## Witcher 3 platinum guide

More The Witcher 3 Guides: In this guide, you can find all achievements of the game. Before we start with individual achievements here are some general notes on this game: You're free to move around the open world to the credits role. This enables you to tie up any loose ends and complete most of the contracts and side guests you may have missed. Certain secondary guests that bind in the main story are an exception. It is possible to earn all achievements during a single play through. However, it requires you to complete the main story on the most difficult issues with the unified set (without changing them until the end). In this case, I recommend going to some of the tougher combat performances after unlocking the trouble-based since you're free to change the difficulty level after the main story is complete. I recommend creating a new storage file after each major story mission. It would be of great help if you miss any accomplishments along the way. I've tried to keep spoilers to a minimum throughout this guide, but the performance descriptions and quest names themselves may contain some minors. These achievements are awarded for completion of story missions and, as a result, cannot be missed. Lilac and GooseberriesFind Yennefer of Vengerberg.Awarded for the completion of the prologue. Family CounselorFind the baron's wife and daughter. Awarded for the completion of the Family Matters quest in Velen.A Friend in NeedFind and free Dandelion.Awarded for completion of the Poet Under Print Quest in Novigrad.NecromancerHelp Yennefer extract information from Skjall's body. Awarded for the completion of the Unnamed Quest in Skellige.Something MoreFind Ciri.Awarded for the completion of the Isle of Mists quest near the Skellige isles. XenonautVisit Tir by Lia and convinced Ge'els to betray Eredin. Assigned for the completion of the Door Time and Space Quest for... well, you'll see. The King was awarded DeadDefeat Eredin.for defeating the final boss. Passed the TrialFinish the game onto any problems. Run the GauntletFinish the game on the Blood and Broken Bones! or Death March! difficulty levels. Walk the PathFinish the game on Death March! difficulty level. Assigned upon completion of the epiloft. Achievements for higher difficulty levels would only unlock if the difficulty level remained unchanged throughout the game. This section deals with achievements awarded for completing multiple side guests. Most of these are closely related to the main storyline and are hard to miss. Friends with BenefitsComplete the subplot involving Keira Metz.You will meet Keira during the Velen section of the main quest line and she'll ask you some favors afterwards. Complete this side quests (the last one is called a for a friend) to earn this achievement. Remember to tell her to go to Kaer Morhen as soon as the subplot is complete. This is required for the Full crew performance. 2007 Honda CRF 2000 2007 Honda TR500 subplot on the selection of Skellige's ruler. This subplot becomes available during the Skellige section of the main story. You can help the participants if you see fit by completing their own side quests before contesting the subplot with the King's Gambit quest. The performance unlocks after the coronation ceremony. Full CrewBring all possible allies to Kaer Morhen for fighting the Hunt.Be sure to complete all three Brothers in arms side guests before the siege of Kaer Morhen begins. I got the feat by inviting the following people: Keira, Letho (spared him in the previous game), Roche, Zoltan, Hjalmar and Ermion. Triss was automatically invited by Yennefer because she was no longer in Novigrad. Letho is apparently optional (confirmed by Breuger). Assassin of KingsTake shares in the assassination of King Radovid.This subplot consists of two side guests: A Deadly Plot, which becomes available during the Novigrad section of the main quest line and Reason of State, available after the siege of Kaer Morhen.All contracts can be taken from notice boards in several towns and towns around the world. Boards with available contracts are indicated by yellow icons on the world map. Geralt: The ProfessionalComplete all witcher contracts. There are a total of 28 contracts in the base game. 1 in White Orchard, 11 in Velen, 8 in Novigrad and 8 in Skellige. One of these (The Griffin of the Highlands) is tied up in the Master Weapons Quest in Velen. DLC contracts are not required for getting the performance. ShriekerComplete the contract on the shrieker. The contract is available in Crow's Perch. Recommended Level: 8.Fearless Vampire SlayerComplete the contract on Sarasti.The contract is known as Mystery of the Byways Murders. Recommended level: 22.Fiend or Enemy? Complete the contract on Morvuud. Contract: Missing Boy, available in town near Kaer Trolde. Recommended level: 29.The Doppler EffectResolve the doppler problem in Novigrad.You get the performance regardless of how you deal with the doppler. Recommended level: 13.Ashes to AshesComplete the contract on Therazane. Contract: Doors Slamming Shut, available in Novigrad. Recommended level: 24.Woodland SpiritComplete the contract on the Woodland Spirit.The contract is known as In the Heart of the Woods (available in Farylund on Ard Skellig). It has also been bugged at this time since the only way to get the performance was killed by the animal. This will hopefully be fixed in a future patch. Recommended level: 22.Even OddsKill 2 samples you have a contract on without using signs, drinks, mutagens, oils or bombs. I use the cockatrice and misty contracts to get it, but you can get it during most contracts unless the sample requires the use of to defeat tokens (wraiths mostly do). Remember to meditate before the battle for any dose clean up, make sure that no oils are applied to your your clear any mutagens of your character screen and resist the urge to use signs or bombs during the fight. If the fight is too difficult, consider getting back to it after getting some levels and better gear. This section deals with achievements regarding fistfights, riding and gwent. BrawlDefeat Olaf, the Skellige champion of unarmed combat. Defeat the 3 challengers in Skellige to the mighty Olaf.Brawl MasterComplete all fist-fight guests in Velen, Skellige and Novigrad.Velen, Novigrad and Skellige each face 3 challengers for you before you can face the region's champion. After winning all 12 fights, you will have the opportunity to face The Champion of Champions. Defeat him to claim his title and earn this feat. Fist of the South StarDefeat an opponent in a fistfight without causing any damage. Easy enough to do, especially during the early fights in Velen. A useful tactic is to keep your opponent at a distance by dodging backwards. This way, he'll always attack you with a right hook that's easy to counter. After following up with 2-3 quick attacks dodge again before taking counterattacks. Repeat it until he goes down. Fast and FuriousWin all the horse racing in the game. Horse racing can be found by checking notice boards in large settlements. There are 3 in each region with an additional one in Novigrad and Skellige once you've won them all. Winning the 11th race gives you the performance. Gwent MasterDefeat Tybalt and win the tournament held at the Passiflora. You'll have to finish first in the tournament during the High Stakes quest. These are some of the most powerful decks in the whole game so be sure to get a good number of hero cards before trying it. Geralt and BackupWin a round gwent with only neutral cards. Every now and again, the A.I. will forfeit a gwent without playing any cards. Simply keep a neutral being or hero card in your hand whenever possible so you can take advantage and get this performance the easy way. All InPlay three hero cards in one round of gwent and win the game. It gets silly easy once you get a decent number of hero cards in your deck. Card CollectorAcquire all gwent cards available in the base version of the game. This feat is awarded for completing the Collect 'Em All side quest. You just need one of each card, duplicates don't seem to count the performance. Most cards can be purchased from vendors or randomly won from other players. There are some unique cards available only during specific guests. This is:High stakes: The gwent tournament in Novigrad. A matter of life and death: During the masquerade ball in Vegeibud Estate. A dangerous game: Available from Zoltan in Novigrad. Shock Therapy: at a d ruin in Gedyneith. Gwent: Playing Innkeeps: Available from Stepan in Oxenfurt. Gwent: Velen Players: Available from the Baron in Big City Players: Available from Vivaldi in Novigrad. Gwent: Old Pals: Available from Zoltan in Novigrad. Gwent: Playing Thaler: Available from Thaler after completing the quest a Deadly Plot. Gwent: Skellige Style: Available from Ermion in Skellige.Just keep your eyes open to anyone willing to play you and always check vendors for cards. The only problem I had with this quest was the card seller in Claywich. You have to save him from a nearby bandit camp to access his cards. This section is dedicated to combat-related accomplishments. Most of these can easily be farmed in the Devil's Pit area in Velen. This quarry is filled with low level bandits that every time you travel quickly out and back to Velen, providing an endless supply of targets. The enemy of my enemy uses the Axi Sign to force one opponent to kill another. Do it 20 times. You will need the puppet skill to turn enemies against each other. High-damage samples and relatively low health (wolves, neckers, drowners...) make ideal targets. Humpty DumptyKill 10 opponents by beating them somewhere high with the Nature Sign.Lure foes near a ledge and using Nature to push them over it. The conditions at Devil's Pit are ideal. Environmentally friendly Unfriendly Kill 50 opponents using the environment (e.g. swamp gas, insects or objects). Clouds of swamp gas and exploding vessels are common enough and both can be set on fire using Igni. I unlocked this one surprisingly early on, which made me believe that killing because of most kinds of indirect damage (fire, bleeding and poison) can count towards the performance. Kaer Morhen TrainedPerform 10 effective counterattacks in a row without being hit or parrying. Easier to do during a fistfight against a single enemy. Join your target and keep your distance by dodging backwards. He will attack you with a right hook that is easy to counter. The counter-attack will also knock him back enough so he'll use the same attack over and over again. Once you get the timing right the performance should be easy to earn. Can't touch it! Kill 5 enemies in a battle without damaging (except for Toxicity) and without using the Quen Sign.Can is achieved by erasing a pack of low level wolves with Igni. For a more methodical approach, you can alert the bandits to Devil's Pit and lure them to the exit. They will never cross the gate and must line up for you to take them out with your crossbow. This is the most wicked Dinglgnite the gas produced by a dragon's dream bomb using a burning opponent. Do it 10 times. When the last member of a group of weaker enemies sets them on fire with Igni, roll backwards and throw a Dragon's Dream Bomb at them. You need to not actually kill with the explosion. Butcher of BlavikenKill at least 5 opponents in under 10 seconds. You'll probably deserve it without even trying. If not, find a pack of low layers wolves around Hanged Man's Tree and burn them to a sharp with Igni.Triple ThreatKill 3 opponents in one fight using 3 different methods (swords, bombs, crossbow, signs, etc.). Another one that's likely to activate organic if you fluciate your play-style even a little. OverkillMake an opponent suffers from bleeding, poisoning and burning simultaneously. Do it 10 times. The key to this performance is creating a silver sword that has a decent chance (at least 10%) of the administration of all 3 effects, preferably early in the game. I recommend the Feline Sword as it can be upgraded and already have a chance to cause bleeding damage. Add a few runs for poison and burn and you're all set. Be patient and the performance should eventually unlock. There are also some skills that can help you: Poisoned blades increase your odds of poisoning enemies when applying the appropriate oils and crippling Strikes adds guaranteed bleeding damage to rapid attacks. Liberal use of the Igni token also helps you ignite enemies and the Pyromaniac skill can improve your odds of doing so. Master MarksmanKill 50 human and nonhuman opponents by hitting them in the head with a crossbow bolt. Can be frustrating, since headshot detection in this game is somewhat unreliable. Successful headshot death leads to the camera shaking for a moment. You can use AxiI to immobilize targets and get close for killing for easier purpose. The Lightning Reflexes skill can also be tremendously helpful. The easiest way to do this involves lining the bandits of Devil's Pit along the gate as discussed before. What was that? Attack, counter, throw a sign and throw a bomb (in any order) in under 4 seconds. My preferred order is counter, attack, Igni and bomb. Try to get it while facing a lone opponent to prevent interference. If for some reason you're having trouble unlocking this one, you can always start a new game and get it during the tutorial in Kaer Morhen. These achievements relate to exploring points of interest, experience and gear. DendrologistAcquire all the capabilities in one tree. Simply save your game, use a respec dot and saturate a chosen skill tree with points. You can do this by as little as 10 points as using the General Skill tree (thanks to Filavorin for pointing it out and confirming it). Feel free to reboot your redgame afterwards. After all, Respec drinks are expensive. MutantFill all mutagen slots. The final mutagen lock unlocks at level 28. Any mutagens will do provided all 4 slots are taken. GlobetrotterDiscover 100 fast travel points. The best way to uncover it is simply to drive along roads. I took the performance right after in Skellige.Fire in the HoleDestroy 10 monster nests using bombs. Pest ControlDestroy all sample nests in the Velen/Novigrad region, or in Skellige. Easier to do in Skellige since that region had just 5 5 You have to find enough to get 10 without problems while completing and driving around witcher contracts. Let's cook! Learn 12 dice formulas. BombardierCollect the formulas for 6 different bomb types. Formulas are most often found in random lattices. They can also be purchased in stores. These achievements will unlock organically during the game. BookwormRead 30 books, journals or other documents. Not much to say about this one. There are tons of books and letters to read in the game, just make sure you open anything you find at least once. Armed and dangerous-finded and equip all the elements of one set of witch gear. Once you settle into your own style of play, you need to find the diagrams for the appropriate witch gear (cat, griffin or bear). You can do this by buying treasure cards from vendors. Witcher gear is often better than regular weapons and weapons and can be upgraded later (and looks great). Simply equip all the pieces of a set to obtain this feat. Power OverwhelmingHave all possible Place of Power bonuses active at the same time. Easiest to do in White Orchard. The region has 6 points in strength, visiting them only in order to get all 5 bonuses once. MunchkinReach character development level 35.I had to complete most of the content in the game to make it so using gear that gives extra experience can be a good idea. You can always start a new game + run to earn more XP. Most of these achievements are only available with the Hearts of Stone extension installed. Be sure to create a new storage file before starting the extension story-line, and as always a new one after completing a major story mission. This way you will be safe to try again if you miss any of these accomplishments the first time around. I don't kiss DatKill the prince floored in a toad. Pacta Sunt ServandaFinish the Hearts of Stone expansion. It is tied up in the main quest and is indispensable. Let the good times roll! Participate in all the activities at the wedding. During the Dead Man's Party quest, you must complete all 10 activities marked on the minimap before talking to the Man of Glass.ShopaholicBuy all the items sitting on the block at the Borsodis' Auction House. During the Open Sesame! quest will give you the opportunity to participate in an auction. Be sure to take it and buy all three items that are auctioned off. You need about 1000 crowns to get everything. Curating NightmaresRecreate all of Iris' nightmares in the Painted World.Along the course of the Scenes From a Marriage Quest you'll get to recreate a total of 8 nightmares. Only the very first one of these is miserable, the rest are tied up in the story. The first one is in the garden gazebo right as you enter the painted world. When it's very much against one... Attract all of Iris von Everec's nightmares to fight you at the same time and defeat them. By the end of the scenes from a marriage you will find yourself fighting a group of 6 enemies with 5 of them standing still at first. To get the performance, you all need to attack at least once to get them active and attack you. Be sure to kill none of them before all 6 moves. The harder part defeated them all afterwards. The Whirl skill can be extremely useful and be sure to use spectrum oil to maximize your damage. You can also lower your problems setting if things get too difficult. Return to SenderKill 3 rivals with their own arrows. An easy feat that requires at least two points in the Arrow deflection skill. Once you get the timing right, you get this one without any problems. Can stop anytime I want under the influence of seven drinks or decoctions at the same time. Another easy one. Simply chug seven different drinks in quick succession to get it. Wild Rose DethomedDefeat all the fallen knights and loot their campsites. This requires you to clean and plop the 8 bandit camps marked on the map below. Most of these have 6 knights guarding them. Be sure to kill them all and empty all the chests. The performance should pop at the opening of the final one. If you don't get it for some reason, you can always try again by starting only

a new game with Hearts of Stone. I wore Ofieri Before it was coolCollect all available Ofieri armor and horse gear, and at least one Ofieri sword. All the gear can be obtained from the Ofieri dealership at Upper Mill. You can win the hall by chasing him, the arms diagrams can be accessed by completing the From Ofier's Distant Shores quest, and the rest you can simply buy directly from him. The performance appears once you've made all items and have them in your inventory at the same time. Moo-rdererKill 20 cows. The things we do for achievements... You can find many innocent cows in different towns around the world. I personally farmed this feat in Blandare on Ard Skellig. Meditate or quick travel to make them respawn. Rad Steez, Bro! Slide downhill uninterrupted for at least 10 seconds. Do you remember that cliffside where you fought the royal wyvern during the Phantom of the Trade Route contract? It turns out it's ideal to get this performance. Keep slipping until you get it. Murdered ItWin a round of gwent with a total strength of at least 187.Multipliers is your best method to get enough points here. I use the Northern Empires deck, but I suspect it's also possible with the Monster deck. This extension marks the end of Geralt's story and is a fitting send-off for our hero. It comes with 13 new achievements, most of which are very afterline and are mutually exclusive as a result. Be sure to save your game before making your decision during the quest The night of lung fangs to unlock both. Kling of the Clink can only be unlocked if Dettlaff kills Syanna during the final quest. This requires you to save her from the Fablesphere without getting her ribbon in the process. All other choices lead to the unlocking of the Last Action Hero performance. David and GolyatKill Golyat with a crossbow bolt to his eye. You'll fight this boss just after arriving in Toussaint at the start of the extension. Be sure to equip the Lightning Reflexes skill before you leave Velen to allow for exact aim. When you fight the boss, keep your distance and line a headshot as he curves you. Missed shots do only minimal damage to him so you'll have enough opportunities to get it done. A successful hit will kill him instantly and trigger the performance so restart your last checkpoint if it doesn't. Impersonation of the Five VirtuesBe given Aerondight by the Lady of the Lake.Assigned for completion of the There may be only one quest, which requires you to stay true to the five chivalric virtues during the expansion. The tournament offers ample opportunities to do so and must be completed while acting like a true knight. Be generous to all, when you can, fight with honor and bravery, and show mercy and compassion when you are dealt with your overcoming enemies. The Grapes of Wrath StompedHelp unite the warring vineyards and have a wine named in your honour. During the Wine Wars series of guests complete all tasks for both Coronata and Vermentino, but do not turn into any of the two guests. While you do, you'll find some documents that will trigger the quest Wine Wars: The Deus in the Machina. Complete it and any subsequent guests and the performance will trigger upon completion of Wine Wars: Belgaard. A Knight to RememberObtain scores a flawless win in all the competitions during the knighthood tournament. You have to finish the tournament during the quest The Warble of a Smitten Knight while winning each of the challenges. Most are pretty easy, but the race almost gave me an aneurysm on Death March problems. Lowering the difficulty level can make things easier for you if you're having problems. You have to get a piece of gear after every win. I have a Gwent ProblemCollect all the cards in the Skellige deck. Awarded for the completion of the quest Gwent: Never Fear, Skellige's Lord. All the cards have their own quest tags, so collecting them should be easy. Turn every StoneFind all grandmaster diagrams for every witch school. Complete all 5 script hunting you receive during the Master Master! Quest. Be prepared to fight hordes of bandits. Play HouseUse all available options for developing Corvo Bianco.Have your majordomo majordomo each upgrade to your estate during the No place like home quest. You need about 15,000 crowns to pay for everything. Weapon WOntwickel a mutation. You will unlock the ability to get mutations during the Twist and Face the Odd Quest. Save some skill points and larger mutagens. Dressed to KillUnlock the bonus for equipping all the witch gear elements of one School.You must craft and equip all 4 weapons and both swords from a grandmaster witch set to get this feat. Hasta la VistaKill a frozen opponent with a crossbow bolt. Find a low level enemy (or a cow), freeze them with a northern wind bomb, and finish them with a single crossbow shot to outer Geralt the catchphrase and earn the feat. Performance.
