He has a big scout that goes through his head, which he often uses to focus on their thoughts. A particular feature of Stan is that his clothing and body adornment, as a result of more than one experiment he has performed himself on his body. Always wear any salins for a white doctor. Its spirit is light blue, similar appearance for Stan as it is furnished with the silt and presents a large scurve by two of its great features. : heart_decoration: Relationship: heart_decoration: Spartastian was the first technician of the spirit. Working with him, Stan used it during his dream. Although they were still their partners since maintaining their strong friendship, the spirit is still a little bit contingent by Stan's previous procedures though. Outside of fights, Stan often likes to joke with the spirit about these events and it's certainly great fun to see the response that he is able to deal with his former partner, which he constantly means to be very sadstock that Stan does not consider. This fact is clearly true Stan jokethat he exchanged the middle fingers of his left and right feet that, causing the soul to remove his shoes immediately to remove what he said he was true. Stan is often a quiet soul-to-soul, even as well as being called a beucof on several occasions. However, Stan proves that he still has a soft side, as he still refers to the Spirit as Simpah, although Sithan is usually shown as high. My majulinamrai is assigned as Stan's new weapon because his soul is considered to have a calming influence on his passion. Stan is also apparently my first love when he was still present in it, however, it is possible that my never openly expressed his romantic feelings in the past, and attempts to hide it, because because of this Stan is completely unaware that he was my first love. As a result of my moderation, Stan just sees him as a good friend. It is not known that Stan will go to see my feelings of over-emotional and expression towards him. This will also be taken to the account Stan has said that he is not able to understand love, however, it was unknown that Stan seriously spoke that he was told to Jellyfash that he was his enemy at that time. When the baby takes more than his father (because he die) he sees that there is a small spirit in my stomach which means he is pregnant and Stean says he will become part of his petition for the samanagama-sama's own permantsyed barrate, Stan was converted into a zombie, to include a test. While Stan cannot return to sid routine, Sid does not care that he seems grateful for claiming more freedom than when he was alive. Madani has created very strong emotions towards Stan, mainly because of his shared interest in science, to make Stan's self-destructive personality, Sadstock and as well as madness attractive to him. Myo America also went so far as my stan with his snake, to lead the madness, hoping he would eventually take it. The only sign of Stan's affection for him was that during his birthday party he almost shared a kiss. Stan, who seems tempted, undying, until when Sid appears to be running from the other side of the room. It often seems that She sees Stan as a toy to play with, see him as a rather stupid man, but her sister Aarcne revealed that she is in love with Stan. Yuma Azosatian seems to share a mutual hatred for Aussa with the spirit. As both acknowledge by the nickname of his academy at the same time: the Queen of Commission Presidents, see it again in the corridors for the first time in many years. Stan complains that Azusa was starting to give sermons when Stan tried to leave something, however, with Azosa, by the spirit, without being normal. : Muscles: Skills: Muscles: Stan is known to be the best technician, who is just going to be an independent technician who is able to overcome 4 technists with weapons, but for his powerful frequency and ability to expose the frequency of his soul and adopt it. He is an expert in physical fighting, is able to use his frequency to leave the black star out of the fight, and with a death skeitu like spirit, he is able to overcome like a high-level din.
