a well-written short book with the author's concern for the upcoming financial crisis that he thinks will be much, much worse than the one we had in 2007. His survival plan mostly focuses on safer investments and where to store your money and has a different focus than other types of prepper guides out there. Some examples of his proposals are to buy silver, especially junk silver, to keep their savings in certain foreign currencies in accounts in foreign banks (e.g. in Canada). I think it is a well-written short book with the author's concern for the impending financial crisis that he thinks will be much, much worse than the one we had in 2007. His survival plan mostly focuses on safer investments and where to store your money and has a different focus than other types of prepper guides out there. Some examples of his proposals are to buy silver, especially junk silver, keep your savings in certain foreign currencies in foreign bank accounts (such as in Canada) and invest in agricultural land. I would of course recommend reading this short book if you have any gut feeling that our government's trillion-dollar deficit and skyrocketing debt is going to come back and bite us in the near future. ... more this book seemed to drift to me. I was never sure what the author wanted me to do to protect myself from the upcoming financial crises. Should I be in gold, silver, farmland, stocks, bonds? I could never be sure how many options were covered. Then, I don't know much about these options, so I'd better stay with my mutual funds. Priceless investment advice. Worried about hedging your wealth from inflation and the constant devaluation of the US dollar because the Federal Reserve is constantly increasing its cash reserves? Buy shares of solid and consistently profitable companies that pay annual dividends to their shareholders, such as Coca-Cola, ExxonMobil, Johnson and Johnson, IBM, PepsiCo, Procter and Gamble, ADP, 3M, Chevron and FedEx. These dividends can be used to buy more invaluable investment advice. Concerned about hedging your wealth from inflation and the constant devaluation of the US dollar due to is the reserve constantly increasing its cash supply? Buy shares of solid and consistently profitable companies that pay annual dividends to their shareholders such as Coca-Cola, WallMart, ExxonMobil, Johnson and Johnson, IBM, PepsiCo, Procter and Gamble, ADP, 3M, Chevron and FedEx. These dividends can be used to buy larger shares. The numbers are clear. Owning an elite business that generates consistent dividends is a better long-term strategy than owning gold. Also good advice on buying relatively risk-free bonds at a low price every 7-10 years. ... More... More
