## Jack brooks park

The Jack Brooks Park Trail is a 5.5-kilometer moderately congested loop trail located near Hitchcock, Texas which has a great forest setting and is rated as moderate. The trail offers a variety of activity options and is available all year round. Dogs are also able to use this path, but must be kept on a leash. Length5.5 kmElevation gain4 mRoute typeLoopDogs on bandHikingMountain cyclingNaturetureTureBird watchingrunningForestViewsView Paul's RecordingRosemary LingView Rosemary's RecordingTchinically a bike path, but it's great for hiking. Watch Kimberley's RecordingThomas GomezView Thomas's RecordingView HYPE's RecordingView Bradley's RecordingBeautiful! Definitely need deep forest off! Characters were a little hard to follow, but we had an explosion and we used this program to navigate! We will definitely be back Fun, but very takes a lot of work and you feed bugsView razi's RecordingThis is a set of great mountain biking trails. Challenging! Even on the green simple paths you seem to encounter some small challenges that overcome these roots. But you can certainly find plenty of beauty even when riding. I feel successful and proud to face every challenge and overcome them. Then again I ride on a 20 year old Trek 6000 model MB. Pour 2 and autobahn on out is great one for kids! Scot Guillorygreat for hiking, I know they are technical bike paths, but very peaceful for a trip. You should definitely keep your eyes on the trail, run into a coral snake, luckily it moved before I got too close, or I may not have seen itA little rocky towards the end, hikers stay to the right. Fantastic park, the bike paths are so fun to run and it was a beautiful and dry day, so I finally got to explore! See Benjamin's RecordingAwesome Trail! A little muddy, but with mountain boots it's a breeze! Watch Elizabeth's RecordingDavid ThompsonView David's RecordingNot too muddy and great weather! All the paths were open. So very few bugs! Perfect day! We appreciate the arrows along the paths to guide us. There were so many different paths that we can't wait to come back and explore a little more! See Antonio's RecordingView Robert's RecordingGo here frequently. This is one of the only challenging mountain bike locations around Houston. I would love if we could have more places like this. You have to have a decent bike and be in good shape to enjoy yourself here. Bring mosquito repellent... a lot of it. The paths at Jack Brooks are currently closed due to being wet, muddy and standing water. Stay away until the paths dry out. This includes runners as well as the mountain bikes. Closed after precipitation - we do not run muddy paths! Twisty singletrack, purpose-built for mountain biking trips with sharp ups and downs. The trail has many roots, but a lot of tracking as well. Some technical trail features such as timber rides, teeter totters, etc. have optional ride-arounds, but most riders hit each feature under the loop. Cons: The soil is not drained well, so the path will be closed for a few days (usually) after precipitation. Please check the conditions on the Jack Brooks MTB Trails Facebook page and please do not ride muddy paths. If you've never ridden here before, be sure to stop and inspect some of the technical trail features to pick up your line and size up the difficulty of the feature. Do not start a function without knowing if the landing area is ready! During the first 5 minutes of riding on Jack Brooks you get a feel for what it's all about. Challenges abound for beginners and experts alike. You will find your speed picking up your second and third rounds as you learn the path. Enjoy the hard work your other mountain bikes have put into building and maintaining this trail. Please keep it in top shape by only riding when are good. Please be kind don't ride muddy paths, please!
