Category GAME_STRATEGY Get It On: Requirements: Android 2.2 + Papa's Burgeria 1.0.31 APK for Android 2.2 + Version 1.0.31 for Android 2.2 + Update on 2015-01-01 File Size 20,763,699 bytes App permissions display permissions What's new - Bug Fixes minecraft 1.17 apk download libre play apk toto rewards brève introduction Permissions Papa's Burgeria is now available to play on the go, with gameplay and controller reimagined for Android phones. Grill, stack and serve burgers in a whole new way! You are again responsible for Papa Louie's famous Burgeria, where you will learn how to take orders, grill patties, add toppings and serve burgers to all your crazy customers. You'll need to multitaque between each area of the restaurant, with new controls that feel just right in the palm of your hand: Go to the booking station to keep an eye on customers waiting in the lobby. Switch to Grill Station to drag patties on the grill and flip burgers to make them evenly. Go to Build Station to carefully make sandwiches with toppings and sauces exactly how they ordered, and deliver the finished burger to earn points and tips! Each station is a convenient experience, where you have to drag, swipe and tap your way through the burger building process. With full multi-touch support, the process is more enjoyable ever before! Press many burgers at once to turn them all on the grill, or hold a finger on Build Station's bin slider for even better precision when building. Keep your customers happy to earn more points and level up. As your level rises, unlock new toppings in the store, and new customers will start visiting Burgeria! Papa's Burgeria To Go also has unlockable toppings that are not available in previous versions! ** NEW FOR PAPA'S BURGERIA TO GO ** Papa's Burgeria To Go is redesigned and reimagined for smaller screens so your fingers don't get in the way of action! CONTROL YOUR THUMB - You switch drives using buttons at the corners of the screen, perfect for your thumb. Use buttons in the top corners to switch booking tickets without having to drag them back and forth. You can also see all your booking tickets in a zoomed-in mode for easy reading. GRILL STATION - We've made it easier than ever to keep track of your burgers, with Timers stuck in every burger patty that you can read in an instant, showing the cooking time and how each side is cooked. You can also buy alarms in the store to add every hour, so you get a notification when it's time to flip or remove a burger. With multi-touch support, you can quickly flip and remove burgers using multiple fingers. Try a triple-tap to turn three patties in a row! BUILD STATION - With a traditional drag-and-drop system, your finger will block your view, so we've completely changed Build Station to work on smaller screens. You swipe a carousel of Topping Bins over the top of the screen, and gently push it to line up toppings with the burger below. Just tap the bottom of the screen to drop a topping from the tray above! You can also press a button to swap topping bins with Burger Bins, which keeps all the patties you've cooked on the grill. And with full multi-touch support, you can hold one finger sliding the shelves and another tap at the bottom of the screen, so stacking burgers is a breeze! ** GAMING FEATURES ** - Hands-on burger shop games in the Papa Louie universe - All new controls and gameplay designed for smaller screens - Multi-task between grilling, stacking, and dining - Buy to buy upgrades using your game tips - Over 60 customers to unlock with unique orders - Challenging Closers and Food Critic - Over 50 in-game achievements to earn ** NOTE FOR TABLET USERS ** Papa's Burgeria To Go is designed specifically for smaller screens. If you're looking for big screen gaming, check out the original Papa's Burgeria for Android! Write external storage Allows you to write to external storage, such as SD card. Internet Provides access to Internet networks. Read External Storage Allows you to read from external storage, such as SD card.
