## **KRYON 12 LAYERS OF DNA PDF**

This is the twelfth book in the Kryon series. Three years in the making, it is the first book of its kind, and may eventually define the more than 20 year Kryon lineage.

DNA is our chemical blueprint, but the Volume 12) Genome Project found that over ninety percent of it is not coded. In fact, only approximately four percent creates the 23, genes in the Human body. The rest? It's a puzzle to the extreme, and The Twelve Layers of DNA (Kryon Book 12) (Kryon this day there is no answer The Twelve Layers of DNA (Kryon Book 12) (Kryon most of DNA seems to have no symmetry or codes of any kind. In fact, it seems to be random.

Kryon has now given us full channelled explanation of this, and brings it right into the quantum world. Is it possible that DNA is mostly quantum instructions - information that speaks to the Human body? And if so, what's in those instructions that comprise over 2.

Here is a full revelation of the twelve layers, or energies of DNA, complete with full color Volume 12) illustrations of each layer by American-Israeli artist Elan Dubro-Cohen.

Could it be that our entire Akashic record is carried in our DNA? What else might be represented? It starts to make sense, and the most recent discoveries of quantum physics only enhances the potentials of this quantum molecule. With a foreword by DNA researcher Dr.

Todd Ovokaitys, this book is an esoteric breakthrough. Foreword by Dr. I tell you this since I'm assuming that you picked up this book well aware that it is esoteric information channeled by a beautiful energy from beyond Volume 12) veil. That means that almost everything to follow is from a source that is metaphysical in nature, and not a scientific study. I travel the earth channelling Kryon to thousands of attendees in auditoriums in very exotic places - Moscow, Jerusalem, Santiago, Caracas, Paris, Geneva, Bogota, Riga, Sao Paulo; my work takes me to areas that I thought I would never see.

For 21 years and with 14 other books, I have expounded on the messages of Kryon, now in 24 languages worldwide. Since I have been delivering messages of self-empowerment and spiritual guidance through this loving entity, and have been invited and channelled seven times at the Society for Enlightenment and Transformation at the United Nations in New York City.

Never in my work, however, has there been a single subject that would occupy such a long ramp-up in learning, or The Twelve Layers of DNA (Kryon Book 12) (Kryon entire book, until now. In Kryon began giving me indications that something special would be revealed that would create a book unto itself. Volume 12) that point, I never thought I would be required to learn Hebrew words or study numerology to present it. But this obviously was part of the plan.

Kryon began giving me the full esoteric meanings behind the DNA energy within our bodies. He did it carefully over a long period of time The Twelve Layers of DNA (Kryon Book 12) (Kryon that it would stick within my memory and be written down and studied. There are a total of 12 energies or layers of study around our DNA, and each one has a Hebrew name.

In addition, each Hebrew name is a "name of God. This means that instead of just a "list" of the DNA layers, I would have the revelation of a "system" before I was done You can't read this book and not be aware of The Twelve Layers of DNA (Kryon Book 12) (Kryon magnificent place in the Universe.

When you are finished and put the book down, you have to take a deep breath and ponder Eventually, each layer will be presented one by one, with the appropriate teaching around it. In order to really get something out of this book, you have to see all of this, however, not as a study of 12 things, but a study of the enormity of a system that somehow places "pieces of God" on the planet, and then asks them to discover "the rest of the story. Could it be true?

If so, what will you do with the information? Don't read this book if you just want some more things to add to your list of what you know. Instead, read it with the The Twelve Layers of DNA (Kryon Book 12) (Kryon that there is a great deal more you are about to discover about yourself. Then also realize that with self-discovery comes change, often big change, and many more questions.

The first chapter after this introduction is a discussion of why this information and energy is invisible to the logic of our minds, and especially why it is that you cannot see it with your eyes.

We are all beginning to "connect the dots" these days with what science is starting to also acknowledge. Science is not beginning to prove our esoteric points, but rather it is beginning to provide a scientific bed for our esoteric information to lay in, which gives us permission to move our previously "strange ideas" to the "possibility of reality" to the eyes of many.

Simply put, what is happening is that there is a confluence of scientific fact that is beginning to fit with this very study. Spirituality and science may, indeed, someday be so similar that it will be hard to separate them. After that I will give you the lineage of this study and discuss those who participated, willingly or not, so you can understand where some of the Hebrew and numerology is coming from and why things got arranged the way they did.

There is a discussion of the structure of DNA following that, and a revelation of things that are "out of logic" becoming far more logical. This includes the latest on "junk DNA," what it might be (Volume 12), and why it was ever called that.

My favorite discussion is entitled, "Things nobody every thinks about. I cover some very controversial and esoteric information that is the basis behind the Kryon teaching. You have to know a larger (Volume 12) of what has happened on the earth before you can then launch into this study of what is in your DNA.

For much of what Kryon lists in our DNA is historical and carries within it more than years of "who you might be. Don't miss the part about me in Australia, with the flies. I'll also discuss basic numerology in The Twelve Layers of DNA (Kryon Book 12) (Kryon chapter, and it's a far more comprehensive topic than some may think.

It's a multidimensional discussion and as complete as I can make it as an introduction to that science. Next, the discussion begins, layer by layer, of what Kryon speaks of regarding Human DNA - the names, the energies, the purposes, a blueprint of "mastery inside.

Kryon is. As you read this book, you will see that the actual definitions and teaching about the individual layers is not the actual majority of the book. This is on purpose, for the book does not exist to give you still another list of things to have in your metaphysical locker.

Instead, I hopefully wish to surround you with the profundity of what DNA actually might be, and what it really means to us. Within the layer discussion, Kryon often opens up to other subjects, some stories, and even attributes of ET's! So it's a lively discussion to say the least. Next I will present four channellings by Kryon about the activation of DNA, Human scientific bias, and the multidimensional existence in general.

These channellings were given in the last months of writing this book and are an excellent way to bring the practical (Volume 12) of this esoteric teaching The Twelve Layers of DNA (Kryon Book 12) (Kryon a larger focus. Sometimes there are duplications in information within the book, and especially within the live channellings.

Just walk through it, for the live channellings are given independent of the information within this book, so there are several explanations of the "junk" DNA being the real energy of our spirituality. To edit this out diminishes the energy of the live experience.

Anyway, I personally don't think we can hear it too much! Be aware that all through this book, Kryon and I use the word quantum interchangeably with multidimensional.

The real physics meaning of the word quantum refers to a minimum unit of matter or energy in a transfer process. The word comes from the Latin "quantus," or how much. However, we are using the word as a popular colloquialism, specific to what people are hearing today, instead of the actual physics terminology.

Therefore, a "quantum state" means "a multidimensional state" in this book. Probably the reason this term took on this popular meaning was because most of physics refers to things in a pure, empirical state.

However, (Volume 12) theory of quantum mechanics gave us the beginning of the understanding of things that seemed to be in a "random" state, or what some even call "chaos. Lastly I give you some current events to ponder. What do you think Spirit's reaction is to Human organ transplants?

If DNA is absolutely unique, and contains our Akashic record, what is the spiritual integrity of a transplant? Should it be done? What if the person is going to die without it? There are some very good common sense answers in this section. (Volume 12) I discuss the latest "creation of man-made life," the very small DNA molecule that has been totally created in the laboratory in The Twelve Layers of DNA (Kryon Book 12) (Kryon Is it proper?

Does it affect us? What are the ramifications of it all? Again, it's current and there is common sense presented within the answers. In the very back of the book are the beautiful full color channelled illustrations of the DNA layers by artist Elan Dubro-Cohen.

These are truly a beautiful addition to this book! It's the first time any Kryon book has had color within its pages. The last remarks will be about the fact that this book will be copied and called something different, added (Volume 12), reworked with another name, made into the evil manifesto of the century and (Volume 12) common things that all happen to my books.

But hey See all the DNA layers, complete with explanation and Hebrew pronunciation!

Most of the chapters are by Kryon, but several of them are penned by the channeller, Lee Carroll. There are 12 layers or energies around our DNA, each with a Hebrew name. Each Hebrew name is a name of God.

This is a fantastically empowering book. We learn that our DNA is multi-dimensional, which means we are too! Lee Carroll had to have Hebrew lessons prior to the DNA channellings so as to be able to pronounce the Hebrew names correctly This is perhaps the most fascinating, and best of all the Kryon books.

Lee Carroll had to have Hebrew lessons prior to the DNA channellings so as to be able to pronounce the Hebrew names correctly or as correctly as possible. Abraham, who is the father of The Twelve Layers of DNA (Kryon Book 12) (Kryon three major religions on Earth, spoke ancient Hebrew. Kryon chose Hebrew names that had a close resonance to the layer vibration itself.

The Human genetic code contains about 23, Human genes. Only 8 percent of DNA is in 3D layer 1 while the other 11 The Twelve Layers of DNA (Kryon Book 12) (Kryon multi-dimensional. Before humans received the Pleiadian DNA, they had no creator within. This information shocked me! All indigenous societies including the Hawaiians point to the Pleiadians as being our forebears. Lemuria was the first The Twelve Layers of DNA (Kryon Book 12) (Kryon civilization of man and it was situated there where Hawaii is now.

From about 50, years ago the many kinds of Humans slowly began to diminish. The kind that had been given the Pleiadian genes had slowly replaced all the other kinds.

The various DNA layers are not actually layers but are presented in this linear fashion in order to facilitate our understanding. As humans, we do not understand multidimensionality. There is much fascinating and basic information about numerology in connection with the explanation about the DNA layers. The number one represents new beginnings. Layer One is the Volume 12) helix. It receives and transmits. It is time The Twelve Layers of DNA (Kryon Book 12) (Kryon us now to increase this percentage.

It gives the human being a feeling of purpose Volume 12) direction. It helps with spiritual awakening. Layers Volume 12) and Five are our Angelic Name. When he feels our angelic name, he looks at our DNA Akashic record, and sees all of our lives on the planet. All this is in our angelic name. We are informed that our guides and angels are all pieces and parts of our own soul group.

When we arrive as a baby on Earth we are only a fraction of who we were. Layers Four and Five together are the essence of our expression and our divinity on the planet. Layer Six is the Higher Self.

The higher self is absolute divinity. It is the connection to the other side. It is God in us. It was given to us by the Pleiadians.

It represents the end of innocence and the beginning of spiritual awareness. This contains not only past lives, but karma. All the lifetimes we have lived were stepping stones for the one we are now living. Layers 10, 11 and 12 are the God layers. It does nothing to convince you of anything spiritual until asked to.

It is the Pure Compassion and Mother Layer. It is again a multidimensional layer that is everywhere at the same time and again does nothing unless asked to. It assists the wise, divine feminine to show through both men and women. God has split apart a piece that lives in us which is also in an entangled state part of God — part of me.

Kryon states that there is a part of the creator consciousness in every Human who has ever lived on the planet. However, this contradicts his previous statement that only the Humans with the Pleiadian genes have God within them, not the ones, now extinct, without these genes. At Volume 12) end of the book we find beautiful channelled paintings portraying the energies of each of the DNA layers.

In conclusion, I would state that this is an amazing book containing invaluable information. It divulges that our DNA contains our divinity, and that the time has come for us to learn to use these divine powers by communicating with our cells and requesting their help. I would reiterate that in my

view this is the most important of the Kryon books, and would absolutely recommend that you read it. Jan 31, Sarah Lawrence hinson rated it it was amazing. Make The Twelve Layers of DNA (Kryon Book 12) (Kryon mistake about it, this is a very esoteric book.
