## Lippincott manual of nursing practice 10th edition pdf

Since it was first published in 1974, the Lippincott Manual of Nursing Practice (LMNP) has been providing important nursing knowledge and up-to-date information on patient care for nearly 40 years. In part 10, this full-color text continues to serve as the most comprehensive reference for practicing nurses and nursing students around the world. LMNP, called Lippincott Manual or simply Lippincott, is widely used as a procedure manual for many medical institutions (157 nursing procedure guidelines are included). It is also widely regarded as the gold standard for classroom nursing practice. LMNP is divided into five main parts and provides comprehensive reference material on all types of core care. Part 1: Nursing Process and Practice Part 2: Medical Surgical Nursing Part 3: Maternity and Neonatal Nursing Part 4: Pediatric Nursing Part 5: Psychiatric Nursing. The content is evidence-based and includes support articles highlighted in the actual entry and procedure guidelines. Form practices are incorporated into the content and include official guidelines that include the National Institutes of Health, the American Diabetes Association, the American Heart Association, the American Nurses Association, the Joint Committee, AWHONN, and others. The companion website includes full text, image banks, drug-related NCHLEX-style questions, FDA updates, and new clinical trials. Publisher Note: Products purchased from third-party sellers do not guarantee the quality, reliability, or access to the online credentials contained in the product. Bringing new expertise to your patient care with a brand new edition of the most complete nursing manual to date, the Lippincott Nursing Practice Manual! In the 10th edition, this full-color text is organized into five main parts covering the nursing process and practice. Medical surgical nursing; obstetrics and neonatal nursing; pediatric nursing; psychiatric nursing is reviewed by dozens of clinical professionals in this important centerpiece of your professional library - recognized authorities in all their fields. You can find all the expert guidance you need to meet almost any nursing challenge and have full confidence in the recommendations, facts and findings that are based on official guidelines from the National Institutes of Health, the American Diabetes Association, the American Heart Association, the American Nurses Association, the Joint Committee, AWHONN, and others.
