So I'll give people a call to see if I can get people's creative juices running. Multi chapters ics are great, but optional. I would love it if it was great because most Dyson/Kenzi ics are a shots. Prompt 1: KidsDyson accidentally Kenzi pregnant. Hale and Bo are hurt by this, but they're still there for them. It's all up to you. Instant 2: Dyson Secret Feelings Most of the Dyson/Kenzi I've read have Kenzi pinning on Dyson I really want to read the roles to be turned to and for Dyson to pin on Kenzi. A A Dyson's overprotective, possessive is always welcome, as is a domestic Dyson.Prompt 3: Bo/Dyson never happened. In season one, Dyson never dated Bo. They became friends. So Dyson and Kensi fell in love with each other. Direct 4: Stranded on an island, cabin, cave, home ETC Dyson and Kenzi stuck somewhere, alone. They only have each other to depend on until the others find them. They start talking and seeing how much they have in common. And that's how Dyson wanted to watch her sleep, and she knew for sure that she was forever. He was desperate to make a mistake. He had suspected it was true for a while now, but it wasn't until this moment that he felt deep inside. The relief that was alive overwhelmed him as he watched her breathe. When he was confused and doubted himself, he thought she was dead. His heart told him his certainty that he would never want to be a slave to a Fae, like Lauren, that his reason for pushing away was wrong. His mind told him that he imagined the teeth and the strength he displayed as they fought for the gun. When she didn't change her appearance she thought she was really dead and the sense of loss created a crater in his stomach. When Lauren walked in, she was crying because of that sense of loss. As confused as he was, he was sure he'd never cry for anyone. Seeing her now, safe, was like balm for his soul. He kicked himself mentally. His immortal had to cling to a mortal man. Because he was such an idiot. There was a reason Snow White was marrying the prince who kissed her after she ate the apple. There was a Aurora marries her knight in shining armor. Because the spells of love in Shakespeare's Night Dream A summer makes people fall for the first person they see. He should have known better than to open the bottle when he gave it to him. She should have stopped thinking about the consequences of breaking the spell in her presence, especially since he already admired and respected her. After being left behind and hiding under a body to save him and facing Norn for his love he didn't think. In his surprise at her courage, gumption and belief in the danger facing the witch on his behalf without back-up, his mind stopped. All he saw was another chance to love again. stop feeling empty, find happiness and never feel alone again. He opened the bottle without a thought about the consequences of spells such as the pain he would suffer or the fix result and now desperately wanted for a way to unwarranted it. Not because she thought she was weak or unworthy. after all he had done was the one who felt unworthy. After the insults he had told her in the past, he didn't think it was worth her loyalty and devotion before he opened the bottle, let alone now. He didn't want to unjustifiably love him because he wasn't beautiful; She was beautiful, beautiful and sexy. He had many of Dahl's protectors who longed to peel. He wished because he felt his love would hurt her. She will suffer guilt because of her devotion and love for Bo. He would suffer because he was a man in his world and would be considered his game. That if he acted on his emotions, he'd use it to make him feel better. He wanted to unnecessarily connect because he didn't want to feel the pain. She, after all, was not connected to him as she was to her. If she didn't categorically reject him. if she tried for him and never felt anything about him she didn't want to make her feel compelled or trapped. If things don't go well she might also try to let him down the line that could be dangerous for her; not only by other Faes who would consider her a runaway slave, but from his possessive wild side once consumed. Even if she could love him, she was human and could love many in her short life. She was young and could find her true love later or be reluctant to settle down so early. If, by some miracle, she loved him with all her heart until the day she died, there was the rub. He was human, mortal. The best he could hope for is 75 years, up or down, and that would never be enough. She could live another millennium and without her she would be lost... And so he wished. Wanted.
