Here are the topics discussed in each lesson: adjectives, adverbs, plural, prepositions, feminine, numbers, denial, pronouns, questions, determinants, nouns, verbs, present time, past time, future time, imperative and comparative. Going through each class should take about 30 minutes. Each course contains an extra topic about vocabulary. Make sure you take advantage of that, too. If you have any questions about this course, please send me an email directly to Tamil Classes. Studying Tamil grammar is very important because it is the backbone of the tongue. Without it, you'll be limited to which expressions you can use. Students who learn Tamil grammar are better able to understand how the combination of words can create intricate meanings and how these can create subtle literary effects. As a result, students are likely to appreciate learning better and pay more attention to the text. If you have any questions, please contact me using the tamil contact form in the header above. Being able to understand the complexity of grammar increases students' writing and text interpretation capabilities. In addition to writing, a good knowledge of grammar also allows for better speech skills. As a result, people who are able to articulate their words are more reliable, mature and professional.
