With your purchase, you will receive everything you need to see and feel gorgeous with this pretty cartoon character from talkartoon and Betty Boof movie series. Betty Boop was created specifically to represent flapper girls in the 1920s. Flapper girls were like today's hipsters, always challenging the status quo in a normal society. Flappers by the time listened to a lot of jazz music, danced in dance halls, smoked, drove fast cars, wore short skirts, and engaged in promiscuous behavior at will. All these actions were all running counter to the times, especially for women during that period, being seen as too free and dangerous! While that has certainly changed, Betty Boop is a constant reminder of what life was like in the 1920s and '30s. With her very unique looks, big eyes and small body featuring her big baby-like face, she is definitely the character who remains with you. Entering the party in Betty Boop's clothes makes you look sexier than ever. Don't be surprised if you're surprised by your beauty so that everyone dressed as this pretty flapper girl stays up all night. Get more dolls in our excellent accessories and costumes!
