How to get ikelos shotgun 2019
Fate 2 > General > On Details How do I get the Ykelus shotgun; I ve activated an escalation protocol and defeated the boss at level 7 18 times as of now. Not a single drop of weapons. Edit- I have good news. After hours and hours of farming the Level 7 boss for the Ikelos shotgun, I finally saw Ikelos' sniper rifle:) Last edited by Oldman3000; November 6, 2019 @ 5:12 a.m. Iclos drops from an EP boss, not an Anabray, nor a chest. Only the boss of the EP will dismiss it as an encrama. As of this time all three weapons are falling, and November 19th is supposed to be a shotgun only again. Note: This should only be used to report spam, advertising and problematic posts (harassment, fighting or obscene). Destiny 2's escalating protocol event despite being out for quite some time, has remained relevant over the years thanks to some solid weapons rewards, and armor looks slippery. If you're here, you're probably wondering how to get the escalating protocol armor and weapons to yourself. It's a pretty complicated system, so let us explain. How to get an escalating protocol weapon & amp; armor destiny 2Whether you dive into the latest community event, farming for Ikelos_SG, collecting armor for post-glow armor 2.0 or just an escalating protocol game for fun, you're going to want to have a handle on how the reward system works exactly. Let's start with weapons. Escalating Protocol Weapon: Shotgun, SMG, SniperIn To have a chance to obtain an escalating protocol weapon, you need to clear the final boss at the end of wave 7. These bosses are pretty challenging and they hang out every week. There are a total of five bosses on the EP and each has a different possible boss you need to clear the final boss at the end of wave 7. Vou may have to process quite a bit to get the weapon bossible boss you need to you clear a 7-run wave, if you attend to get the weapon bossible boss you clear a 7-run wave, if you start another EP at the same location, you'll pick up sickle 6, saving you and everyone else you're running it with a
waves of escalation protocol to convert it into a decrypted cache key (purple)can be all 1-7, or wave 1 seven times or any combination in the middle. Defeat an EP boss and then open the box using a decrypted cache key to obtain a random piece of armor. Now here's an important note. While Anna Bray will convert the key fragments only once a week, and you can only hold one encrypted cache key (blue), you can hold as many (purple) decrypted cache keys as you want. So if you're reading this pre-Armor 2.0, you may want to consider farming every week for decrypted cache keys and stretch them to get multiple cracks in this year's version 3 armor escalating protocol when it releases. I hope this will clarify how to obtain armor and weapons in an escalating protocol in Destiny 2. It has been introduced in Warmind extensions, which is an important part of the PvE ecosystem on Mars. This is the only reliable way to get an IKELOS weapon – a shotgun, an SMG sniper rifle – which why a lot of people like to reactivate it. However, not all of these three weapons are available each week. After the weekly reset, availability changes. Based on the pattern that has been consistently used until now, our Fate 2 Escalation Protocol Release Chance Schedule Guide will show you when you can get any of these guns. Destiny 2 escalating weapons protocol drop a chance for ScheduleIKELOS weapons to drop chances the weapon will all drop from the final boss, one encountered in Wave 7. A recent fix presented the possibility of recreating the last two waves after killing the boss, essentially allowing players to process the residum enemy if they so wished. Because IKELOS weapons are
simple anthramas, and they don't require you to bring a decrypted cache key, as opposed to the pieces of armor.
