It was released on May 18, and chronicles the lives of the Flock after the events of Nevermore. But when the world is destroyed and you're alone for the first time ever Maximum Ride: Forever novel opens up with a letter from Max who is telling the reader that they are holding the story of life after the Nevermore apocalypse. She asks the reader that, when they're ready, to read Maximum Ride Forever. After the letter, Max tells the reader that she knows why they're reading the novel: because they want to know the truth.

She then goes on to say that she now believes that the truth is something you have to find out yourself, not with help from adults or the news

Certain events from before Nevermore —such as the Flock 's escape from the SchoolJeb's betrayal, Maximum Ride: Forever Fang leaving the Flock to start his gang—are then mentioned She doesn't know what caused it, but she knows it brought about the end of the world.

Telling the reader that the Flock's history is Maximum Ride: Forever reader's future, she begins the story by introducing the setting: a South Pacific island.

Max, Maximum Ride: ForeverAngel and Nudge are attempting to escape from a volcanic eruption zone when Nudge and Max scream that they forgot Maximum Ride: Forever backpacks in a field. Max tells them to get to a rock outcropping by the southern beach of the island—she'd get the packs—and Gazzy proceeds to warn her that the most time she'd have is five minutes. The Flock leader starts sprinting up the hill, not wanting to risk burning her flight feathers by flying.

She grabs the packs Max looks up and sees a refrigerator-sized boulder headed towards her, leaving her no choice but to tuck and roll.

Once she is a good distance away, she sees that the boulder had obliterated the Maximum Ride: Forever she'd just been lying; and now, the volcano is shooting off a column of lava and smoke at least a thousand feet high.

Max can only watch as the cliff she'd called home for three months is ravaged by Maximum Ride: Forever, but she can't watch for long. The sky begins raining burning rocks, and she attempts to grab all the packs and tools she can; as she is Maximum Ride: Forever for Gazzy's pack, however, it goes Maximum Ride: Forever and flames and she burns her hand. Angel telepathically screams for her to hurry, and Max tells Maximum Ride: Forever to forget about the tools and run.

As she is, she turns onto a rock outcropping. Below the rock cropping, however, a river of lava awaits. Max is flung out into an empty space and starts to fall. As gravity pulls her down, a survival instinct of hers kicks in and she snaps out her wings. She manages to get to the rest of the flock almost safe and sound. They're preparing to leave the area immediately, hoping the lava won't destroy their water resources. It is soon revealed that Maximum Ride: Forever is with them, too. In the end, everyone escapes the most dangerous area Hours later, rain is pouring down, and Max is pacing across a rocky ledge while remembering how paradisaical the island used to be.

Burned and beaten, she realizes that the Flock will have to leave soon regardless of whether or not she wanted to.

Nudge tells Max to get inside their cave, but Max just shakes her head and says that Dylan probably just went in the wrong direction. Upon investigating, they find Dylan's shoe and realize that he must have died. As a memorial service, they let the shoe fall into the ocean.

They continue flying and reach Sydney, Australia, which has been bombed and flooded, and look for shelter. They break into an office but are attacked by Cryenas which scar Nudge's face. Akila helps ward them off but later dies of her injuries and ash inhalation. They fly to a hill overlooking the city and then to an abandoned cabin where they bury Akila.

Fang discovers a laptop with an Internet connection, and they are able to read through news of what happened during the apocalypse.

There are still readers congregating on Fang's blog. The Flock argues over where to go next and Angel telepathically "shows" Fang his fate. Max follows Fang outside and they share a romantic moment, where it is Maximum Ride: Forever that they made love.

They end up falling sleep together, but he leaves before she wakes up, fighting off Maximum Ride: Forever on the way. Total is the only one to see him leave. Fang flies to California to investigate the H-men. Iggy and Gazzy set out for Pennsylvania to search for survivors. Angel heads for Russia.

Max, Nudge, and Total are left behind and Max decides to go back to the island and find out if her family's still alive. Instead they're captured by Rizal 's gang of mutants.

Although Max wants Maximum Ride: Forever leave after they confirm the Martinez family's death, Nudge and Total stay behind. Max encounters more survivors in Africa and promises to help them, but after they try to cut off her wings and eat them, she moves on again. She's attacked by a giant man sent by the Remedy, survives the fight, and flies on to New York and across America.

Meanwhile, Maximum Ride: Forever Remedy has released a being known as Horseman to kill the Flock. He finds and kills Nudge and Total. Fang is attacked and badly wounded by seagulls. He encounters some kids working for the Doomsday Group, who assume he's a Horseman. He gets into a fight with them, but Star saves him. Leaving the boys on a ledge with no weapons, he goes after Star and manages to get her attention with some food.

She explains that Jeb is in league with the Remedy. Max encounters other avian mutants and meets Harry who comes with her when she moves on again. Iggy and Gazzy find a group of girls living in an underground silo in Pennsylvania. The girls force them to clean out sewage, but they're then attacked by the Horseman. Gazzy appears to die in an explosion, and Horseman follows Iggy into the woods to kill him.

Now in Seattle, which has been hit with a nuclear bomb, Max and Harry find a phone. Max gets onto Fang's blog, where she finds rumors of the Flock's deaths. They wake up in a cage, surrounded by brainwashed kids and a man pretending to be the Remedy. Meanwhile, Angel is aware of the Flock's deaths, but Maximum Ride: Forever still traveling around the world gathering rebels into an army. In Alaska, Fang finds Erasers, which have been upgraded into Horsemen, attacking Dylan, who's still alive.

Fang flies in to help fight them off, but the Erasers throw him to the ground in front of Jeb and rip one of his wings off. Somewhere far north, in the snow, Angel has telepathic contact with him and begins to cry as Horseman arrives.

Then she calms down and asks, "Is it done? Max and Harry are sleeping when Dylan arrives, followed shortly by Angel. Dylan reveals that he is Horseman, kidnapped by the Remedy and upgraded, and that he faked the Flock's deaths. Everyone Maximum Ride: Forever safe. Gunther-Hagen is the Remedy. However, Fang's death was not faked. Dylan shows Max a video of his death to prove it, and gives her one of Fang's feathers. Their group flies over the Bering Strait to Russia, where they encounter the rest of the Flock and Angel's army.

Angel rallies the army with a telepathic speech and they begin fighting against the Remedy's soldiers, where are mostly mutant children. Max and Dylan manage to enter the Remedy's underground bunker where Max confronts Jeb. Star and Kate intervene, Maximum Ride: Forever Kate snapping Jeb's neck.

Max and Dylan travel through Dylan's room, meeting Margaret A. He Maximum Ride: Forever that he has hooked Maximum Ride: Forever up to the final nuclear bomb, and if they kill him they will also kill their own army. Max flies him out of the base and up into the sky.

As she flies, he reveals his master plan and gloats that it's over. In turn she reveals that she's Maximum Ride: Forever with Fang's child. When he angrily tries to set off the bomb, it fails to work, and in his desperation he begins trying to stab at her stomach.

Max drops him and he dies on impact. In the aftermath, people clean up from battle, explore Himmel, and prepare to sit out the nuclear winter inside Maximum Ride: Forever underground base. Dylan takes Max to the lab, where he has kept Fang's body in suspended animation and created a new bionic wing to replace the old one. He asks Max whether she wants to use the Maximum Ride: Forever to bring Fang back or not.

She says yes and tells him that she's pregnant. After telling her that he loves her, he brings Fang back to life, killing himself in the process. They all live in the tunnels for almost four years until they reemerge into a world mostly covered in ash.

But no, James Patterson wants to keep the Maximum Ride series alive until he gets all of our money. So awesome. An encore to one of my favorite series!!! Can't wait!!! Is anyone as psyched as I am??

I didn't really like the turn the series took around the 5th book Max but I still loved the series but Maximum Ride: Forever felt like Nevermore wasn't really a satisfying conclusion and was pissed at that but I feel like Patterson kind of screws with his Maximum Ride: Forever with this whole "last book oh wait just kidding" stuff he does.

I am just hoping that this is finally the Maximum Ride: Forever. I hope he saves the series and Maximum Ride: Forever himself. See all 52 questions about Maximum Ride Forever... Lists with This Book. For the love of all that is good Maximum Ride: Forever the world, please Maximum Ride: Forever this be a belated April Fools prank. When Book 8 made its hellish appearance onto bookstore shelves, I was like, "Ok.

This sucks. But hey - he named it Nevermore. Maybe this means he's finally realized that he Maximum Ride: Forever never make more books in this series after this one. James Patterson has decided to milk the money cow and make another book. With an even stupider title than its predecessor. Maximum Ride Forever. Ah, no thanks. H For the love of all that is good in the world, please let this be a belated April Fools prank.

How about Maximum Ride Never Again? Or Maximum Ride Forever Alone? Authors need to know when enough is enough. And this series plunged to its death way before Nevermore made our brains hurt with its over-the-top love triangle and poor excuse for a plot. I used to love this series when it started. And now it's just some series that I Maximum Ride: Forever to know. Sorry, Maximum Ride. But I'm ending this relationship whilst I still slightly respect you!

View all 18 comments. Dec 18, Angelina rated it did not like Maximum Ride: Forever Shelves: adventuretrashtoilet-paper. This is the last time, I swear, this is one time too many now. You could finally put a close to the series after trying to end it no less than twice.

Because you killed it. I don't want to read about this Max, Maximum Ride: Forever cares so much about herself that she'd let the world die.

I don't want to read about Fang, who abandoned Max as well as the new friends he made. I don't want to read a book just so I can see two lines mentioning the character I used to love so much, but bastardizing them into two-dimensional Maximum Ride: Forever of their former selves.

Max and Fang were my first OTP. I loved them. I loved her. I loved how brave she was. I loved them so much. But then everything changed. But you don't write your books anymore, do you? How many lines did Nudge get in your last book? Angel constantly being evil broke me. You used the same plot devices, the same cliched story lines. I know money means a lot to you, but Max meant a lot to me.

I will not be reading this book. I wish I'd never read Nevermore. Sometimes, when I'm not twisted up in rage over your schemes, I even regret ever picking up this series. Once, these books meant the world to me. Once, I Maximum Ride: Forever for them at the library for weeks and waited to buy them at the store.

Not anymore. Thanks for making me hate something I used to love so much. But then again, Maximum Ride: Forever don't think you care anyways. View all 11 comments. Sep 04, Natasha rated it it was amazing.

First of all: I try. I try to understand that Nevermore is full of plot holes. I try to understand that The Final Warning is way off topic.
