×Sorry terminateCSS error ITT Technical Institute entered into a contract with Parchment to provide convenient, national, online queries and execution services for ITT Tech transcripts and related credentials. ITT Tech and Parchment are working together to make sure that your transcript data is safe, secure and can be ordered and delivered for many years. ITT has hired Parchment to provide a convenient and national, online request and execution service for ITT transcripts and related credentials. This service will be provided during the itt liquidation period and beyond, ensuring safe and accessible access for students and slums to receive the transcript and diploma services they deserve. If you are a student, alumni or counselor alone, we have some important information to share about how the service works and some expectations determine what your experience will be like in the first few weeks we live. Pay attention to your graduation year because the service can help 1994 graduates only current students. We can serve students and graduates with graduation years since 1994 for current students. Note: Graduates of Colorado and Massachusetts can place orders regardless of graduation year. For students at Colorado and non-Massachusetts who graduated before 1994, Parchment does not support these records and recommends contacting their state for more information. More information. If you send your transcripts to college or university, use parchment to send them electronically. In addition to online request and monitoring, Parchment allows you to send your transcripts electronically to colleges instead of printing and sending them. When you start the order process, you'll be asked to enter a destination. With more than 80% of colleges accepting electronic transcripts, it is likely that we recognize your destination and inform you that the hosting office prefers electronic delivery. (It is easier and faster for them to process electronic transcripts, especially when it comes to assessing credit rates.) You can always choose to email to any e-mail address or print and send it to any address. Take advantage of our help center. It is natural to have questions and we have set up a help centre to provide assistance when you need it. If your main question, understandably, is Where is my transcript? or When will my transcript come out?, the tracking tool is the best and newest resource. In addition, we have a lot of advice and guides, and when necessary, you can submit a support request through the help center and we will work to respond by email as soon as possible. We involve staff to help serve ITT students. Please understand that there is a charge. In such cases, we do what most government agencies and many and universities - we charge an application fee. The fee for electronic requests and delivery is \$15. If you choose to print and deliver the transcript by mail, an additional handling fee of \$2.50 applies. We recommend you send electronically, both to save these costs and because it's the delivery method colleges want. If you choose overnight delivery or international destinations, the handling fee will be higher based on what you have chosen. Schools or hiring agencies may also need to request ITT credentials. While we expect most of the ITT credential orders to be directly from students and alumni, we recognize that there are colleges, universities, hiring agencies and other credential checkers that have permission to request credentials on behalf of ITT students or graduates. In order to process this type of orders, applicants will have to have an account for receiving parchment (do not worry, they are free and we do it easily). Organizations that want to get ITT credentials through parchment can learn more about our parchment retrieval program here. Trying to apply for a job, but the application says I need to get a transcript from my school. Not sure how to do it because ITT Tech closes downPage 2 5 comments comments
