Bring the know-how, technology, and scale to think and deliver big on your company's biggest strengths A world of risks and challenges, from disruption to globalization. A new economy, defined by technology and fluidity. All of these changes affect how customers choose to play in the value chain and how they can position themselves for real competitive advantage. This could mean rethinking your corporate core and features, or completely adopting new business models. With codified strategic planning tools and methodologies, we help clients improve performance from the start and position themselves for success. Working together, we focus on distinguishing capabilities, cutting costs to reinvest in growth, taking advantage of digitalization, and opening the door to M&A opportunities. Is your company strategically driven, capability limited, or headed for a supercompete? Find out in a few minutes how well your company is positioned for success. This short survey will help you identify potential areas for improvement based on your unique starting position. Starting the Strategy Profiler In our survey, most executives said they didn't feel their company's strategy would lead to success, less than half said their company was very clear on how it added value to customers, and one in five acknowledged their company didn't even have a list of strategic priorities to keep them focused. Overall, nearly two in five companies have been named as drifters. Read the full Strategy Profiler study report Strategy &; 's experts around the world have helped many of the world's leading institutions solve some of their most difficult problems, and capture their biggest opportunities. Our people are committed to our clients' success, focused on helping you achieve essential benefit. View all experts as part of the PwC network, Strategy helps and helps clients resolve their issues from strategy to execution.
