But every time I put them on they hurt my feet a little more than my feet. I kept trying and walking around the house, but couldn't make him feel good. The color is so cute and generic. If your feet don't match as much as mine, then get those boots. Christie from Atlanta December 18, 2020Review for the zappos Awards points (What is it?) In total5Rated 5Rated 5Comfort 4Rated 4 Stars of 5Style 5Rated 5Rated 5 Stars from 5Overall I really like these boots. They have good arch support and they have good traction on the ice. It took about 3 wearings to break them down, and the biggest problem was the friction on the ankle area, but again after breaking them in they were ok. They are also attractive enough to wear with a casual outfit. The Stephanopo also on December 18, 2020Review for the zappos Awards Glasses (What is it?) They are comfortable for regular clothes, and don't slip on heels. This new pair is 8.5. The original pair is a size 8. Newer fit very well. These are sturdy shoes that look good for every occasion. I love wedge heels and cover heel design. But I think they're smart. I'm looking for some I can wear all day with jeans, dresses, etc. and my legs are a little wide, so they weren't comfortable for me. My hands slipped out of the straps and rested on the sole edge, which meant I wouldn't spill them long in the case. So I'm going to save the Rockports, which I also ordered. I love all my Rockports. I've tried other sandals, both heeled and flat, but always wind up with Rockports.KayB on December 11, 2020Review for the zappos Awards points (What is it?) However there is no way to remove the shoe bed to put soft arch support. I liked the color and the style was cute, but it will be hard to take care of. I bought them in black, and suede gives a boot a polished look - sporty but not too sporty to wear with nicer pants. I can say that it will be my shoes this winter. When I say a little, that's what I mean. I was tempted to leave them, but, decided that my feet wouldn't feel good in them after wearing them during the day. Overall5Rated 5 stars from 5Comfort 5Rated 5Rated 5Rated 5 Stars from 5I bought by Eric Michael Montana. Brown, at a size of 39 M. I usually wear 8.5 average widths, and these boots fit perfectly, don't want to take off them! BEST PART - narrow calf! I wear size 2 jeans, have thin calves and struggled to find boots that didn't flap open with a big gap. With The boots zip over my jeans and adjustable buckles on a tight setting, there is a very comfortable 3/4 inch gap at the top of the boot. I love soft, slightly shiny skin and the lining keeps my feet incredibly warm. The footbed is receptacle so I can use my arch supports. The outer sole is rubbery and will keep me upright on the ice. Excellent download that ticked all the boxes for my expectations. Janice from Colorado November 13, 2020Review for The Sappos Awards Glasses (What's It?)
