I would first give to say, one may wish to read the first book "Bringers of the Dawn" before this book to gain a better understanding of the terms, concepts, and vibes of what this is all about.

This book is definitely relevant in today's world. It means unlearning what we have been taught, seeing how we've been programmed into a plethora of beLIEf systems, made to give our power of thinking of living of behaving to others outside of us. We do The Family of Light: Pleiadian Tales and Lessons in Living need leaders we need to develop the inner tools so that we become leaders of ourselves.

We are the angel and the demon, the light and the dark, the yin and the yang, and it is ultimately a The Family of Light: Pleiadian Tales and Lessons in Living what we choose to manifest. I personally cannot give it 5 stars because it becomes your typical "love is the answer" bit just like "blind hatred", love is also blind. Love and hate are ultimately man-made words and concepts. We ARE Consciousness itself. Consciousness is aware. The greater your awareness, the more expanded your Consciousness.

The only real difference between a "loving act" or a "hateful act" is a person's level of awareness. One with an extremely high level of awareness is automatically in alignment with "best interests" and the "greater good" and doesn't need to entertain labels such as "love" or "hate" which are divisive, same as light or dark or republican or democrat But we can easily all agree to awareness because THAT is ALL of our natural states underneath all of these personal identifications and distractions and preoccupations with sides and labels.

Awareness transcends sides and labels and you very simply embody the best version of yourself Kindness is really the awareness of one's own empathy and awareness of one's ability to help others. And Spirituality is just the awareness of the unseen, innate, and sovereign aspects of your very being and existence The heaviness of hate and the fluffiness of love cannot compare to the strength, stability, and power of pure awareness itself and the natural discernment that comes with it. No labels or sides required.

Oct 25, Gerhard rated it it was amazing. This is the fourth book I've read by Barbara Marciniak about the family of light. Barbara Marciniak's books have helped me a lot in understanding what I'm going through right now. May 12, Alesa rated it it was amazing. Okay, this is kind of an oddball book, channeled from beings from the Pleiadies like the star system but I LOVE its insights, and am reading it for a second time. This book is an eye opening revelation to our origins, role in this planet and possible futures for humanity.

It leaves you off with a sense of hope and a mission to fulfill. Emotions Of this book doesn't bring thoughts forward then nothing will. Dec 27, Amanda rated it liked it Shelves: new-age. There were some insights I gained from this book, though I found it hard to understand at times. The prose was somewhat circular and repetitive, and there were some paragraphs I repeatedly read but was unable to absorb.

Some concepts, like the World Management Team, gave me pause and served as a jumping point to form my own conclusions about those in positions of power. The most valuable thing the book The Family of Light: Pleiadian Tales and Lessons in Living me was a means to open a dialogue with myself about important things that my culture and There were some insights I gained from this book, though I found it hard to understand at times.

The most valuable thing the book gave me was a means to open a dialogue with myself about important things that my culture and education has never suggested I question in itself suspicious. My disappointment came from the fact that I thought the book was about the Pleiadians themselves from the title. However, there is almost no information about the Pleiadians in the book. Aug 03, David Nunez rated it really liked it. The third book I've read about Pleiadians! Amazing messages in this book!

Feb 01, Shavawn Berry rated it it was amazing. Just what the doctor ordered for these trying times. Shelves: extra-terrestrials-contact. Again, anything she writes will awaken you The Family of Light: Pleiadian Tales and Lessons in Living some way. Enlightening and a fun read! Once again Barbara and the P's around us with their knowledge and wisdom in a fun and exciting tale of the Book of Earth, our ancient ancestors, and our potential to transcend and to create.

I very much enjoyed reading this book. It is one of my favorites! Highly recommend for anyone looking to expand their consciousness! Sep 13, Eri Imayani rated it really liked it. Challenges, Mysteries, History and Legends.

All of these are laid out for the reader to decode Time-jumpers searching for that specific unique second where the legends were born and the frequencies created to change all time. This is a fascinating book indeed! An artistic expression of multi dimensional evolution This book resonates with a frequency that elevates the reader to their vast potential to carry themselves forward in their earth mission.

As light workers, we each feel the transcendence of dimensions occurring and the rush of the planetary shift. Our quest as so eloquently expressed in family of light is to hold steadfast to our blueprint of unfolding The Family of Light: Pleiadian Tales and Lessons in Living new reality individually so the collective will follow. Our time is now, our history is Destiny the time for the restoration of Earth is our mission. Thank you for this treasure Pleadians and thank you for your love and support. Aug 27, Maryann Rada rated it it was amazing. As with the other books by Barbara, this one is full of great fireside-talk sort of writings, and imparts an understanding of our place within a galactic family beyond the confines of Earth Like the phrase "systems buster" from her earlier writings, "family of light" has become part of the language of starseeds and awakened Earth dwellers resonating to a more stellar connection and sense of As with the other books by Barbara, this one is full of great fireside-talk sort of writings, and imparts an understanding of our place within a galactic family beyond the confines of Earth Like the phrase "systems buster" from her earlier writings, "family of light" has become part of the language of starseeds and awakened Earth dwellers resonating to a more stellar connection and sense of home.
