Diy gun cabinet lock

A cannon port offers a convenient and permanent location for your firearms. They make it easier to store and organize rifles, pistols, and other firearms. Some cabinets can be locked for safe storage, while some plans offer hidden weapons storage options. There are bearers sticking to the wall, independent units that can show your weapons, and those that keep your weapons safe out of danger. Good-quality weapon cabinets can run for thousands of dollars, but if you have basic woodworking and DIY skills, why not create your own? Below, we've listed 11 floors of wooden handgun closet and weapon carrier to use. 1. Rack of wooden guns pallet recovered from credit image in the foreground instructible: instructible check the details of the project Here the shipping pallets are a great resource for the home carpenter. They tend to be made of good quality wood and many of them have been heat treated so as to resist regular use. They can also be found cheaply in local shops, and many places give them away rather than having to pay to get them collected for recycling. This recovered rack guide for wooden pallet guns from Instructables uses pallets and recycled tools that you probably have around the house. The finished design will contain two shotguns or shotguns, and you could easily adjust the measurements to include more storage space. 2. Safe plans for floating shelf weapons from diy foreground image credit: DIY Easy Crafts Check project details Here floating shelves can be placed in any room and are a great way to show family photos, plants or artwork. They do not display fasteners or brackets because they typically affix to the wall through the inside of the shelf unit. DIYEasyCrafts floating cannon shelf top leverages this hollow design to offer a hidden storage for a shotgun or rifle. The shelf hinges from the front, which means you can leave the shelf items in place while removing or replacing the gun. The author warns that the closet is not safe, so you should not use it if children can access the shelf. However, it is a convenient way to store a downloaded weapon. 3. Rifle door top from Wayne Of The Woods Featured Image Credit: Wayne Of The Woods Check Project Details Here Wayne Of The Woods's cup counter top is a wall-mounted rack made from plywood and backboard, as well as your choice of hardwood. Use a rotating saw to cut out shapes in side panels, and the right panels are cut 1 inch higher than those at so that the rifle rods can rest the level. The finished rack will contain three rifles or shotguns and has a lower shelf to hold ammunition or other items. The design is simple and the instructions are easy to follow. The only section you could struggle with is cutting side panels, unless you have an electric rotating saw. 4. Allen Allen's Woodworking Weapons Cabinet Featured Image Allen's Woodworking Check Project Details Here Gun cabinets are functional objects. They are designed to safely store rifles and rifles when not in use, but if you are proud of your guns and want to show them, then a decorated cabinet display is a better alternative. Allen's Woodworking weapon closet plans will cost you about \$400. It describes in detail how to make glass exhibition doors and drawers for the bottom of the wardrobe. In total, you will be able to store 8 to 10 weapons in the closet, along with assorted ammo and any other items. The finish of the closet means that he would look at home in the dining room, kitchen or hallway. 5. Mine-carrying floor from Rod's woodworking shop Credit featured image: Rod's Woodworking Shop Check Project Details Here Rod's Woodworking Shop plans a wall-mounted minestock that will contain three rifles. It also has an additional shelf at the bottom. In the images, the shelf is used to hold a gun and bullets, but you can fill it with any object you can use. This is another plan that will benefit from using a drilling press and router, but you could do without hand tools. The construction is simple and you can stain or even paint the rack, making sure it matches the look you're trying to get. 6. Popular Mechanics Gun Exhibition Wardrobe Featured Image Credit: Popular Mechanics Check Project Details Here Popular Mechanics' firearms closet floor is another closet designed to show rifles, as well as store and order them. Having your guns in a safe and easy-to-find location allows you to quickly grab your rifle for your next hunting trip. This particular closet has a top case that can store five long arms and a lower case for displaying guns. Under the lower case, there are two drawers for ammunition and other supplies. All doors and drawers are equipped with locks, so you can keep all weapons firmly closed. The glass doors were also built of shock-resistant acrylic, offering additional protection and safety. The display cabinet not only looks good, but is quite functional. 7. The closet floors of instructible weapons featured image credit: instructibles check the details of the project Here These closet tops for instructible weapons are quite simple. Essentially you will build a large wooden box with space for 12 rifles, ammunition and other supplies. The guide used scraps and existing wood to make their own closet, but you could use nicer cuts and even decorate your closet if you want 8. Sawdust2Stitches Secret Compartment Gun Case Featured Image Credit: Sawdust2Stitches Check Project Details Here Sawdust2Stitches' secret gun compartment case is another gun case that allows you to secretly and safely store your gun away from the way you indiscreet your wandering eyes and hands. In this case, use a mirror, behind which there will be a pegboard. The inclusion of the pegboard allows you to insert dowels and pegs and move them. This means that the cannon case can be used for any configuration and collection of firearms. The original guide for this case did not include a lock. It was based on the fact that it is a secret compartment and difficult to open to keep weapons safe. However, it has been modified to include a key block. 9. Free gun cabinet plans on MyOutdoorPlans Featured Image Credit: My outdoor plans check project details here MyOutdoorPlans' free weapon closet plans allow you to quickly and easily create a functional weapon closet. If you follow exactly the plans, you will end up with a simple finish, but you can stain or paint the wood according to your preferences. The simplicity of the design also allows you to increase the size or make changes to the size of the cabinet so that you can enjoy the memory of the gun you need. 10. Field Rifle Rack Plans from Bill Pounds Featured Image Credit: Bill Pounds Check Project Details Here Bill Pounds' Field Rifle Door Tops are a portable folding card rack ideal for hunting parties because it allows everyone to stand up while they're not in use. When the rack is open, the sides act as feet and keep the rack stable, which is important to protect the rifles and ensure that there are no accidents. When closed, it can be carried around like a suitcase or briefcase. The guide uses strips of leather to protect weapons. The rack in the photo was stained in a suitable hunter green stain. 11. HickeyPip's Ammunition Box Plans Featured Image Credit: HickeyPip's Check Project Details Here This is not strictly a drip carrier but is related. HickeyPip's ammunition box plans are a box of vintage ammunition favored by the British Army and features a sliding access section on top of the box, brass screws to hold the construction together, and rope handles at both ends. Traditionally, the box would have been made of teak with mahogany ends, but you can change it to any good quality wood. Free Gun Cabinet Plans Weapon and Carry-on Cabinets allow you to protect your firearms, and some offer the added benefit of safe storage. Always make sure your guns are kept safe, especially if you have kids, and enjoy taking the time to create a weapon carrier using one of the floors above. Other useful DIY plans: DIY wooden rocking horse tops Viking chair plans featured image credit first Mitch Barrie, Flickr If you buy an item via link on this page, we may earn a commission. Our editorial content is not affected by commissions. Read the full disclosure. Do you have any guns you need to store in a safe place? Well, then it looks like you need a gun locker or a gun carrier. But if you try to buy one they can be quite expensive. So I'm going to you some plans that I found on the internet. So you can save a few dollars and build your own. Not to mention that there are also various styles. This way, if you want something that really shows your weapons collection, you can create it. But if you want something that is a little clearer to store your weapons safely, then you can have that option too. Weapons locker and weapon-carrying plans:1. Cedar weapon closetYe you love a rustic charm, then you will love this weapons cabinet. Personally I love it because of the beautiful choice of wood. But as beautiful as it is, it also looks very functional. So, if you're looking for a charming weapons locker, then you may have found what you were looking for in this. Build this weapons storage idea2. Pallet Gun RackDo you consider yourself someone struggling with carpentry skills? Or maybe you're someone who just needs a simple storage solution without much investment. Well, either way, this option might work pretty well for you. Basically, hang a pallet on the wall and slide the guns or arches inside it. It's that simple. Build this idea of weapon storage3. Simple weapon cabinetThis weapons locker is basic but also cute. It will safely store your guns, but it will also allow you to show them off. So, if you want to have a traditional closet that can be built with your own hands and provide security for your guns while you show them, then this could be the weapon locker you were looking for. Build this idea of weapons storage4. Picture Frame Secret Gun SafeTi like the idea of storing your guns secretly but in plain sight? I actually love this idea because if I ever need to get my gun fast, then I know it's right there. But if someone's trying to hurt me where I need to get there fast, they'll have no idea where to look. If you think the same way, check out these plans to build a basic frame that can also be a secret hiding place for your gun. Build this idea of weapons storage5. Gun locker with a secretThis weapons locker is so cool. As far as he's told, it's just a typical weapon closet with a closet at the bottom for storing guns or ammunition. So you have the top where you can show off your larger guns. But this actually has a secret compartment behind the upper section where you can store even more weapons. Pretty clean, huh? Build this idea of weapons storage6. Coffee table with hidden gunThis coffee table is actually a really interesting idea. You've got what looks like a normal coffee table, but then you lift the lid and there's your of guns. However, you might want to consider putting a lock or security mechanism on the table for security reasons. But if you ever need your weapons quickly, you will be able to access them without any problems. Build this idea of weapons storage7. The CabinetDo gun archive you have an old archive that you using more? Well, don't. Instead, you can inset it into something as useful as a weapons locker. Basically, you just need to remove the drawers, build the rack inside, then use the fronts of the drawer to create a solid door that looks like multiple drawers. That's a very clear idea. Build this idea of weapons storage8. Ana White's Gun CabinetOkay, if you've been around the blog for a long time, then you know how much we like to share Ana White's ideas. The reason: realize beautiful projects with easy-to-follow plans. Then why should this gun locker be different? It's a gorgeous wooden closet that has plenty of space for multiple guns. If you need something cute and functional, then this could be a solid option. Build this idea of weapons storage9. Pallet Gun RackThis hand rack is absolutely gorgeous. I love the designs on the wood, but I also love the fact that it is made with reused pallets. So, if you love working with pallets (as you know I do), then you might be really interested in this gun carrier. Build this idea of gun storage I love this idea because we did it in our previous home. It was functional because it had no extra space. In addition, you have a good sized mirror out of the deal. But I loved it because the guns were easily accessible, and they were kept safe, so I didn't have to worry about a child accidentally finding them. If you like this idea, follow the step-by-step instructions at the link below. Build this idea of storing weaponsThis idea is actually linked to where you can buy this headboard. There are no sites I found that had details on how to do it DIY. But if you like the idea of storing your guns right where you sleep, then you might want to consider building a headboard with a secret compartment or buying one. Build this idea of gun storageThis is another idea I love because I love hiding things in plain sight. If you are worried about children stumbling between your guns, then not drawing attention to them while safely storing them is a great idea. So, if you have an old dresser, you basically rework it as you will with the idea of file storage. Just frame the interior and create a solid door. Then put the drawing coatings on the door to make it look like a normal dresser. Build this idea of weapons storage13. Secret Floating Shelf Gun SafeThis is another idea that I really love. Hang a shelf on the wall. It looks like a typical shelf on which you can store images. But when you open it, there's actually a rack inside that's meant to store a more This way it is stored off the road, but it is also easily accessible if ever needed. Build this weapons storage idea14. Wayne of the Woods Basic Gun RackThis hand carrier is quite traditional. It is made of all the wood but has places to store more larger cannons. But I like it because the plans are so detailed. So if you're a leery to take on this task, then we definitely advise you to take a look at these plans. Build this idea of storing weapons15. Knotty Pine Gun CabinetThis is another really traditional style weapon cabinet, but it's also very nice. It is built of gnarled pine. But it has room in the bottom for guns and ammunition. Yet, in the upper compartment, there is room to show even your biggest guns. Build this idea of weapons storage16. The window cabinetThis weapons locker would work to store guns safely. There are multiple locks on the closet itself. But it's really meant to show off your weapons. There is a glass deposit at the top to show off your larger guns. While in the middle there is a glass area with a light to show the guns or knife collection. Build this weapons storage idea17. American Flag Gun StorageThis idea doesn't come with instructions, but if you're a cunning person, you might figure out how to recreate it yourself. Basically, it is an American pallet flag that can be opened. Inside, there is room to store guns large and small. Then you hang it in plain sight, but no one knows what's inside. Build this idea of weapons storage18. Simple hand rack with shelfThis hand rack is quite traditional, but it would definitely do the job you need to do. It also has a nice shelf for storage. So, if you want to build a simple gun carrier and have detailed plans to help you, then this gun carrier could be right in your alley. Build this idea of weapons storage19. Basic wooden gun closetWhen you think of a gun locker, that's probably what you think. There is a glass storage space at the top for larger guns. Then there is a small closet at the bottom that can also be used to store smaller guns or ammunition. This idea plans to help you along with the build. Build this idea of storing weapons20. The firearms display cabinetYe you don't just want to store your guns, but instead want to show all the guns you have, then you'll love tuning in to these floors. Basically, they offer a very detailed set of plans that guides you through every step of the process of building a gorgeous showcase for guns of all sizes in your collection. Build this weapons storage idea21. Simple wooden gun closetThis weapon cabinet has detailed instructions and images for every step of the construction process. It has space to hold some of your larger guns and maybe even some small ones. But keep in mind that this closet is more for storage. It's all wood, so there's no way show your guns in this closet. Build this weapons storage ideal now have over 20 options to build or build your own weapons storage solutions. Some are great for a simple deposit and others are great for showing off your guns while storing

them. These are personal preferences. Preference. Preference.
