## Streamlight strion led hl holster

Secure and rigid carrier options for your unique Streamlight Strion (LED/HL) button! Featuring adjustable friction retention, which is light and thin taking a minimum of belt or vest space. Designed to be worn outside the waist, on a service belt or mounted securely on MOLLE-style outer jackets. Made of (2) durable 0.08 pieces of kydex and secured securely with rubber spacers to allow retention adjustment. The open bottom allows debris to pass through but still covers the length of light to prevent accidental activation. Several assembly slots and options available. Standard features include: Durable .080 Kydex Construction Designed, manufactured and tested by active and retired Law Enforcement Precision CNC machined mold tooling created from 3D scanned reverse model Compression pressed hull for maximum and crisp strength, clean definition Multiple mounting options (Sales tax applied to all orders shipped to CT) 100% Made in usa, with a lifetime warranty! Check out the Attachments page for an idea which one will best suit your needs! This case only fits the Streamlight Strion HL flashlight. The case is a bezel down configuration. The Strion HL support has two voltage adjustment screws. The operator can pre-adjust these to select the necessary retention while giving an optimal presentation speed. If the Streamlight Strion HL case is rigged with a Tek Lok, it can quickly get on and off the belt. The addition of several easy-to-find rubber grommets or o rings to the flashlight body will make this very tactical combination ready. This support won't fit the LED Streamlight Strion! Streamlight 88051 Tactical Holster Compatibility List: ProTac HL: 88040. PolyTac: 88850, 88851, 88853. PolyTac X: 88600, 88601, 88602, 88603, 88604, 88605.
