Dragon Ngoc 167 Pre v7.0 - Mod Dragon Dragon 167 Pre v7.0 - Mod Spirit NRO 1.9.1 SuperMod Pro CuiBapVH Android iOS AntiBan - Auto Connect 24/24 - Configure Activation - 8 Skill Cells - Up Disciples - Keep Screen Bright - All Full VIP Features Best 14:40 Update on 03/01/2021! - Improve and fix some bugs in the previous version - Update Antiban v2.1 anti-lock acc, you can use full features, including cmap, normal mkhoa - The version is released completely free, copy cuiBapVH font memorization ☺ (if unetheme, no need to do 🙏🙏🙏) • Please read everything to know all new commands and notes when using! 1. Super Enhanced Boss Hunt - Chat: ckX for car in Zone X when 11/12. - Chat: cd to enable/disable functions. - Chat: adct to enable/disable Yardrat instant scrolling on the pointing object. - Chat: kmfb to activate the auto lock boss target automatically (cannot be shared with CNN). - Chat: xtb to turn on/off the aircraft capsule for faster use of the capsule. - Chat: kmap to enable/disable against passing through other maps (you can still capsule, change zones when using this feature). - Chat: sb to quickly enable/disable boss sign - Chat: sanvirus to enable/disable red ray to Boss Virus (you must activate red ray on cd). - Update to find super powerful bosses: show HP Boss on the map on the screen, darker boss rays, operate even when the boss enters the lag corner, support the entire server, fix the delay! 2. Show master information, disciples, map right on the game screen - ttd to enable/disable to display disciple information - Chat: tsp to enable/disable master information - Chat: seett to simultaneously enable/disable 2 previous commands - Corrected errors are continuously turned on. 3. Auto up set activation + Chat: side to enable/disable automatic garbage sale (do not sell stars, set enabled). + Chat: mdtl to enable automatic purchase training (remember to buy in store before 1 time). 4. Auto up disciples v4.1 - Chat: atd Turn on/off car for you to eat beans, every time the disciple says Master let me park then master will eat beans and Why the master will not hit away, master will use the second cellular skill (can assign, tie, hypnotize, etc.). Built-in amateur when fitness is less than 10%. - Chat: atnl Enable/Disable Auto Re-Energies when HP or Kl is in the settings on cd - Chat: ahsnm On/Off auto revival (namec) for characters on map - Chat: nsq On/Off auto dodge super monster. (remember to add monsters want to punch you and to archive in a protected state) - Chat: akok On/Off auto up kaioken file. - Chat: auto adanh On/Off using skill 2 (can assign, join, hypnotize, etc.) when feeding the bean (anti-buff bean spray, By default is activated when installing mod), if the purchase of charms can disable this feature so as not to be pem. - Chat: adthp Enable/disable automatic power-ups according to ARCHIVED HP (Chat: cd for index settings, only works when atd is enabled. Default is disabled) - The edited disciple is easier to see. - Power, HP, Kl will be continuously updated when you open the Disciple tab. - While you turn on automatic disciples, you can use skill3 (auto trnl) comfortably! 5. Auto-use item + Chat can: Toggle auto eat rage + Chat abh: Enable/disable auto tonic + Chat agx: Toggle auto eat armor + Chat aad: Turn auto eat anonymously + Chat amdc: Turn on/off automatic using capsule detector + anho chat: Enable/disable auto-feeding grapes when the end of physical force 6. Auto Reconnect and re-enter the area during maintenance, mkn, lost network - Chat: alogin (Enable/Disable Auto Reconnect) - Chat: akhu (Toggle to old area before mkn) 7. Supermarket +Chat registered car: kigui Turn auto check in beans, dragon pearls, etc. in gold - Sign once modeling at the one-one deposit store and then chat commands. - While auto-signing DOES NOT click on checked products, otherwise there will be error 8. Mod 8 skill cells used at the same time and time of Skills + Chat: gsk Toggle auto-assignment skills in the previous order offside. (assign skill v2): The default value when installing the game is On, when the account logs in for the first time, it assigns all skill cells yourself. + Chat: Hoiskill Toggle shows the skill recovery time - The default value when installing the game is enabled. + Chat: loadskill Toggle in the game always assign 8 skill cells (assign skill v1) (when auto is activated above archived, after reconnecting the DO NOT reassign skill cells version) 9. Improved butchery and TDLT + Chat: tsall to activate the feature through the still killing map. (for example, through maps in unique barracks) + Chat: tsv2 to activate the automatic training management feature via mod (TLT can add monsters like ts) + You can combine skillX (X is the order skill number) to automatically use the skill smoothly (remember to add hits) + If the butcher's is delayed or delayed , set the game speed to 60 or 70. For example, chat td60 to set the game speed to 60. Or aim for punching skill and chat according to formula c+ (recovery time + 200). For example, Galick hits a recovery time of 500mil seconds, and then chats c700. New improvements: When the computer is turned on, the character continues to matie. 9. Pro Menu: Mkhoha Chat to Hide or Show Menu Touch Pro Ears, Ears 190, no. 190, nro mod - 4 round buttons on the left: Corresponds to 4 buttons of contempt, earthy, left translation, Right translation - button <; Left translation map - button >; Right translation map - C button: Use a fast flight capsule - Button B: Use fast slopes - Round button right : Go to the selected object (monster, npc, item, other character) - Round right corner button: Lock item If you are using the boss target key (kmfb) then avoid pressing this section by mistake. • Note: - More features please see below - Enter the game movement speed is 8 (can be reduced if delayed) and enable automatic up selection, loadskill feature, adanh, neboss, tsall, antk will be saved and no need to be re-established every time you enter the game. - The list of servers in the game will be updated automatically according to TeaMobi.
