Bissell spot lifter

In theory, I think it could work great! As another reviewer said, it's very noisy. I prepared myself before I turned on, but I was still surprised by the volume. It's even stronger than my container vacuum cleaner or life-size vacuum cleaner. I think I could have used, and also appreciated, this unit, but mine had some problems. First the on button gets stuck in the off position. Secondly, as soon as the unit points it forward to spray the stain, the solution/water mixture comes out of the bottom. Afterwards, I was disappointed that the trigger for the solution is not a continuous spray. I guess I'm just picky with the latest complaint, but when you have a big dog that has accidents during thunderstorms, a continuous spray is much appreciated. Finally, the suction is not the largest, however, even with my life-size carpet cleaner the carpet is not completely dry from suction alone. As I said, I think this product could have worked for me, but instead of shooting on a replacement, I'd rather shell out a few extra bucks for a different unit with better reviews. When buying a carpet cleaner, there are a number of things to consider. One question you'd like to have an answer to is whether or not you prefer a vertical carpet cleaner or a laptop. A vertical carpet cleaner is great for cleaning larger areas, but many prefer to have something light that they can carry around, spot treatment as stains happen. In addition, portable models allow you to clean high traffic points and areas without having to clean an entire floor. This website is supported by readers. As Amazon Associate we make money from eligible purchases. So, which one are you? If you're part of the latter group and want something that's handheld, Bissell has a great carpet cleaner for you. The Bissell SpotLifter 1716B is a portable carpet cleaner that packs a fist, despite its small size. Effectively lift even the most stubborn and ground stain and leave the carpet fresh and fresh. If it looks like what you're looking for, we have the full scoop on this template in our review! Introduction to the bissell 1716B Spotlifter Powerbrush Handheld Deep CleanerWhat makes the Bissell SpotLifter different from other portable carpet cleaners on the market is that this is portable. As a portable model, there is no hose or accessories that follow it as you would find on portable ones. You simply need to place the carpet cleaner directly on the area you are cleaning. In one step, rub, suction and dry the carpet, upholstery or inside the car. Bissell gave this model a 3-inch cleaning, which is standard for portable cleaners on the market. It's a pretty decent width, so it shouldn't have a problem covering most of your stains. In order to remove all those stubborn stains, the SpotLifter is with motorized and rotating rolls. Due to the power of these brush rolls, very minimal manual scrubbing will ever be required. It should really take care of it for you completely, reducing the amount of actual work you need to do. In addition, whenever you need to clean the brush, it is easy to remove and wash to remove dirt and residue. A great thing about the Bissell SpotLifter is how light and compact it is. It weighs just four pounds, which is lower than portable 13-pound carpet cleaners with pipes and accessories. Lighter weight makes it easy to carry around the house as you move from room to room to clean. It's also great for cleaning inside your car since it's so easy to use. And when it's time to keep it, you don't have to worry about it taking up too much space. This is ideal for anyone who is limited in storage space in their home. Due to the size, it can not contain too much water and therefore only has a dirty water tank capacity of 12 ounces. If you're doing a lot of cleaning, you may need to make some trips back and forth to the sink to empty it. Use an 18-foot-long power cord, which should give you plenty of freedom to move around the room without having to constantly change sockets. It is very useful if you are going to move around the room, treating those annoying spots. How does this BISSELL 1716B Spotlifter Powerbrush portable deep cleaner work? As mentioned, this portable carpet cleaner does its job with the help of motorized and rotating brush rolls. It is these brushes that will clean deep into the fibers of the carpet, lifting stains that are fresh or have settled. Brushes work in combination with the continuous suction power to give your carpets a deep clean. Suction on this model is effective for removing dirt embedded in the carpet. It's also designed to make sure surfaces don't get too wet during cleaning, so you don't have to worry about drying times last forever. During cleaning, you have control over the spray corner to make sure you cover the stains you're trying to tidy up. Use the manual switch to make the spray wide or narrow as needed. This is perfect to ensure that the cleaning solution does not spread more than necessary. Unboxing the bissell 1716B Spotlifter Powerbrush Portable Deep CleanerToolsWhy this portable model does not use a hose, there is no need for accessories on this particular carpet cleaner. Therefore, there are no accessories included in the box. If you are someone who loves to have accessories to face different areas of the house, you will like to look in portable carpet cleaners contain a hose. BISSELL ServiceBissell offers a one-year limited warranty on SpotLifter. Due to its low price (more on this at a time), it is a fairly reasonable warranty period. You're not you're out a lot for this model, nor does it have all the fanciest features that other carpet cleaners have. It is a bare bone model designed to keep the cleaning process much easier. Bissell is usually pretty good at listing spare parts on their website, so if yours ends up needing repairs, you should be able to find the parts you need there. Pros and Cons Bissell SpotLifter's obvious pro is how compact and lightweight it is. Since it weighs only three pounds, it's easy to carry as you move from room to room. This is a welcome change from heavier portable machines and erect vacuum cleaners that are actually a bit tiring to use for some people. If you're having trouble carrying heavier items, you'll appreciate how light the SpotLifter is. It is also perfect for anyone who is limited in storage space. The problem with many erect cleaners is that people simply don't have a place to keep them when they're not in use. So, if this holds you back from buying a vertical carpet cleaner, the compact size of this will be a refreshing change. He won't take too much space in whatever closet you decide to put it in. In addition to cleaning carpets, you can also use this handy carpet cleaner to remove stains from your car's upholstery and interior. No place will remain unclear when you can reach them all with spotlifters. Depending on what you're looking for in a portable carpet cleaner, a portable model may not be right for you. If you are someone who always relies on a hose and various accessories to clean stains, stairs, cracks and more, then this will not be the one for you. It also lacks more imaginative features like a heater, which is designed to keep the water warm while cleaning. However, you can always add hot water to the tank yourself, and depending on how much cleaning you're doing, you should be able to finish before the water cools anyway. Conclusion: Should I buy the BISSELL 1716B Spotlifter Powerbrush portable deep cleaner? Overall, the Bissell SpotLifter is a pretty impressive little carpet cleaner. As a portable model, it's easy to carry around the house as you clean up those stubborn stains that have stained your carpet. It is important to keep in mind, however, that this is specifically for the treatment of smaller spots and not larger areas of carpet. So, if you need anything to spot random spots throughout your home and clean them as they approach, bissell SpotLifter is a powerful carpet cleaner to consider. With its powerful brushes and suction, it is sure to remove stains and leave the carpet again and feel brand new again. Customer reviewsFor the most part, reviews on Bissell SpotLifter are pretty positive. Many customers seem to be satisfied with the deep cleaning they get with this handheld handheld Cleaner. And, of course, one of the main things that people compliment is how easy it is to use. With its lightest weight at just three pounds, it's easy to carry around the house and clean all the spots you come across. And since it can be used to clean the interior of your car, you don't need to have two separate devices. While some have complained about how noisy this carpet cleaner is, they found it easy to overlook because of how well it did to cleanliness. Customers are using it to remove stains for children and pets while tidying up high traffic areas. Based on reviews, he did an effective job not only in removing fresh spots, but also in older spots that have long settled. A reviewer even went so far as to call it a magical carpet rescue device that should get six stars. The reviewer used spotlifter to remove stains that were left behind by two dogs. In less than three minutes, the carpet cleaner is ready for use and has removed any stains, the reviewer said. BISSELL 1716B Spotlifter Powerbrush Portable Deep Cleaner VideosSummaryQuickly and easily get fresh, stain-free carpets and washing with our portable deep carpet cleaners. In combination with the portable deep cleaning formula, they use strong sprays and suction to remove spills, pet incidents, and set-in stains. The advantages of a deep portable cable cleaner The Spot Lifter PowerBrush portable deep cleaner has an 18-foot power cable that allows the machine to operate for as long as necessary to remove a stain from the carpet or upholstery. This means that you will not have to waste time and effort blowing, spraying and cleaning the stain with a rag and cleaning formula. The string design also allows the cleaner to have a powerful rotating brush that will clean the stain for you. Portable carpet cleaners versus erect carpet cleaners Regular carpet cleaning is a way to know that your carpets are the cleanest. But given the choice between a vertical machine and a portable machine, which one should you choose? Erect carpet cleaners are designed to make it easy and fast to deeply clean entire carpet rooms. What distinguishes many BISSELL erect carpet cleaners are the rows of DirtLifter Powerbrushes: they do the hard work so you don't have to. These brushes have rigid bristles placed in a wavy formation on the rotating brush, helping to clean and lift dirt and stain the vacuum can not reach. So a powerful suction lifts it up. Portable carpet cleaners smaller machines that are great for cleaning stains and stains quickly and easily. They're convenient to have on hand for unexpected spills, including wine, juice, and pet pies. Having a portable carpet cleaner on hand helps keep your home cool amid normal deep cleaning.
