the best pick in the bottom bar for patch 11.1, which puts it in B-Tier Rank Rank. Solid selection, but there are better predictions, in terms of difficulty, it is difficult to play champion for new players in the league of legends. How do I build Draven S11 Patch 11.1? Since this season 11 Draven build and runes will help you cope physical damage, you will focus on building all the damage, Marksmen are almost always built with complete damage objects with a few exceptions. Comparable Marksman choices, which are also strong, will be native, which is the highest choice. We also believe that Jhin and Miss Fortune are some high-earning earners Can just like LoL: Draven Construction Guide, ADC, S10 Published Jan 15, 2020 by WarLeCroissant How to Play Draven as an ADC in League of Legends. Discover our tips for playing the glorious artist that costs 6,300 Blue Essences. Drayven was carrying massive damage. He excels at the whole game when it comes to committing aggression. It is oriented towards the speed of attack and critical objects. Draven has huge underlying damage - Bloodthirster is an excellent first element with extra damage and life stealing. Stormrazor, Rapid Firecannon gives Draven Draven has very good underlying damage, especially thanks to his spells. Snowball Champion you need to ascend as soon as possible to become uned. Level 1: Choose Q - Spinning Axe to help you farm while being able to do great damage to your opponents. Level 2: Feel free to take the lead if you pass level 2 in front of your opponents, especially with the help of participation support. Take W - Blood rush to get a boost in motion and attack speed. Then you will be able to try to attack the opposite duo. If you find yourself in danger when the jungle arrives, feel free to use E - Stand Aside allows to undo the opponent's jump by counteracting its attempt to initiate. Be sure to farm with your rotating wasps, they can also be useful to punish an opponent if he tries to get too close. Do not hesitate to play aggressively with Draven in canvas phase, passively offering you one of the best snowballs in the game, any elimination will bring you a lot of gold. In teamfight, the secret to increasing Draven's damage lies first and foremost in Q's management - Spinning Axe. Each axe catches up with resets waiting for W - Blood Rush. This makes it easy for you to kite while doing much more damage. You need to know how to make a difference when playing Draven, do not put yourself in too much danger by grabbing your axes while playing sometimes very aggressively, encountering the opposite line of the opponent to try to destroy their ADC or midlaner. Your Ultimate R - Rotating Death is such a good finalist thanks to its global reach as a zoopad engagement tool. Note, however, that your wasps can be blocked from the front line as they return to you after the opposing champion is hit. Match-ups Tips - Tricks You can catch Draven's opposition axes. Capturing an axe restores W- Blood Rush recovery time, try to keep it activated at all times to maximize damage and facilitate mobility. Manage your position when you start R - Rotating Death. When you return blades, you can surprise your opponent by moving. You can also use Flash to change the blade's trajectory. E -Stand Aside allows you to slow down, but also to break your opponent channels, for example catarina ultimate. Season 11 Guides [11.1] Quick Drive Guide Not Scratched It's DRAAAAVEN!
