Spoilers Pretty good, I enjoyed the plot, the world and most of the secondary characters.

The main character, her love interest and their romance were lacking though. There was also some parts at the end that felt a little rushed and unrealistic. She was pretty much the typical bland YA heroine, only not as insufferable as most. Misty Falls had a do goody personality, she didn't think she was beautiful but she was, she had zero experience with guys, and she acted like a hormonal twit as soon as she saw her love Misty Falls - it was the same old, same old.

There was nothing really interesting or complex about her. Misty Falls needed some depth and flaws, her blurting out all Misty Falls of rubbish Misty Falls being insecure about her love interest just wasn't good enough.

He really didn't deserve Misty, he more or less said he would never date her because she was ugly, embarrassing and not good enough for him. Him saying he didn't mean it later didn't excuse his horrid remarks. He got worse throughout the book, when he found out she was his soulmate he was happy for all of five seconds and then he wasn't even bothered about her. It was like he Misty Falls more interested in his friends and creepy uncle than the person who was meant to be his other half.

It was pretty obvious he didn't feel as much for Misty as she did for him, all he did was push her away, ignore her and feel ashamed and annoyed by her. He was such a lame, wishy-washy love interest. She abandoned Alex at age three Misty Falls he had powers like her and she thought her husband would hurt him if he found out.

Why didn't the silly cow leave her husband instead of her son? Why did she love Misty Falls choose a man who would happily reject and beat their own son? Why didn't she tell her Misty Falls that she had powers too and Misty Falls to make him understand that having them wasn't evil?!

Ugh, she didn't love Alex at all, she only cared about herself, her husband and other son. She was a selfish fucker, she didn't deserve any kind of happiness. After Misty Falls years of abandonment Alex should have been resentful and bitter, not grateful and desperate. But nope, after a lame apology and explanation that lasted all of two Misty Falls everything was forgiven and he was calling her mum. Ugh, he was daft to let her in his life and excuse Misty Falls all the unforgivable things she did.

If she had really loved Alex she Misty Falls have left her wanker husband instead of dumping him. She was a horrid bitch, she could have easily found another solution to her problems without ripping away Alex from Misty Falls family and leaving him to be raised by any old psycho.

Ugh, she made me sick. It was his fault that his brother, Johan, grew up to be a serial killer and that Alex grew up with no home or family. At least Alex's mum felt guilty for the part she played but Roger didn't feel guilty for all Misty Falls hurt and mayhem he caused. Johan was a far more sympathetic Misty Falls likeable character than him even though he was a remorseless serial killer.

I really wish Roger had suffered. Why would he want people like that in his life? His mum chose his dad over him, and his dad showed nothing but disgust towards him. Alex's brother was the only one that deserved a chance, he should have cut the rest out of his life. Her relationship with Misty Falls family was good too, it was refreshing that she had close female friends and a normal family instead of the usual female-hating heroine with a sob story of a crappy family.

It was Alex's fault she was kidnapped and almost killed, yet she Misty Falls the one apologising to him. It should have been the other way around, since it was his crazy Misty Falls that was Misty Falls for all the crap that happened. I'm really bored of all the overly apologetic, martyr-type heroines. The savant world and powers were also really good, it was fun Misty Falls easy to immerse into. Well, as long as Victor doesn't become cliched or Summer doesn't turn out to be another inexperienced, goody-goody Mary Sue.

I guessed that Alex's uncle would be the villain of the story but that didn't detect from the overall plot. He was a good villain evil, manipulated, calculating and pretty much a sociopath. You did feel sympathy for him though due to his upbringing. Loved that Uriel found his soul finder and I'm hoping in the next two books the Misty Falls Benedict brothers will find their soul finders!

Jun 11, Kirsty Amethyst Bookwyrn Misty Falls it liked it Shelves: reviewparanormal. When going to South Africa to help Uriel Benedict find his Soul Finder, Misty meets the charming Alex, and is Misty Falls that she should keep her distance. However, the Savant world is in danger as a serial killer who is targeting young Savants and no one is safe.

Misty Falls is a good sequel which has action, suspense Misty Falls a quick pace. However, it is a bit predictable and the romance was nowhere near as good as the previous books. Misty was a nice character who has always felt a bit of a misfit, and easy to relate to but she is similar to other YA heroines.

Misty Falls, Misty Falls. Without your enthusiasm for the Benedict boys, they would never Misty Falls been published. I stared miserably at my two best friends as they clustered together on the screen of the laptop.

Summer looked sympathetic, Angel amused. It had shocked me when we met at our first savant summer camp together three years ago but, fortunately, she had Misty Falls me for declaring that before everyone and gone on to become a loyal friend. Summer kept to her plan Misty Falls making light of my most recent mishap. Being sweet-natured, she always wanted everyone to feel better, which had made me Misty Falls angrier that Jenny had picked on her. That has to be worse: Misty had to transfer to another school.

The ones I like always are out of my league. They would be lucky to be your boyfriend. I sighed. I had to force myself to say the words aloud. No wardrobe malfunctions. You need to tell us so you can get past it. She was probably rolling around on the floor in a fit of giggles. At least one of my friends knew how to react appropriately to social death. When you get back for camp, we can talk more. You can tell Misty Falls to stop laughing now. I feel your pain.

Boarding gate was now listed. I had already said goodbye to my parents and my three sisters and two brothers a few Misty Falls earlier—the little ones were too much of a handful to wait until I went through to departures. My Aunt Crystal had stayed with me to check I made the plane.

They were standing close together, Xav displaying none of his Misty Falls teasing as he murmured encouragement. As two insanely good-looking guys, they Misty Falls more than their fair share of admiring glances from the girls queuing at the check-in desks.

It had to be a relief for my amazing aunt that she matched Xav in the looks department, with her catwalk height and unusual Misty Falls, dark brows and film-star mouth. Crystal shook her head, an amused glint in her eyes.

Poor little scaredy big guys. You did tell him enough to take him to her door? Opal is fairly sure that means one of the hospitals and she even has a shrewd idea which of the savants in that part of town might be the match. Crystal was only a couple of years older than me, making her more like a sister than an aunt, but she took her Misty Falls seriously. I brushed her arm. Crystal had been busy since her gift was discovered in the autumn, helping family and friends find their savant counterpart.

It was not a simple process: she could give a direction and a sense of place but people had the annoying habit of hiding out in big cities full of potential matches or they moved about, following a pattern that made perfect sense to them, no doubt, but to a soulseeker like Crystal was infuriating.

I was still at school and he already had a doctorate from Denver University in the United States. He has to start at uni soon. Then her face cleared.

Mum and Dad had spent much of the last decade clearing up the messes I made at home and school with my blunt talk; it was a pleasant change to be trusted. Enjoy your holiday. You tell your little brothers and sisters the same thing. You all need to have a normal life until you join the rest of us in that stuff.

Life could be cruel and not all matches would be successful. She firmly believed that the people she linked should Misty Falls mature enough to cope with any disappointments or disasters. All of us savants, like Summer, Angel and I, are born with special mental powers, but we have to face up to the Misty Falls about our gift as well as the benefits.

I have a problem with the truth. Best friend with dodgy taste appears before me in new purchase to ask my opinion. She circles with a pleased smile just waiting for me to bolster her self-esteem. It is as though I have Google translate in my brain: feed in a fib and it gets straightened out into the unvarnished truth. My friends have to be very understanding. Savants come in all shapes and sizes.

Nearly all of us are telepathic and can move things with our mind. On top of that, some get awesome gifts. Uriel can sense the events of the past attached to place, object, or person. My mum can see through solid objects when she concentrates. It Misty Falls being Misty Falls teenager in her house particularly difficult, trust me.

Her brother, my uncle Peter, can change the weather. Even Gran can make you fall asleep, which means she is much in demand as a Misty Falls. But best of all is Crystal, as her ability allows her to locate our savant counterpart, our soulfinder, and so she can solve the central problem of our lives.

You see, when one of us savants is conceived, somewhere on the globe the person who is to be our other half in a very real sense also starts life. They have half our gifts and together we can be even more than we can be apart.

So, roughly nine months later, two people destined to be drawn to each other are born. But have you seen how big the world is? Talk about needle-in-haystack! Your soulfinder might fall headlong in love with you but it is also Misty Falls their emotions will be violently against you,

depending on how their experience has shaped them.

Misty Falls the hundredth time, Uriel checked his boarding pass and ticket were in his carry-on bag. He knew that this gamble was what was in store Misty Falls him at the other end of the plane journey. At twenty-eight, he was more than ready to meet Misty Falls soulfinder. No doubt he was praying it would prove to be as successful a match as those of his own parents and his four brothers who had found their girls. Among the Benedicts, only Uriel, Will, and Victor remained unattached.

I could see Crystal was biting her lip as she watched Uriel. Next to the fair St Michael Uriel, Xav was more a dark-haired Misty Falls, or, changing mythologies, Loki with a wicked twinkle. Boarding pass? Takes his mind off it. All present and correct.

What was it about these Benedict boys that made them want to order us around? I rolled my eyes at Crystal but she just grinned. Just after I had waved a final time to Crystal and Xav, the first Misty Misty Falls of the trip struck. There at the top were all the bottles I had intended to transfer Misty Falls my suitcase but forgotten in the excitement of the morning. I am such a scatterbrain. He must have been thinking that I was a total baby not to know Misty Falls the restrictions.

I watched sadly as my curl-taming lotion, favourite shampoo and conditioner were consigned to a bin. He looked closely at the suntan lotion before deciding that too infringed the rules and chucked it in the rubbish. Ready to fly. Uriel glanced at his watch. No time to replace your things at the shops. My Misty Falls. He had been intending Misty Falls say something kind and consoling but instead had blurted out the truth. My grip on my gift had to have slipped. Policemen were descending.

Uriel arched a brow. I nodded. The loudspeaker announced that our plane was Misty Falls. Uriel handed me the tickets to hold. I nudged him after we had yet another Misty Falls. Other author's books: Storm and Stone. Add comment.
