Title: Edward Lee's the Bighead This was a great teaser to a brutal, disturbing novel. This movie is not for the weak or easily disgusted.

I was at the movie premiere in LA since I was a kickstarter donor, so I am a bit biased. Everyone there was excited and thoroughly enjoyed the movie. The bottom line is that this is a brutal, graphic adaptation of a "splatterspunk" novel.

It is a short movie with selected scenes intended to shock and draw interest to make *The Bighead* into *The Bighead* full movie. Romance novel for rapists, murderers, and cannibals. Although I am none of those, I just can't stop reading it either. [View 2 comments](#). Everything you've heard about this novel is true. Everything in the book's description is true. There are things in this story that are vile and disgusting enough to gag a maggot.

Be that as it may, this is a really kick-ass horror story. In my opinion, Lee wrote some nasty stuff into this story that didn't need to be there, especially some scatological matters. Still a great story, though.

[View 1 comment](#). Edward Lee has some serious, serious issues. This one takes every taboo it can find and bumps up the WTF factor until you are dry heaving.
