advisory services. To date, Taxwise Africa prides itself on serving various multinational entities and has grown over time to be a reputable brand in tax... DA: 20 PA: 4 MOZ Ranking: 32 What is safe? The TaxWise Online Vault feature is a quick, easy way to capture and store the documentation you need to complete your tax return. You can capture images of any document using an approved camera or upload a document provided electronically by your client. Quick links to documents can be found on the left side of the screen below the tax forms. How much does the Vault cost? There is no additional charge for using the safe. If you choose to use the camera capture feature, a separate purchase of the camera may be required (see below). What is an approved camera, compared to an unapproved camera? We tested the Safe with certain cameras and certified them for work. TaxWise customer support will only help you use an approved camera. Other cameras connected to your computer or device may work, but we can't provide direct support for all cameras. Which cameras are approved? Ipevo Ziggi-HD Plus HD USB (CDVU-06IP) Sobetter USB Camera (B01FXAXMHE) Hue HD USB Camera (PC0004) How much storage do I get? Individual documents must be smaller than 4 MB and must be one of the supported file types, but no traditional storage limits are imposed. Which file types are .jpg .jpeg .png .doc .docx .txt .xls .xlsx .pdf I get my pictures and documents from the vault? Yes! Use the Export feature as an administrator user. The documents associated with the return are packed with return data, which gives you an export of the entire return, documents, and all. What happens to my documents if I don't export them? After 3 years, the documents will be deleted. I don't see the Vault, what's going on? If the vault icon isn't available, contact your account manager for help.
