

Milwaukee harbor fishing report

October 26, 2013 For Silver King Charters, the 2013 Lake Michigan charter fishing season ended. We tossed the boat today and put it in storage. We managed another trip last weekend and went 10 for 12 Limit, 7 additional shakers. A Chinook slammed a board and we had to scream out the line very quickly which we thought was subsorted but it was a nice £15 King. During our last 5 weeks or fishing we had our best success in chinooks of the season and I hope this translates into a strong King bite in 2014. The 3-year-old Kings weighed between 10 and 15 kilos, while a gong weighed 17 kilos. The fish were in 50 to 70 feet of water and were spoon bites. Little Stinger spoons were the best on riggers and boards. We didn't have much success at the end of the dipsies but we really didn't need them. Leadcore 5 color to 11 color installations were hot and riggers were the best set down 25-45 meters. The water temperature was 48 on the surface and 44 at the bottom. Fish full of bait. been a successful season and we should thank everyone who fished with us for that. We give every trip and most of them had successful catches. We played the season and some more interesting stories but again I will publish many thanks to me and my brother to live a dream and hopefully help you create some great memories for you, create some great memories for your family and friends. We can't wait till next season. October 13, 2013 Milwaukee charter fishing has been like summer. Catch has been 90 percent Chinook salmon this month and some 3-year-old Chinooks weigh 15-17 pounds. This is We're working on 90 to 120 feet of water, and the fish come down 10 to 80 feet. We still use spoons on everything, dispy divers, who have white flashers and male blueflies. bigger than the 4-year-olds of 2012. It could be a big fish next year. On our last few trips we've gone 9 for 13, 18 at the 23 limit, 10 on 14, 12 on 14 and 6 on 12. Prefer spoons are natural born killers of little Stinger, orange or purple. These boards are now all leadcore working in 7-12 colors. Riggers are set down 30 to 90 feet. Rolling north is best. Silver King Charters has another weekend this year and we have openings. Catch a great meal to fight the Kings before the season is over. Call us at 414-460-1467. September 30, 2013 Lake Michigan charter fishing may be hindered by the weather at this time of year and we have had more than our share of cancellations this month due to wind. We have been mostly due and when we went out in Milwaukee fishing on the lake charter Solid. We hooked only 4 times this week for 27 to 20, 19 to catch the ratio of 19 season, 12 18 limits and 2 4 ouch! Gone for it. We're working on 110 to 200 feet of water 50 to 140 feet down. Our riggers are set to 55, 65, 100 and 140 meters, all white flasher and Howie little boy blue. Wire dipsies 175-250 are set with white flashers and little boy blue flies. The boards have copper sets of 150-350 feet. These are all tips with little needles. The purple killer is intact. The break on Sunday had come up to 45 metres, so I don't think we would have much more deep fishing. Silver King Charters will be running throughout this year on October 20, so there are three weekends to get out and catch some salmon for grilling. The fishing is still good and hopefully mother nature will give us a break in October. Call us to catch autumn salmon and trout at 414-460-1467. September 23, 2013 Milwaukee charter fishing has been solid outside Lake Michigan. We've left the port al-Adversible, but the biggest is that the turnaround isn't as strong as in vears past, and most of the salmon have already made it to the river. When your weather came home, the lake was fine. For our last trips we made 17 to 10, 12 Two 20 pound Lake trout, 15 for 24 limits, 13 for 15, 8 for 12 shortened trips and 5 for 9. We fish in 100 to 150 feet of water with 100 to 150 feet of water. We run all white flashers with little boy blue Howie flies. Wire dipsies we over 150-230 line counters. Riggers is 50 under and the water is still hot when the break is 200 feet down. Top riggers kings and lacquered trout pulling in at the bottom right. Its boards are 150 to 350 meters, and again there are copper sets among all flashers. We catch two and three-year-old Chinook salmon. Good signs for next season at the Big Kings. There are still round the mixture of ripe Coho salmon and Lake trout catch. Silver King Charters should still catch fish throughout October and have some good fishing. The weather is always a concern at this time of season, so we will let you know and let you know if you think it is not true or you can resyn up not to go. But there will still be some great weather days and lots of fun catching salmon in autumn. Call Silver King Charters at 414-460-1467 to catch some fish for grilling before the big football game. September 13, 2013 It's been a while since my last report. Milwaukee charter fishing usually has a hot harbor bite at this time of year but never really comes to life. We've had a few attempts. On our last port run we got caught in the skunk and went back to the lake, past the great Kings, who returned very little and most of them were heading for the river. We'll be back in port before the year is out, but Brown will be Our last few trips have been like this, 13 out of 16, 7 out of 15, 5 in 12, 0 for the first skunk in 130 trips, 6 out of 12, 1 in 9, 20 in 37, 9th in 26th. We found 20-plus-pound kings in the harbor, but there's not enough fish. The best effort was 7 fish there. It produces again, and the bite ranges from 100 to 250 feet of for trout. water. The fish are up to 100 feet tall and the combination of flasher flies vests. Howie little boy is blue and a white flasher on everything. Copper sets on boards of 150 to 400 feet work well. Once they find a biting area find a good direction and continue to work in this area. Nice Coho salmon Lots are still there and we bought very 10 to 14 pounds of Coho. The rest of the catch is 2- and 3-year-old Chinook. Lake trout and Rainbow trout. Silver King Charters will be Lake Michigan on charter fishing until the end of October, so call us at 414-460-1467 and get some fall salmon fishing action. August 28, 2013 Milwaukee charter fishing has been difficult over the past ten days but some real pretty Kings have been pulled on most of these trips. The water temperature is cold from top to bottom up to 100 meters. Wild currents affected fishing as they begin the scene around the harbour before spawning. This is probably the hardest stretch of the season though and here are statistics; 7 10 awesome trip girls, 7 for 10, 5 for 8, 4 for 4, 8 for 8, 8 for 13, 10 for 16 for 4. Yes it hurts to write but we are honest with the reports. I don't have any hot information to put in this report. We fished everywhere from Fox Point to Oak Creek Power Plant. Rainbows' big schools pushed back with 300 feet plus water, and everything else fell apart because of the cold water. 2-8 color lead core water on small spoons is getting 30-60 meters of fish. The same thing deep down, except on one side of copper, would be wiser a little deeper into the water column. Flashers are still producing deep out on riggers and dipsies but close we are using more spoons. We mostly use spoon and stick baits for the port where we start buying fish. Every year there are a couple of difficult patches and we hope to be on the back side of this one. It just takes a while and he's going to start school in the fish fields. There will probably be 4-year-old Kings or harbour fishing Deep for rainbow, Coho salmon and 2 and 3 years Chinook salmon. September and October usually set up for some solid fishing and hopefully this weekend, so call us at 414-460-1467 and catch some salmon and trout in Lake Michigan. August 19, 2013 We spent the last week 150 to 180 feet deep and had some good catches. Catch a mixed bag of Lake trout, Rainbow trout, Coho salmon. We catch a Chinook over 20 kilos on almost every trip but still hope for a 30 pounder. Excursions went like this: 18 for 27, 25 for 33, 13 for 22, 14 for 29, 12 for 18, 13 for 23, 10 for 18, 13 for 23, 10 for 18, 13 for 21 and 11 for 19. I would say there are a lot of lost fish for our love during some of these trips but for Coho and Rainbow the fishing tends to lose fish. But it's still too much for us The highlight was a £11.5 Coho, big for the year. We also had a five-year reel in an £8 king. I've seen grown men don't deal with fish as well as he do. The captain might have helped a little. The fish come down 20 to 120 feet or 20 to 120 feet, but we're like 40-75 feet in the water column. Fish are active in warm water, where there is food. We like Howie little boy blue, with white flashers on all riggers and wire dipsies. With a copper small stinger spoon, its boards work better. We use 125-350 copper and dipsies are set to 105 t o175 line meters everywhere. It's changing day by day. Riggers is 35 to 100 feet down. Fishing is good and with fewer mistakes should have been 15-20 fish trips last week. Fishing is good at the moment and there are still openings on Labor Day weekend. This is a great weekend for some big Chinook salmon hook before spawning. I won't forget this 20 plus pound Kings hard fight and experience. Call Silver King fishing while Harley 110 enjoys the weekend. August 13, 2013 Lake Michigan developed charter fishing off Milwaukee in the last week, especially for the big fish. This year we did it with over £20 boats with 65 Chinook salmon and that's a record for 12, 18 for 23, 15 for 19, 5 for 10 and 25 for 32. We've seen a mix of Chinook salmon, Rainbow and Lake trout and some of the last two trips are catching some real nice size Coho salmon. We've fished everywhere, but mostly we come without 85 or 110 feet of water. Most of our fish come with the best 50 feet of water, with the exception of the trout lake. On the last pair On the day we have been 140-190 meters from the water and again the best action is from the surface down 60 meters. The water is warmer as our high but is where there is feed and also active fish. We like the white flasher, howie boy blue or double agua riggers and dipsies on. Wire dipsies line counters are set at 100 meters. Riggers are set down 30-60 feet. They're all started producing. In our wooden rods we run one side of copper and one side of the bullet. We use 4, 6, 8 and 10 color paths, with small stinger spoons. This color does not seem to matter, but it should be a small spoon. On the coppers are white flashers and bluefly green. They are 100, 150, 200 and 250 feet of copper. They all produce, but each one has a day. On Monday we lost Silver King Charters 120 boat Brew City Tournament saturday and again we fished for 10 fish with 179.3 kilos, 2 places came fish. Good enough to a monster King salmon of 10 colors and it was easily over 25 kilos. I had a problem with another boat. We're still looking for £30 worth of Chinook salmon and have a month to do it. win another year, but a boat caught £212. Good job, Craig. We couldn't have been better with a tip from our good friend Steve Lesch, who was third at £166. He gave us a tip at 8:30 a.m., and we picked it up and moved 20 miles south. When we got there, we had less than four hours to fish. This is the 2nd Time. Silver King Charters won The 2nd World No.2 in the last four years of this tournament. About Milwaukee Charter fishing The great King salmon in the last part of August. Also great Rainbow trout fishing is offshore. Call silver king charters at 414-460-1467 today and catch a cup of salmon before they start spawning and went for the season. August 6. 2013 Well milwaukee charter fishing has been up and down, with an average of 11 fish seeming to mean what a trip means. The good news is a lot of big fish. Silver King Charters has over 45 Chinook salmon caught weighing 20 kilos or more. The biggest one for us is £26.50. We hope the £30er will come soon. There was a £36 King Our stats for these last few trips: 24 for 33, 20 for 30 limit, 9 for 16, 9 for 19, 15 for 16, 9 for 16, 6 for 8, 9 for 19 and 13 for 21, Catch consists of Chinook, Lake trout and Rainbow trout, who was pulled out of Milwaukee last week, and this is the largest lake in Michigan. We're working 85 to 150 feet of water. Fixed wind switches theocline up and down and all over the fish. This year has been difficult to achieve a stable model. There is a lot of feed and fish and when you can collect more food. One day we find spoons to be good, and the next day the flasher flies. Sometimes they go in the evening, sometimes in the morning. It's driving us crazy! When we leave, we put spoons and flashers or chips on the boards. We'll quickly change everything they want and take advantage of the bite. The wire dipsies are constantly changing this and you need to find the right depth for each day. Our equipment is either hot or freezing. Three flashers and a spoon are usually set here. I wish there was solid feed coming out every time like last year, but the fish are so picky. A rush compensates when you pull a twenty-plus pound King this year because you can't get down if you have a couple of difficult outings. He won the Port Washington Salmon Shootout last weekend. Last year, I was in The 2nd World. It was a nice tournament win, but the big one is this weekend. The Brew City Tournament is this Saturday, and we have over 90 boatks. If you're going in, you'd better do it soon. The weather looks good and there are many ways to win. That's what Silver King Charters wants to win the most Silver King Charters forward is looking for some larger Kings caught by our customers this season and labor day weekend will be a great time to do it. Great Chinooks begin the scene outside but it's out of our league. 2nd in the last 3 years, 3 ve 2. It's probably going to be a bomb this year, but it's going to be a good day. Milwaukee before spawning and fighting an extraordinary challenge. Call us at 414-460-1467 to contact a large King salmon. On July 30, 2013 Day the last few Milwaukee charter fisheries have seen more stable weather and better fishing with it. The weekend was tough and Sunday we went 9 for 19 for 20 and 11. But the last two mornings of better fishing have been going to 12 for the 17 limit and 12 for the 17 limit. Fishing was stable and we finished early. The depth of the water has been 90 to 115 meters and the fish comes under 40 meters. Deeper riggers take most of the fish Now the flasher and all riggers and flies on wire dipsy sets are back. White flashers are preferred, howie boy with blue or green crumple. Producing the best of 300 coppers, the boards have been copper arrows. We're using flashers right now, but as your thermoses come in, the spoons in the bullets will enter the game. It's also a good Rainbows around but it's nice to see kings of classes all year around. Good signs for August and yes you still need a £30 King! The Brew City Tournament is set for August 10 and starts to fill, so now get your money. This is one of the best times of the year for Chinook action and considering what happened this year will be the only time for this Chinook action. Call Silver King Charters at 414-460-1467 and help us get 30 pounders! July 27, 2013 We ate an average of 10.5 fish in the last coupe of the weeks. Here's how we've done it in the last few days: 8 for 3, 17 for 16" Big Business, 12 for 23, 4 12, "Very difficult seas',' 21 to 28 best weight of the season, thanks Willy for saturday's save. . The winds continued to be very unpredictable fishing but the fish where to stay and work in that place and if you know our depth. Fish don't travel very far if the wind changes every day. We worked 115 to 65 meters in the last 4 days and the fish moved every day. Rainbow is a big part of catching, chinook salmon with a close second. The evening trip was outstanding today, with all 10 kilos and over 15 King salmon. The best for fishing chinook is right now and we got 30 20 plus pound Kings this season. It was cancelled tonight and booked 30 minutes later for tomorrow. Now it's time to capture the Great King. Fish have been hectic and need to try to spread but one thing is consistent is that mature Chinooks are out of temp. Put your stuff in the water column and be patient. We have been running all white flashers and size Blue or Green Ckrink Howie flies. We also like the Stinger Blue Dolphin spoon on our boards. Tonight was proof of that. There are not many fish around, so when you find some action sticks in this area. Guys, we had a client who was dealing with the waves for a trip on Sunday, and they cancelled. We do not put you out in pre-and dangerous situations regarding conditions. This morning we felt sorry for the customer but it was fish. But the lake has been beautifully paved since then and will be very good by Sunday. It's usually wrong because you didn't get caught in the weather forecast. We lose booking another trip there and the conditions look great now and we just caught 21 fish tonight. We only have one morning left until August 11th, and this is July 30th.

We have 6 hours for the price of 5 hours that day and the weather looks great. It's King time so call now to get a screaming Chinook salmon-a-rama.com. eventually finished and we had four customers earn cash this year, including a 3 place Rainbow trout. Browse the rankings on the website. The competition's big fish, the £28.50 Chinook salmon, was caught by a good friend of mine, Andy. Once again, Milwaukee would eat for big fish. Fishing success was hard all over once tarnished. Silver King Charters traveled an average of 11.5 fish for 19 trips during Salmon-A-Rama week. The 200 fish we boarded by boat were caught everywhere, but for numbers you have to be 180 to 280 feet of water. When deep catches 15-20 fish, there were 10 fish trips. For good size, especially King salmon water had to be 60 meters or less. The rankings show that there have been a large number of trophy fish this year, but totals have decreased compared to last year. Four-year-old Chinook salmon weighs an average of 19 kilos and there is a rush to catch this fish. We were a flasher fly boat but this week was a spoon-oriented program. Close we ran 2-8 colours and spoon leadcores as well as riggers and even had dipsies from time to time. Deep down, they were all spoons, and most of the fish came up to 70 feet. The water was cold on weekends with a strong west wind and the break was close to the right surface. We took the King for 26.5 pounds just 25 metres below the surface and many big fish are coming there. Pro King is working with broken ice and oz Stinger blue dolphin spoon. The fly program is starting to come back to life though and has been the best of white flashers with blue Howie flies of water or height. These will soon be combinations that will begin to do damage. Milwaukee charter fishing for Chinook salmon is always the most consistent and best for big fish july last two weeks and august first two weeks. This is when fish stocked from this port come back and there is a good amount that we stocked 3 years ago. These fish will feed large and hard as they prepare to lay eggs. 30 pounders coming in. The Brew City tournament is perfectly tuned for these fish this year. The record could be broken on August 10th. Silver King Charters offers a great special for the two weeks to Brew City. All weekday morning trips are 6 hours for 5 hours. This gives you more time to land a large fish on your trip. Call Silver King Charters at 414-460-1467 and book a Lake Michigan salmon fishing trip before the end of the big Kings year. July 18, 2013 Well Salmon-A-Rama week stayed only 3 days and the big fish weighed 28.5 kilos. Three of the top five Chinook salmon were taken from Milwaukee. Silver King Charters, 3 of our customers place 26.49 lb Chinook, 7 places 10.54 lb Coho and 2 places £16.54 Rainbow. We hope for more and greater business for those who have landed this great fish. The week has not been easy and we have had to work to produce fish and here are numbers: 5 for 13, 5 for 10, 20 for 32, 15 for 32, 15 for 28, 20 for 29 and 19 for 27. We have been fishing 90-100 meters or 180-240 meters. King action is better close but for numbers you need to go deep, where coho and rainbows are plentiful. Flashers and flies are king for Chinooks but the spoon has been taking Steelhead on the boards out. The fish seems to be high in the water column, so its boards have 4 to 8 colors or 75 feet for 150 foot copper sets. Riggers are also set higher in the water column. It is not so much points that they have been active because they stay on top of them to find active fish. For the next two days, the West winds will begin the descent of the Chinook bite, and we'll start running the trips a little shallower. One good thing is that this fish has great Milwaukee charter fishing offers a special for weekday mornings july 29 and August 5, going into peak time for the great Chinook salmon and Silver King Charters. All 5-hour trips will be 6 hours for the great Chinook salmon and Silver King Charters. and great warriors! experience Wisconsin charter fishing at Lake Michigan. July 14, 2013 began www.Salmon-A-Rama.com and all week our customers will have a chance to win the cash prize when they catch big fish at King Charters. Today a customerjoe caught 26.49 pounds of Chinook salmon and he is in first place in the chinook salmon division and second overall. We have another 7.5 days to put customers on the leader board. Fishing has been difficult in the last week but in some areas the fish are beginning to find some concentrations. Our last few outings went 7 for 10, 8 for 9, 7 for 8 23lb Chinook 1996 caught by the 6-time gold metal Olympic champion for the Russian men's gymnastics team, 11 for 15, 4 for 7, 15 for 25, and 13 20 for 26.5 pounds chino salmonok. This year we've been slowly looking for fish. Things have been difficult but as every year it eventually establishes. We're starting to see that. Big fish and prey are returning to double digits. The fish are early at 100 feet later in the day and come in between 240 and 300 feet. Chinook salmon is now the largest salmon we've seen in years because of the feed in Lake Michigan. We get deep or 100 meters of hot water coming down 70 meters from the surface of these fish. Flasher With white flashers and Howie Boy Blueflies, there are the best manufacturers. Spoons do some work, Pro King to be a broken ice sheet. Our riggers and wire dipsies are the best. There is a struggle to produce boards but 6 and 8 color leadcores or 100 and 200 copper seem to be the best. mornings for the weeks of July 29 and August 5. All 5-hour trips will be 6 hours for the same price. This year's best two weeks hook up with the Kings. Call Silver King Charters at 414-460-1467 and try milwaukee charter fishing this season. July 7, 2013 A lot has happened since our last report but my computer crashed and started working again. Milwaukee developed charter fishing, with Steelhead and Chinook, Lake trout and Rainbow trout have a mix of them. The thermos has just begun to be installed and as it is we should start to see chinook salmon going further. This is going to be a great year for greatness. We already have the boat 6 twenty plus pound Kings and in the past week three £27 kings have been caught in the area. This year it will be for £30!. There's a lot of bait this year, which is the opposite of last year. Here's how Silver King Charters did it late: 20 for 23, 14 for 20, 16 for 20, 18 for 25, 20 for 25, 3 for 7 for 3 very difficult afternoon Lokma! and a limit of 15 to 22. The numbers are better and the size of the mature fish is good. We are running various spreads depending on the time of day and have not yet spread down a lock but the conditions are finally starting to reach a point. We work on both copper and lead-core boards with stinger spoons and flasher flies. Fish spread out in the water column, so we try to find a warm depth and try to match it with a board board. Our best depth is 100 to 115 feet of water, and we haven't stopped doing that in the last 10 days. People sometimes have a hot bite inside or outside of that depth but we have had consistency working in these waters. Orange dodger and green peanut fly still catch Coho salmon on the occasion, so it finds its way into its regular spread. number every day but it is usually between 95 and 200 meters on the line counter. Riggers got most of the work down during this period. We've distributed all four riggers, one at the bottom and then we're going up 15 or 20 feet from there. We're hitting the bottom from 30 feet. Flasher flies these sets but only White flashers are. It's a struggle to find the right sets to get the hit and we're changing more like we are right now but things are coming together slowing down and the good sign is that we're seeing different year classes from the Kings and some Steelhead. next special will be Monday through Friday for the weeks of July 29th and August 5th. All morning trips will save a \$75 5, 6 hours for the price. The best week to catch this ripe Chinook salmon is two and around many great Kings with the top twenties or even thirty kilos this year can be a catch. This particular reason during a period of great fishing is due to Brew City. It's our biggest tournament in Milwaukee and we want to be in the middle of a summer pattern transition and all I can say about it is that it's almost over! Fishing has been hard all over the lake for the last 10 days! Silver King Charters is now fishing on the Milwaukee charter and this is our last trip totals, 27 for the 32 limit, 20 for 18, 15 for 10, 6 for 10, 12 for 4, 4 for 4 very difficult rides, 14 for 17 20lb King salmon, 4 for 5 for 1.5 hours of fish just due to storms, 9 for 11, 13 for 16. The numbers are down but today a few years in the classrooms Chinook began to see salmon and this is a good sign that Chinooks are starting to appear. During this time, we work with 85-120 feet of water, and the fish come down from 20 feet. The fish are scattered and difficult to target. Still orange dodgers catch some Coho salmon, dipsies and a couple mostly on board. We run flasher flies and usually deep riggers with a white knife. Spoons are tricks and buy fish on lead-core boards. We like stinger blue dolphin and pro king broken ice. There's tons of bait around, and mature Chinooks are struggling better than they've been in years. Silver King Charters, we were in 5th place after day 9 of the Geoffery Morris tournament at Winthrop Habor last weekend, but we didn't finish on day two. It's a Pro tournament and only 8 boats caught their limit on the first day, we were one of them and only 4 days. Milwaukee charter fishing is going into the best fishing of the season and we are just showing chinooks numbers days away. We only have three openings left for Salmon-A-Rama this year. They Tuesday morning, afternoon and Thursday afternoon. This charter is a chance to earn as much as \$15,000 in cash during fishing. For more information about this, see the rates page. It's going to be a year for this big Chinook salmon, and we're about to have the best time of year for kings. Look for Silver King Charters for Salmon Fishing at Expierence Milwaukee at 414-460-1467. June 18, 2013 In the transistion phase as Lake Michigan charter fishing begins to accumulate hot water, it will eventually establish a thermal chick for the rest of the summer season. We're almost through this period, but it slowed the bite down a little bit. For our last three trips we went from 18 limit, 11 to 20 to 12 and 15 to see 30 Great Jim and crew. Make it four in a row! Most of these fish were Coho salmon, which averaged £5. There's a ton of feed around, and this big fish will be ready for the season. We hunted down the Kenosha Coho Classic on Saturday. We won this last year and only caught five fish this year. It was our worst tournament performance in four years, but every once in a while you have to be modest. The good news is we got the biggest fish of the day. We've worked so hard for the Kings, and there's still not enough around. Soon, but not yet. Our best setups are dipsies with orange dodgers and green flies. We have been fishing 50 to 70 meters of water and the best depth is 10-45 meters down. Our boards haven't been this efficient for the last five days, but as things get arranged, they'll be hot again. We have high-speed reels on all wooden rods, so you don't reel forever in lead-core or copper sets. We are fishing on the Milwaukee charter starting Sunday and looking forward to some great Chinooks this season. We have already pulled two 20 plus pound Kings this year and that's 1 more than all last year. Remember our Salmon-A-Rama special, which gives you a chance to earn cash, including a \$15,000 grand prize. Call us at 414-460-1467 and let us in for summer fun. June 13, 2013 Lake Michigan salmon fishing is currently going through a period of transmission. This thermos begins to establish cold water and warm water compartments. We're in the middle of this right now. Fishing is still good but it's been the last 6 weeks as the hook is not off. Our last four outings have been 13 out of 21 and 11 on 17. Again most of them are Coho salmon but now they are getting some Kings. A seventeen-year-old girl got a nice £20 Chinook salmon on Monday. Last season there was only a Chinook at 50 pounds, and that came in September. The picture is on our gallery page. The Kings look like they're on average 10 pounds bigger this year, and we're right It's your season for them. We still use ofange dodger and peanut 3 dipsy sticks, a rigger and fly on one side of the boards. These are still solid producers, but we place them deeper in the water column. The other side of the boards. Both board board board board boards are produced equally. Our last stick is a flasher fly and this manufacturer is dipsv on a wire with a trip to a pair of fish. During the transsion period you need to get creative and you can still catch a good amount of fish. booked more spots this week. It's only on weekdays, but it's a great week for fish. Call us to book a summer Lake Michigan charter Fishing has remained well this week. As the water slowly warms up, we begin to see the beginning of a transmission in the lake. We finished our week with 40 limit ouch, 30 for 37 limits, 4 for 8 shortened travel, 21 for 28 limits and 13 for 20. Almost all of these fish are Coho salmon. We're starting to disintegrate schools and move away from the coast. Over the past few weeks, salmon have been close to shore and easy targets. Mostly this is over but we are still able to target fish schools between 60 and 120 metres and it is important that we find them stay up. We are still heavy with orange dodgers and peanut flies but we are starting to run spoons and 8 flashers on riggers. I think next week I'll probably go with a side of orange stuff instead of lead cores and spoons. We still have explosive moments with Coho salmon and this should continue for a few more weeks but this year's time chinook begins to appear catching salmon. Silver King Charters is finished immediately with the racine charter fishing season and will be charter fishing in Milwaukee on June 23. Look to be bigger this year of king salmon and we will have caught many twenty plus pound Chinook no doubt. Salmon-A-Rama week starts from July 13th. There is a chance to earn cash, including \$15,000 during this week! There is no extra cost to you just a chance to earn cash. For more information, see our prices page. 414-460-1467 call Silver King Charters today and book a 2013 summer Lake Michigan charter fishing trip. June 4, 2013 Racine charter fishing trip. June 4, 2013 Racine charter fishing rolling continues and Coho salmon still catch mass makeup. Silver King 21 limit, 27 limit for 27, 20 for 28 limit, 8 for 20, 20 for 31 limit, 25 for 50 limit (and yes we lost 25 fish! But he became a large crew), 23 for the 30 limit. Everyone of these fish was averaged around 4 kilos of a Coho salmon. We're seeing some £8 at the moment and they're all full of bait. Amazing fishing for this spring! Our spread is simple: orange dodger and peanut flies. Color doesn't matter instantly, but there's no room. Work in that area when you start biting. It's as much as Coho salmon school, and it's going to happen again. The bite was so good that orange dodgers and peanuts will catch them unless you fly down when you go to school. Surface water is still between 48 and 50 degrees and this cold water will keep the bite strong. The fish are first in 10 feet of water. At this time, this pattern does not appear to change. Silver King Charters took the first tournament of the year, the Salmon Unlimited Open: Wisconsin, out of Racine. We put all our firepower in to catch Chinook salmon and found three. That was enough for third place. It's not much Chinooks in the area right now, but that should start to change in the next few weeks. The whole area has only caught 19 Kings, which means things are a little behind this year due to late spring. I want to congratulate Ted Foti of Sea Mate on winning the competition. We expect a better performance in the next tournament. milwaukee charter fishing is almost over before moving back home to start catching. We are still moring both on Saturday 8 June and open for the afternoon and folks have great fishing at the moment. Call us to catch some fish this weekend at 414-460-1467. May 27, 2013 was racine charter fishing on another big weekend in Lake Michigan. Coho salmon, condensed for only another 3 weeks before spreading, has a grown-up. We finished the week as 22 for 32 limits, 18 for 27 limits. He'll get a limit, Lots! Once we find a school that is able to target them and give some great action. Lake Michigan charter fishing for Coho salmon is about orange dodgers and peanut flies at this time of year. We use them on our boards, dipsies and high riggers. One of these devices will be hot on a trip though from time to time and produce Coho salmon. We are running two deep riggers for Chinook salmon and Lake trout but just not enough around the target at the moment. Last year it was the other way around and chinooks were all we were able to catch but this is a more normal spring. That's not going to happen. Before we switch to a Chinook spread but at the moment there is a lot of Coho salmon and a blast to catch them. It's all about finding a school and once once the orange dodger spread and you don't go back and forth on them that will catch plenty of fish. This is a real fun time for fish with Silver King Charters, because most trips will end with limits or close limit catches. And this is the big tasting fish! My brother and I have had several Coho salmon dinners in the last few weeks and Lake Michigan is our favorite fish Friday afternoon is open this week and the following Saturday is open June 8. Father's Day is also open. Once racine book quickly for our remaining 3 weeks so call Silver King Charters at 414-460-1467 now to get some extraordinary action. We're going back to Milwaukee on June 23rd. May 22, 2013 We ran a morning trip today and went 32 for the 42 limit. Fishing has been really good in the last two weeks and there is a place of salmon in the area. When we find them, the movement is fast. We have open times for Memorial Day weekend and action should remain constant for the next few weeks. installation at all. The best fishing water remains at the top 10 meters. We find coho salmon ne soon and outside in about 15 meters of water. There's so much bait around that these fish aren't going anywhere a little while soon. This is a great time for the Lake Michigan Salmon fishing experience. Give me a call at Silver King Charters 414-460-1467 and we'll put you in the fish. May 20, 2013 What a great weekend fishing! Racine charter fishing has been good in the last few weeks but this weekend was the fire. We finished going 28 for 32 limit, 28 38 limit and 11 to 11 limit. All Coho salmon from £4 to £6. Fishing was quick action to say the least. Coho action should continue until mid-June but I doubt the fish will bite faster this weekend. This is a great time to catch a lot of fish and they are also great for grilling at this time of year. switches this week. There's a lot of fish around right now, and when you find a school, they can resist an orange dodger. We're out tomorrow and we still have openings for Memorial Day weekend. Call Silver King Charters at 414-460-1467 and you will hear you call us Fish On! May 17, 2013 Serious folks! Coho salmon schools are hard fed on large feed schools. It's really good fishing right now. These fish weigh an average of 4 to 5 kilos and are the best eating fish, pushing some 6 kilos Action quick and it was super fast action. Racine charter fishing and Kenosha charter fishing should remain warm for the next 3 to 4 weeks, being the primary target of Coho salmon. The top feed coho is candy or orange dodger and peanut fly. Boards, dipsies and riggers deliver with this installation. It's not rocket science, but it has to find fish. They're close to shore now, but they'll move day by day. I need to say once again: call Silver King Charters at 414-460-1467 now and experience the best Lake Michigan Charter Fishing! This is the great fishing action. There's a picture at the top of our gallery from today's charter fishing was largely developed in the southern part of the lake over the past week, and so charter fishing has the waters of Racine and charter fishing in Kenosha. There's a lot of feed around, and this coho attracts salmon nationalities. We ended the week at 18 for 27. We ate 16 coho salmon from these fish. For those of you who went out with us last year, you know the cohos are real, really small, but the 2013 crop is back to normal size. These fish will weigh an average of 3 to 5 kilos and add a rush weight with all the feed around. Hot installation is simple at the moment. Orange dodgers and peanuts fly on almost everything. Most of these fish come from the top 10 meters of water, and at the moment the best overall depth is about 50 meters of water. The surface is still around 43 degrees, so this action will only increase in the next few weeks as the surface temperature rises. The rest of May seems to be very good fishing. Everybody ask me when it's a good time to catch fish. That's what I'm going to do. Coho salmon action is usually intensified for a few weeks, making them easy to target. And the best eating fish in the lake. We catch rainbow trout with salmon and brown trout. Call Silver King Charters at 414-460-1467 to get fun. May 8, 2013 We took the boat to richer waters to start our 50 days of charter fishing in Racine. My brother and I were just breifly on Sunday but there are a lot of feed in the area and we caught a coulpe nice fish. Coho salmon is another one or two kilos of bookies than last season. The reason we came to Racine, 40 minutes south of Milwaukee, is because there was a lot of bait and fish at the southern end of Lake Michigan at the beginning of the season. We can fish from Wind Point to the Illinois border. The bait and fish are starting to come together in our and we can't wait to catch many fish while racine. This is worth booking a good trip Because King Charters has some of the best catch rates of the season in the next few weeks during this time. April 28, 2013Wow! What difference does a week make? We learned to catch fish again, and this Sunday at 30 to 23, he took out some disappointments. I want to thank Matt. I gave me some great tips about their Sunday Jason Woda field and then Chris Legacy, who was fishing to us. All this information took what some bad fishing around Milwaukee took and made great. I owe you one! We were hunting the famous Blue Balls south of Milwaukee in 10 feet of water. Spoon1 and 2 colors the road was hot. We started plugs on the other side of our boards and they were fine too. We took 1 Lake trout, 6 Coho salmon and 16 Brown trout. Some of the Coho salmon came out of peanut fly and orange dodgers dipsies. On a whole great day compared to what's happened in lake Michigan in the last three weeks. Silver King Charters racine charter fishing begins next week and will not be back in Milwaukee until June 23. Fishing should be better in the south, with hot water. After such a cold and wet start, Milwaukee was nice to have a good exit. Call us at 414-460-1467 to get charter fishing Racine and charter fishing Kenosha. This may be some of the fastest action of the season. April 24, 2013Well seems to have arrived at the end of spring. At least not this week. Temperatures will be in the 60s on Saturday and southwestern winds in the 70s on Sunday. You could have wanted better. Past the 28 degrees we started fishing at last weekend. Water clarity has greatly improved this weekend. Silver King Charters is planning to remove these fish this weekend. Book this weekend. Book this weekend. Silver King Charters is planning to remove these fish this weekend. up with Brown trout, lake trout and some salmon. The weather's going to be great! We fished twice on April 21, 2013, and the season was awful. We went 0 for 1 Free Trip and 2 for 2. We've only been to skunk three times in the last 400 times, but this happened. Our two and four other Milwaukee charter fishing trips caught only 6 fish that day run that day, so I guess we didn't do too badly. It was the coldest start to our fishing trip. When we got out of the dock it was 28 degrees and we had to cut ice from the dock it was 28 degrees and we had to cut ice from the dock it was 28 degrees and we had to cut ice from the dock ropes to go for the trip. A thin layer of snow covered the oil as we left. It was a bachelor party ready for the conditions, but unfortunately the fish let us down. hope they spent money there. That night was more fun. Fishing waters and the lake was bad due to 10 days of non stop rain, which was beaten by strong winds for several days. We tried to get out of the mud in 60 feet of water, but the water was 37 degrees down the hill and there was almost no sign of it in the end. We entered the port for the afternoon trip. We managed a couple of 4-5 pounds brown trout but it was very difficult fishing. Temperatures will be higher and rain totals will return to normal, as conditions will improve by next weekend. The port area can be fish for the first time in 2 weeks, and the most fish is where it is now. There are several Lake Michigan fishing charters that will offer a No Fish - No payment policy but Silver King Charters strongly believes and should not pay if we catch a fish, but for a limit. Things are going to get better and I'm sure there'll be a better report next weekend. I can't tell you what it did because we tried everything and nothing worked. I still believe this will be a stong season and it was common 12 days ago before the winter return to the borders and we had more than one stong rainstorm. Last weekends cancelled trips and I wonder if this should be the weekend. A good nobody worked big on the boat. Call us to book a trip and don't be afraid about booking in April because again a world class fishing begins just outside the port and port of Milwaukee. I hope the kids at the bachelor party had a warm, fun night. April 13, 2013 We are in the water as of April 4 and I feel the Silver King has been a curse for Lake Michigan and Wisconsin in general. It's either wet or cold. It's not like April, it's February. We were getting ready to make a trip today, but we had no choice but to res plan. Why strong weddle winds and the Milwaukee river were blowing the entire port west. Again the snow did not help that it was 34 degrees off. That's ridiculous! We spent the day putting some finishing touches on the boat and installed a new stereo with Sirus XM. We added higher speed reels for wooden bars. I know many of you appreciate that when you're fighting fish in lead-core or copper setups. So we added a few combinations to cover the water column more. The fish out there and this crazy weather will catch them as soon as it passes. Silver King Charters has two more trips next week and the conditions seem to be similar but I think the port area will have been cleared enough for fish. A lot of Brown and Lake trout had been caught before this crazy weather. There was only one boat. Today and that didn't last long. We must have a few good weekends left with solid trout action before we go to Racine. We're fully ready for Lake Michigan charter fishing. March 31, 2013 Good Silver King Charters will not be on April 1, as the port is also still ice, and this is not an April joke. But we'll be in the water by Friday. This time last year he had already seen 80 degree days and people had been fishing since the beginning of March. We'll take a tour this Saturday and be ready to swing. Fishing in and around milwaukee harbor was solid. We did catch brown trout with some Lake trout. We'll cover it with some water on Saturday to see if we can find some Chinook salmon. Most April fishing trips see Brown and Lake catch trout but last year the King had salmon in full speed. Milwaukee charter fishing has some good action in April, and Brown is the best month we run on the weekend! Call Silver King Charters now at 414-460-1467 and take the first bite of the 2013 season. March 13, 2013 Lake Michigan Charter fishing is almost here and Silver King Charters is ready to put the boat in the water immediately. The 2013 season seems like a very good year for Chinook salmon fishing. We will start fishing in the Milwaukee charter in the season in April. This is a great time for brown trout and lake trout chatch, with several Kings thrown in. Then Racine charter fishing will begin in May. With exceptional Coho salmon are the best eating fish in the lake and there are a lot of fun to catch. We have the highest catch rates every vear from early May to mid-June. We went back to Milwaukee on June 22nd and it's time for king salmon. We're looking forward to another good year for chinooks. We are currently booking trips and always going fast on Saturdays, so if this is your day to make sure you are safe next day call. We organize excursions all week except April, which is limited to weekends only. There is currently a place of Brown trout around the port area of Milwaukee and we can't wait for you to land your first fish of the season. Call Silver King Charters at 414-460-1467 to book a Milwaukee charter fishing or Racine charter fishing trip for the 2013 season. January 5, 2013 I hope everyone had a great holiday and we wish everyone a happy birthday. But let's think back to 2012 because it was one of the best fishing years we've seen in a while. I would say it is one of the best since 2007 and the best in 4 in the last 20 years. A Chinook salmon bite, which began in April and did not stop until October. Over the past 4 years the Michigans chinook lake action has been hit and missed but due to a tick of socks 3 years back really took off fishing. We ran 125 trips and a trip of just over 14 fish was boated to 04 1760 total fish but a fish to look more accurately ever 14.1 minutes fishing time. That was extraordinary!!! We didn't have a single skunk all season. We had only 1 fish, 3 trips with 2 fish, 1 trip with 3 fish. Silver King Charters had 51 limit catches in 2012! The upper species were Chinook salmon with 58%, Lake trout with 4%. Really this year wasn't a slow time, except October and this was mostly weather-related. October is usually very good months. For most of the year we were able to fish with 85 to 115 feet of water and it was consistently hot. All I can say is it's a bumpy year on the lake, but the fish are chop-loving. Without Coho's numbers, we didn't run our normal orange spread for long this year. We usually like green installations but this year we ruled white. Both Racine and Milwaukee had hot cigarettes and stayed that way all year. Open Wisconsin, 1st in the Kenosha Coho Classic, 16th in morris inventational Winthrop Harbor, 4th in super sweepstakes, 2nd in Port Washinton Salmon Shootout, 2nd among 116 boats in Brew City Milwaukee, 5th in the SU Open Illinois becuse and 3rd in the SU Open Illinois becuse and 3rd in the Suthwest Salmon Shootout, 2nd among 116 boats in Brew City Milwaukee, 5th in the SU Open Illinois becuse and 3rd in the SU Open Illinois becuse and 3rd in the SU Open Illinois becuse and 3rd in the Suthwest Salmon Series Challange overall. superior peformance in 5 different ports. Silver King Charters tournaments fish so stay on top of our game and also give us a big pulse on how fishing progresses throughout the season. We are also able to test new techniques and see how it works against other top fishing boats. In this order gives you a captain who is prepared to The 2013 season looks like another good year but this season the top will be tough. We start fishing in Milwaukee from April 30 to April 1 for Brown and Lake trout. Silver King Charters hot Coho and early King action heads down Racine for 7 weeks. We went back to Milwaukee catch the best fish and make the journey unforgettable. for the rest. To get Chinook salmon along with Rainbow and Lake trout. Charter fishing Racine and Charter fishing in Milwaukee we guarantee you a hot bite during the season. Call me now to make sure you get the request. I booked mornings and evenings every Saturday last year, and it was also on most Sundays. From May 1st to September, we organize excursions every day of the week. In April and October we only take trips on weekends. Silver King Charters CAN't wait to shout FISH! This season and a stick hand to a customer. We will be updating the website with more upcoming information than season aleading. Until then, stay warm. Hot.
