Shelves: girly-booksbritishnonfictionreference. The Plot: Victoria Beckham is heralded these days as a fashion icon, mostly because it's the only thing she really contributes to the entertainment world. This book is a candid look at her advice when it comes to all things image - from head to toe - including suggested stores, fashion tips, That Extra Half an Inch: Hair plenty of glossy photos of the Posh one to 'inspire' you.

America is probably already in tune with fashion. The book is certainly not groundbreaking or revolutionary, and is written very directly and simply, with a bit of Victoria's trademark wit and self-deprecating humour.

It almost feels like you're reading a series of blog posts with the simple language and short sentences. That being said, Victoria, much like with her autobiography, continues to present herself as a much more endearing albeit shallow woman than the character snapped by the paps. You can almost picture her standing in front of a classroom of young teens and twenty-somethings talking quite simply about what works for her, and why.

I also give kudos to Victoria for continuing to acknowledge and accept the fact she's only famous because of the Spice Girls. All of her fabulousness would have probably remained wilted on a shelf had she not been Heels and Everything in Between for the group and emerged as the 'stylish' one. She namechecks Geri several times throughout, and gives a special shoutout to the girls in her thank yous.

The Bottom Line: A not particularly groundbreaking vanity project for the fashion inclined, but fun and endearing regardless. Anything Memorable?

Other than the fact I fully want to buy a tutu skirt now. View 1 comment. Its kind of hard not to be. Have you seen her husband? And she's known for her fashion. And there's rumors. I swear, I heard one once where the husband wanted her to remove a rib or something so that she will be thinner.

I don't think that's true. Anyway, a friend of mine gave me a bunch of old magazines and there was one with an article about Victoria and it talks about this book. So I checked it out. I have very little fashion sense. I have enough to know that wearing stripes and dots and hot pink and other tacky colors look bad on me, and most people. I like fashion. I just can't afford it. That's what happens when you spend all your money on food. That's definitely one of my goals for the new year, to start taking better care of what I'm wearing.

Get a bra that fits right as a pair of jeans that aren't baggy. I know that I'll never be comfy in dresses, so I need to play up jeans. In this book she says that she always That Extra Half an Inch: Hair jeans, which doesn't make sense because I never see photos of That Extra Half an Inch: Hair in jeans.

Shes always in dresses. Anyone can read this Heels and Everything in Between. There's even a section for pregnant women. My only beef with it was that all the places she lists to buy clothes are the more pricier stores. Of course, you can't really expect her to shop at Target or Walmart. Other than that, I found it helpful. So Heels and Everything in Between it out. View all 3 comments. I don't care Heels and Everything in Between she is married to, I love Victoria Beckham. Except for her love of Abercromie and Fitch.

Other than this strange quirk, there was plenty to love in her book about style. It seemed as though she was right there, sharing her tips directly with me. I loved the Britishness of it all, as well. She never gave actual price points, which is my other complaint Posh's 'not expensive' is likely not t I don't care who she is married to, I love Victoria Beckham.

She never gave actual price points, which is my other complaint Posh's 'not expensive' is likely not the same as mine but she did suggest affordable alternatives much of the time.

It's mostly practical advice given through the pages of a book rather than over a mug of tea. Nothing special here - I totally got suckered in because I love her hair and thought maybe there were some cool hair tips in here. Anyway, if you have nothing to do and enjoy looking at photos of Posh wearing her wonderbra and a big orange tutu which she pretty much wears over and over in this book although she swears she never dresses like that then this book is for you.

Jan 20, Aspasia rated it it That Extra Half an Inch: Hair amazing. Nor am I ashamed to admit my love for Posh Spice. Despite how she personally dresses a true denizen of Go Fug Yourselfshe dispenses some very good fashion advice in the book. View 2 comments. Sep 13, Cindy rated it liked it.

Well, Ms. Beckham has decided to part with her style secrets in this That Extra Half an Inch: Hair, colorful book to help us average Janes avoid looking "frumpy or mumsy". Whether giving the scoop on jeans and proper fit, beauty care, or dressing for a special occasion, Beckhman manages to keep the tone practical, light and conversational - what you'd expect if your Heels and Everything in Between stylish buddy sat you down and filled you in on the details, from where to buy to what works That Extra Half an Inch: Hair what.

She ge fun book and light reading, I enjoyed it. She generously Heels and Everything in Between desginers and stores where you can acquire some of the same attire that she favors. The chapters on packing tips and maternity wear are great - surely this will help many of us poor souls be less dowdy when with child or with skies!

Some of the advice is pretty funny "The first things I will say about dressing for the holidays is to get all images of reindeer Heels and Everything in Between out of your head. Whether or not you are a fan of Ms. Beckham, you will certainly appreciate much of her counsel. There are many lush, striking photos of Victoria looking very "posh" and chic as well as gorgeous line drawings throughout, making the book Heels and Everything in Between candy for all of us fashion lovers.

This is one of my favorite parts of the book. Lastly, she freely utilizes every opportunity to promote her own line of clothing, dVb, a high end line that she subtly implies is one of the most stylish. That Extra Half an Inch is a collection of style Heels and Everything in Between and tips, rather than a list of exactly what or what not to wear.

Where-to-buy ideas are provided, but this book is more about Victoria Beckham's own fashion inspirations and passions. It's written in a friendly, witty style, making it very readable.
